Sharyland Independent School District

Sharyland Independent School District is named in honor of John H. Shary, who was president of the district’s first Board of Trustees. Created in 1921, this twenty-six square-mile school district is located in Hidalgo County. Sharyland ISD is committed to providing the highest quality education to inspire academic excellence and provide students the foundation for a successful post-secondary college and career experience.

At Sharyland ISD, we believe:
- In educating the whole child through a culture of academic success
- All children can learn and succeed
- In providing high expectations for student achievement and quality instruction
- In innovative practices in a rigorous environment
- In embracing diversity
- In valuing parental involvement and community partnerships
- Our staff is dedicated to excellence
- A safe, supportive environment is necessary for learning

Our Vision
Sharyland ISD...Excellence is our Tradition

Our Mission
Sharyland ISD’s mission is to inspire, educate and empower all students to reach their full potential and become leaders of the highest moral character.
A Message from Our Superintendent

Dear Parents and Students,

Sharyland Independent School District and the department of curriculum and instruction is committed to providing students with innovative curriculum, 21st century college and career readiness skills, and differentiated instruction to meet the needs of every child. The Sharyland ISD Curriculum Guide is designed to help you build the best foundation toward a productive and very successful future.

Sharyland ISD is highly recognized throughout the state of Texas for phenomenal state achievement scores, advanced curriculum, its wide range of highly competitive academic and extracurricular courses, and outstanding postsecondary readiness programs. Each decision you make while in high school will impact your future, therefore it is imperative that you learn the information listed in this guide and choose the path that is right for YOU. At Sharyland ISD, we pride ourselves in taking student interest inventories, and creating programs and academic pathways that fit our students' interests. Students can choose from a wide array of certification options, career and technical fields, dual credit options, AP programs, and so much more!

As your Superintendent, it is my hope that you challenge yourself and choose the right pathway for you, one that meets your goals, and makes you the best individual you can be!

Sincerely,

Dr. Maria M. Vidaurri
Superintendent
Sharyland Independent School district
Course Description and Information Guide

The Sharyland ISD High School Curriculum Guide serves as an information guide designed to inform students about course and graduation requirements, as well as become familiar with all academic pathways available at SISD. It is our goal to provide ALL students with the tools necessary to become successful and productive adults in the future.

Students are highly encouraged to develop a four-year plan that is tailored to meet their own individual interests. In order to meet the needs and interests of each child, Sharyland ISD provides a vast array of opportunities in career and technical education programs, advanced placement, and dual credit courses, associate degree completion pathways, certificate courses in many high-demand occupations, and degree core-complete opportunities. Campus guidance counselors as well as administrative staff are available to assist students in developing a graduation plan that is right for each student.

Sharyland Independent School District also encourages families and community members to be well versed in what Sharyland ISD has to offer. It is important that students make informed decisions about what courses they take and how these courses will impact their future. If you have any questions, please visit with the administrative staff or guidance counselors at your campus to get the help you need.

The contents of this handbook are not contractual and do not give rise to a claim of breach of contract against the school district. Courses listed may or may not be available on all campuses or may not be offered in a given year. Intervention courses that are not listed in this handbook may be offered to students who need to pass STAAR End-of-Course examinations. Sharyland ISD does not discriminate on the basis of color, national origin, sex or handicap, and provides equal opportunity for students in career and technical education programs and activities. The contents of this handbook may be amended in the future.
High School Graduation Requirements

A student entering Grade 9 in the 2014-2015 school year and thereafter, shall enroll in the courses necessary to complete the curriculum requirements for the Foundation High School Program specified in §74.12 of the Texas Administrative Code and the curriculum requirements for at least one endorsement specified in §74.12 of this title (relating to Endorsements).

- These local requirements will be waived for students who transfer to Sharyland ISD schools during their senior year.

*Dual Credit or College Board Advanced Placement courses may satisfy graduation requirements, including requirements for required courses, advanced courses, and courses for elective credit, as well as, requirements for endorsements. Check with your academic guidance counselor for all available options.*
State Assessments and Graduation Requirements

The State of Texas Assessments of Academic Readiness (STAAR) program, which was implemented in spring 2012, includes annual assessments for:

- Reading and Mathematics, grades 3–8
- Science at grades 5 and 8
- Social Studies at grade 8

The resources on the TEA website provide information to familiarize Texas educators as well as the public with the design and format of the STAAR program. The information should help educators understand how the STAAR program measures the Texas Essential Knowledge and Skills (TEKS) curriculum standards. These resources should support, not narrow or replace, the teaching of the state-mandated curriculum, the TEKS.

What is STAAR?

The State of Texas Assessments of Academic Readiness, or STAAR, is the state testing program that was implemented in the 2011–2012 school year. The Texas Education Agency (TEA), in collaboration with the Texas Higher Education Coordinating Board (THECB) and Texas educators, developed the STAAR program in response to requirements set forth by the 80th and 81st Texas legislatures. STAAR is an assessment program designed to measure the extent to which students have learned and are able to apply the knowledge and skills defined in the state-mandated curriculum standards, the Texas Essential Knowledge and Skills (TEKS). Every STAAR question is directly aligned to the TEKS currently implemented for the grade/subject or course being assessed.

What are the general testing requirements for students enrolled in high school courses?

Regardless of enrolled grade level, students should take STAAR EOC assessments (Algebra I, English I, English II, Biology, and U.S. History) as they are completing the corresponding courses since these assessments are required for high school graduation based on TEC §39.025. For more information on STAAR End-of-Course, please visit https://tea.texas.gov/student.assessment/staar/

Figure: 19 TAC §101.3041(c)(1)
State of Texas Assessments of Academic Readiness End-of-Course Assessments Performance Standards

**State of Texas Assessments of Academic Readiness (STAAR®)**
Performance Labels and Policy Definitions

**MASTERS GRADE LEVEL***
Performance in this category indicates that students are expected to succeed in the next grade or course with little or no academic intervention. Students in this category demonstrate the ability to think critically and apply the assessed knowledge and skills in varied contexts, both familiar and unfamiliar. * For Algebra II and English III, this level of performance also indicates students are well prepared for postsecondary success.

**MEETS GRADE LEVEL**
Performance in this category indicates that students have a high likelihood of success in the next grade or course but may still need some short-term, targeted academic intervention. Students in this category generally demonstrate the ability to think critically and apply the assessed knowledge and skills in familiar contexts. ** For Algebra II and English III, this level of performance also indicates students are sufficiently prepared for postsecondary success.

**APPROACHES GRADE LEVEL**
Performance in this category indicates that students are likely to succeed in the next grade or course with targeted academic intervention. Students in this category generally demonstrate the ability to apply the assessed knowledge and skills in familiar contexts.

**DID NOT MEET GRADE LEVEL**
Performance in this category indicates that students are unlikely to succeed in the next grade or course without significant, ongoing academic intervention. Students in this category do not demonstrate a sufficient understanding of the assessed knowledge and skills.

For more information, please visit [https://tea.texas.gov/student.assessment/staar/performance-standards/](https://tea.texas.gov/student.assessment/staar/performance-standards/).
STAAR EOC Student Scores

To log in to www.texasassessment.com and view your assessment results, enter your six-character Unique Access Code and the student’s date of birth that appears on your most recent STAAR Report Card. The code must be entered exactly as it appears.

Don’t Have an Access Code?

If you don’t have a Unique Access Code or a copy of your STAAR Student Report Card, please contact your local school.

For more information on STAAR End-of-Course assessments, please visit www.texasassessment.com.
The Foundation High School Program with endorsements is a flexible program that allows students to pursue their interests. It is the default graduation program for students who entered high school in the 2014-15 school year and beyond. The program contains up to four parts:

- A 22-credit foundation program which is the core of the new Texas high school diploma
- Five endorsement options that allow students to focus on a related series of courses
- A higher performance category called Distinguished Level of Achievement
- Performance Acknowledgments that note outstanding achievement in specific areas

**Distinguished Level of Achievement and Endorsements**

A student may earn the Distinguished Level of Achievement and/or a Performance Acknowledgement for outstanding performance. In order to be admitted to a Texas public university under the Top 10 percent automatic admission law, the Distinguished Level of Achievement must be earned by the student.

**Distinguished Level of Achievement**

- Foundation Program requirements;
- A total of 4 credits in math including Algebra II;
- A total of 4 credits in science;
- Successful completion of an endorsement in your area of interest.

**Performance Acknowledgements**

- Dual credit course
- Bilingual and biliteracy
- PSAT, ACT ASPIRE, SAT or ACT
- Advanced Placement
- Earning a state-, nationally-, or internationally recognized business or industry certification or license

The Distinguished Level of Achievement opens educational and employment opportunities for you beyond high school.

- Allows you to compete for Top 10% automatic admissions eligibility at any Texas public university;
- Positions you among the first in line for a TEXAS Grant* to help pay for university tuition and fees; and other financial aid options
- Ensures you are a more competitive applicant at the most selective colleges and universities.
- Prepares you for college – level course work at community/technical colleges and universities.
- Provides opportunity for immediate enrollment in classes related to your chosen field of study; and
- Lays a strong foundation to successfully complete an industry workforce credential or college degree.

**Grading Guidelines and Policy Procedures**

This page provides information to students and parents in reference to different areas of our curriculum and guidelines and policy in place for implementation. The Sharyland ISD Guidelines & Policies are accessible through this link:

https://sharylandisd.org/departments/curriculum/guidelines___policies

**High School Semester Exam Exemption Policy**

https://sharylandisd.org/departments/curriculum/guidelines___policies
Grade Classifications and Graduation Requirements

All students entering high school as a freshman (9th Grade) will need to meet the following credit requirements for grade level promotion:

<table>
<thead>
<tr>
<th>Grade and Classification</th>
<th>Credits</th>
<th>Credits needed each year</th>
</tr>
</thead>
<tbody>
<tr>
<td>12th Grade (Senior)</td>
<td>18+</td>
<td>26 Credits needed for graduation + endorsement</td>
</tr>
<tr>

<td>12 – 18</td>
<td>18 credits needed for 12th grade classification</td>
</tr>
<tr>
<td>10th Grade (Sophomore)</td>
<td>6 – 12</td>
<td>12 credits needed for 11th grade classification</td>
</tr>
<tr>
<td>9th Grade Freshman</td>
<td>0 – 6</td>
<td>Successfully promoted to 9th grade. 6 credits needed for 10th grade classification</td>
</tr>
</tbody>
</table>

Course Offerings and Availability

Courses are offered according to student need and teacher availability. Campus schedules are determined by course selection and graduation requirements. Additional courses may be added to student schedules in order to facilitate STAAR End-of-Course instructional support in order to meet state graduation requirements.

Class Ranking

Class rank shall be determined by averaging all core course semester grades through the end of each year. Final senior class rank shall be determined by using the average of all core course semester grades up to and including the third semester, and the last progress report grade for the 50-minute period. Coursework completed by non-traditional correspondence, credit by examination, summer school, or off-campus dual enrollment courses shall not be included in determining class rank. High school course work completed while in Junior High shall not be included in determining class rank.

Calculating Class Rank

Grade weights shall be assigned to grades earned by high school students who entered grade 9 in the 2016–17 and beyond school year for purposes of class rank. For AP courses taken in grades 9–11, students shall receive AP (Level VI) weight only if they score a 3, 4, or 5 on the associated AP test for that course. For AP courses taken in grade 12, students shall receive full AP (Level V) upon completion of the course. Sharyland ISD’s Class Ranking Chart can be found on the Sharyland ISD webpage under www.sharylandisd.org/school_board/board_policy/ through the EIC Local Policy link.

High School Block Scheduling

High School students at Sharyland ISD follow a hybrid scheduling system that includes four (4) 90-minute blocks and one (1) 50-minute block. The school year is divided into two (2) terms per semester and four (4) semesters. Each term allows students the opportunity to complete full credits in 18 weeks. Some courses may be offered for a full credit during the year-long 50-minute block.

Schedule Changes

Students may qualify for a schedule change for the following reasons only:

- Student has earned credit for the course that is currently on their schedule;
- Student does not have the prerequisite(s) for the course currently on their schedule;
- Student has been removed from a program for which approval is needed for placement;
- Student failed a course previously and is currently scheduled to take the course again with the same teacher;
- Senior student not scheduled for a course needed for graduation purposes
- Data entry error;

*Master schedule changes may be affected by insufficient course enrollment or instructor availability.*
Course Level Changes

Students may qualify for a course level change for the following reasons only:

- Student has attended tutorials with the teacher 3 or more times prior to the course level change.
- Student has completed all work and has no missing assignments for the course.
- Teacher provides counselor and administrator documentation that the student has made a sincere effort to succeed and has not been able to earn a 70 in the course.

A campus administrator and Head Counselor will approve a course level change only if a student has complied with the criteria above, and IF there is space available in the lower level course. Students who transfer to a lower level course after the first 6 weeks are not eligible to earn the weighted points for the semester. Students who transfer to a lower level course after the 1st semester will receive the weighted points for that semester only.

Lateral course changes are not allowed (i.e., Honors English II to another Honors English II class). Only changes from AP to Honors, AP to CP, or Honors to CP are allowed by campus administration.

Credit Recovery

Students may gain credit through computer assisted instruction or credit by exam, for courses previously failed. Not all courses are eligible for recovery. Students must contact their school counselor for more information.

Texas Virtual School Network

The TXVSN course catalog provides Texas public schools students with expanded access to high school courses. Students may take online high school, Advanced Placement, and dual credit courses selected from the catalog along with courses at their campus in order to meet their graduation plan. Students have the option to complete TXVSN courses at school, off-campus, or any location where Internet access is available. For more information, please visit https://www.txvsn.org
Sharyland ISD Endorsements

All Sharyland ISD students must select an endorsement upon entering 9th grade. Students can earn one or more endorsements as part of their graduation requirements. Endorsements consist of a related series of courses that are grouped together by interest or skill set. They provide students with in-depth knowledge of a subject area. Students can earn an endorsement by completing the curriculum requirements for the Foundation High School Program (FHSP); and the curriculum requirements for an endorsement, including 4 credits in both math and science and 2 additional elective credits.

Students can choose from 5 endorsement areas:

<table>
<thead>
<tr>

Career Exploration Program

VirtualJobShadow.com

VirtualJobShadow empowers our students to discover, plan and pursue their dreams using a unique video-based career planning platform. The interactive tools help students and job seekers develop career paths based on choice, not chance. Students can use this tool to learn more about themselves and develop their academic and career plans. The key features this tool offers includes:

- **Career Central**
  - This is where all of the career profiles are located allowing students to explore specific careers by choosing from a range of industries and fields. There is an extensive collection of careers and job shadowing videos, which include closed captioning and transcripts in both English and Spanish.

- **College Search**
  - Search and/or research post-secondary institutions that can offer the career or degree program students are interested in.

- **Job Search**
  - Search and/or research jobs, internships, and work-based learning experiences that are available in your area.

- **Career Assessments**
  - Interest assessments provide our students with more insight into themselves and help to guide the career exploration process. Students are encouraged to obtain these results first and then explore their career possibilities!

- **Resume Builder**

- **Postsecondary Plan Builder**

- **Goal Setting**

Each student has access to a personal account. Visit our [CTE website](#) and click on the [VirtualJobShadow link](#) to the left for instructions on how to log on.

Our students have access to VirtualJobShadow from K – 12th grade, with various features available to certain grade levels. Counselors schedule classroom lessons to speak to students about careers and to administer the interest inventories. This information helps students be better informed as they select the endorsement they are going to pursue in high school. Students and parents will confirm the endorsement with their school counselor and periodically meet with their assigned School Counselor or CTE Counselor to ensure they are on track in fulfilling their endorsement and high school graduation requirements.

**Four-Year Personal Graduation Plan (PGP)**

The Four-Year Personal Graduation Plan (PGP) is created at the end of the student’s eighth grade year and reviewed each year and requires student and parental approval. Personal graduation plans identify educational goals for each student to include monitoring and intervention information, and other evaluation strategies. In order to receive a diploma from Sharyland ISD, students must meet all graduation requirements and pass the five required STAAR End-of-Course state assessments. Each personal graduation plan (PGP) identifies the courses that will satisfy program requirements and prepare students for their chosen post-secondary education and career.
**Go Center**

The Go Center at Sharyland High School, Sharyland Pioneer High School and Sharyland Advanced Academic Academy is equipped to assist all Sharyland ISD students with post-secondary needs such as financial aid, scholarships, testing (ACT/SAT, TSI), high school transcripts, and so much more.

English Language Learners

Speaking a second language has numerous benefits in today's globalized society. Bilingualism can improve competitiveness in the job market, open career opportunities, increase the potential to earn more money, open social and cultural opportunities, give a new perspective, improve problem-solving, multitasking and decision-making.

The state of Texas requires that every student in the state who has a home language other than English and is identified as Limited English Proficient (LEP) be provided the opportunity to participate in an English as a second language (ESL) program. The ESL program emphasizes the mastery of English language skills within content-based instruction through individualized instructional approaches such as sheltered instruction.

Sharyland ISD implements the Content-Based ESL Model in which teachers provide supplementary instruction for all content areas by integrating ESL instruction with subject matter instruction that focuses on learning a second language using English as a medium to learn math, science, social studies, and other academic subjects. Teachers are ESL Certified and/or have received professional development in Sheltered Instruction.

Each campus has a Language Proficiency Assessment Committee (LPAC) that reviews student data to determine language proficiency levels of English Learners (ELs). The committee consists of a campus administrator, an ESL Teacher, and a parent of a current EL. The LPAC recommends courses according to the EL’s proficiency level and academic achievement to provide additional support as the student gains proficiency in English.

In recognition of the benefits of attaining proficiency in two or more languages, Texas offers students the opportunity to earn a Performance Acknowledgement in Bilingualism and Biliteracy by meeting specific state criteria. This accolade must be clearly indicated on the student’s diploma and transcript. The following support is provided to ensure ELs continue to progress:

District Support

▪ Provide professional development opportunities for campus staff
▪ Provide state required training for LPACs
▪ Provide additional funds for staff, programs, materials, and professional development
▪ Provide guidance and support to campus administrators, teachers, and parents/guardians
▪ Provide a district-wide electronic system, Project ELL, to monitor progress for each English Language Learner

Campus Support

▪ Courses that assist ELs with second language acquisition
▪ Courses that provide additional support for success on state assessments
▪ Computer programs that individualize instruction for ELs (may vary by campus)
▪ Achieve 3000 – to improve comprehension of nonfiction reading and develop writing skills
▪ ESL Reading Smart – to develop English language proficiency with an emphasis on literacy and academic language development
▪ My Virtual Reading Coach – to improve decoding and reading comprehension (not limited to ELs)
▪ Read180 – to master critical reading skills (not limited to ELs)
▪ Rosetta Stone – to learn a second language
Section 504

The Rehabilitation Act of 1973, reauthorized in 2008, commonly referred to as “Section 504,” is a non-discrimination statute enacted by the United States Congress. Under Section 504, an individual with a disability (also referred to as a student with a disability in the elementary and secondary education context) is defined as a person who: (1) has a physical or mental impairment that substantially limits a major life activity; (2) has a record of such an impairment; or (3) is regarded as having such an impairment.

The determination of whether a student has a physical or mental impairment that substantially limits a major life activity (and therefore has a disability) must be made on a case by case basis. In addition, when determining if someone meets the definition of a disability, the definition must be understood to provide broad coverage of individuals.

Physical or mental impairments. Section 504 defines a physical or mental impairment as any
- Physiological disorder or condition,
- Cosmetic disfigurement, or
- Anatomical loss affecting one or more of the following body systems: neurological; musculoskeletal; special sense organs; respiratory, including speech organs; cardiovascular; reproductive; digestive; genitourinary; hemic and lymphatic; skin; and endocrine.

The Section 504 definition of physical and mental impairment also includes any mental or psychological disorder. The definition does not include all specific diseases and conditions that may be physical or mental impairments because of the difficulty of ensuring the completeness of such a list. The purpose of the Act is to prohibit discrimination and to ensure that students with disabilities have educational opportunities and benefits equal to those provided to other students. An eligible student under Section 504 is a student who has a physical or mental impairment that substantially limits them in a major life activity such as learning, self-care, walking, seeing, hearing, speaking, reading, concentrating, breathing, working, and performing manual tasks. See the campus 504 Coordinator for more information about services for qualifying students. For more information on Section 504, please visit this website: https://www2.ed.gov/about/offices/list/ocr/docs/504-resource-guide-201612.pdf

Texas Education Code (TEC) §38.003 defines dyslexia in the following way:
(1) “Dyslexia” means a disorder of constitutional origin manifested by a difficulty in learning to read, write, or spell, despite conventional instruction, adequate intelligence, and sociocultural opportunity.

(2) “Related disorders” include disorders similar to or related to dyslexia such as developmental auditory imperceptions, dysphasia, specific developmental dyslexia, developmental dysgraphia, and developmental spelling disability. For more information on Dyslexia and related disorders please visit: http://www.statutes.legis.state.tx.us/Docs/ED/htm/ED.38.htm#38.00an
Section 504, Students with Dyslexia and Related Disorders

Each Sharyland ISD campus has an assigned Section 504 coordinator who oversees the campus 504 program and reports directly to the District 504 Coordinator. Each campus 504 Coordinator monitors and holds committee meetings to progress monitor current students in the program, and initiate the 504 procedures for each student for each calendar year. The campus 504 Coordinator also evaluates student documentation for all students who may qualify for Section 504 services. The 504 Coordinator is also responsible for those students who are eligible for dismissal from the 504 program. Sharyland ISD schools serve students with dyslexia or related disorders in a variety of ways as determined by a campus 504 committee. Services may include specialized instruction, classroom accommodations, and assistive technology. See the campus 504 Coordinator for more information about services for qualifying students. For additional information, you may contact our District 504 Coordinator, Maria C. Boyd at (956) 580–5200.

Special Education Services

Students with disabilities have the opportunity to participate in educational programs and activities with students without disabilities. The school district curriculum enables each student with disabilities to acquire content knowledge and skills commensurate with the student’s needs and abilities. These skills may be attained in the general program of instruction or through special education modification, accommodation or instruction and related services, as determined by the Admission, Review, and Dismissal (ARD) Committee. Based on a student’s Individualized Education Program (IEP), students may take specific courses to meet graduation requirements.

If a student has or is suspected of having a disability and requires specially designed instruction that can only be provided through special education, please contact a campus guidance counselor for information concerning the special education referral process.
College and Career Readiness Programs

College and Career Readiness programs provide students with a successful transition from high school to college or career. These programs provide students with the opportunity to gain the skills, knowledge, and experience necessary for postsecondary success. Sharyland ISD provides a variety of programs to fit different post-secondary interests. All high school students are encouraged to participate in college and career readiness programs that provide high academic rigor. Students who participate in advanced level course work while in high school, are more likely to graduate from a college or university.

Advanced Placement
With AP®, students can take college-level course work in high school. When students take AP courses and exams, they demonstrate to college admission officers that they have sought out an educational experience that will prepare them for success in college and beyond. Performing well on an AP Exam means more than just the successful completion of a course. Most colleges and universities accept successful exam scores for credit, advanced placement, or both. Research consistently shows that students who are successful in AP typically experience greater academic success in college than those who don’t participate in AP. Formal identification of Gifted and Talented (GT) is not required to participate in Honors and/or AP courses. To learn more about Honors or AP courses, please visit: https://apstudent.collegeboard.org/exploreap/the-ap-experience

Dual Credit Core Complete
Core academic courses are general education courses required for any student who plans to pursue a traditional associate or baccalaureate degree in Texas. Dual Credit core academic credits earned at public institutions of higher education are transferable to Texas public colleges and universities and may be applicable to a student’s Associate of Arts (AA) or Associate of Science (AS), and baccalaureate degrees. See the Texas General Education Core Curriculum WebCenter for more information.
As part of the Dual Credit Core Complete Option, students will receive college credit and high school credit simultaneously, can graduate from high school with transferable college credits, and save on tuition and fees by reducing the time to complete a degree. Students can also fast track their undergraduate or workforce degrees, and will have access to a full range of college student support services while in high school to aid them in a smooth transition to college after graduation.

Career and Technical Education
Career and Technical Education (CTE) programs offer a sequence of courses that provide students with coherent content. CTE content is aligned to challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in current or emerging professions. Various of our CTE programs offer students the opportunity to earn industry-based certifications and to participate in work-based learning to ensure students are prepared for in-demand, high-skill, and high-wage careers in Texas.
Sharyland ISD students can participate in one or a combination of the following programs:

- Advanced Placement Scholar Academy
- Dual Credit Core Complete Academy (42 college hours while in high school)
- Career and Technical Education (CTE) Program

All college and career readiness programs at Sharyland ISD are designed to provide students with skills needed to engage in an academically sound and rigorous course of study. These courses, academies, and programs serve as the precursor for post-secondary transition. Therefore, students must be aware that each college and career readiness program comes with significant requirements. Some examples of these requirements may be more study time or additional coursework than in previous years. Students participating in extra-curricular courses in conjunction with academies or advanced placement programs must also take into consideration the amount of time needed to be successful at each. It is important that students visit with their school counselor prior to participating in any program.
Sharyland ISD Advanced Placement Scholar Academy

Sharyland ISD offers an additional incentive for those students who choose to pursue the AP program through the AP Scholar Academy. The AP Scholar Academy offers a rigorous, relevant and challenging Advanced Placement curriculum for high school students. The curriculum is aligned to College Board standards and expectations. Students enrolled in the AP Scholar Academy will participate in AP courses that challenge them to expand their knowledge, increase their skills, and dig deeper into their subject matter. Students who are motivated to challenge themselves academically will develop the requisite skills needed to achieve success in AP courses, improve SAT & ACT scores, and establish the academic foundation necessary to be successful in a 2- or 4-year university program.

Why the Sharyland ISD AP Scholar Academy?

The Sharyland ISD AP Scholars Academy is designed for students seeking a rigorous and advanced curriculum throughout their high school career, as well as providing the opportunity for becoming a well-rounded student. The AP Scholars Academy will offer students the following services:

- Challenging courses of study to include Honors and Advanced Placement courses
- Supportive framework for students willing to tackle advanced courses
- Opportunities for students to participate in other academic and extracurricular activities
- SAT and ACT test preparation
- Additional GPA points for class ranking with every AP core subject test score of 3, 4, or 5
- Special recognition on diploma and graduation ceremony

Sharyland ISD students only: For AP courses taken in grades 9–11, students shall receive AP (Level VI) weight only if they score a 3, 4, or 5 on the associated AP test for that course. For AP courses taken in grade 12, students shall receive full AP (Level V) upon completion of the course.

General Requirements
- Meet all graduation requirements as specified by the district and state
- Requirements for various levels are specified in the chart on following page

Graduation Accolades
- SISD AP Scholar Stole (all levels)
- White graduation gown for AP Scholars with Distinction and above

Dual Credit Opportunities for Sharyland ISD Students

Dual enrollment, or more commonly known as **Dual Credit**, is the process of enrolling in college courses and using those classes as credit toward high school graduation. The dual credit program allows eligible high school students to enroll in college courses while attending high school. Courses are taken in place of, or in addition to the normal course load in high school. High school students admitted to the program must meet the same requirements as all other college students.

Students must also meet the TSI standards for college readiness, or be TSI exempt in order to enroll in academic courses. College credit is earned upon successful course completion and may be applied towards an associate’s degree at STC or may transfer to other colleges and universities. For more information on Dual Credit, please visit: [https://catalog.southtexascollege.edu/general-admissions/dual-enrollment/](https://catalog.southtexascollege.edu/general-admissions/dual-enrollment/).

The college credit earned may help students earn a post-secondary certificate or associate’s degree from South Texas College. Upon successful completion of college courses or college hours, the certificate or associate’s degree may transfer to other institutions of higher education.

Students enrolled with Sharyland ISD have two (2) Dual Credit opportunities:

### Sharyland ISD Dual Credit Core Complete Academy

This option is offered at Sharyland High School and Sharyland Pioneer High School. Dual Credit Core Complete provides students the opportunity to earn up to **42 college credit hours** in general core curriculum while in high school. The requirements to qualify are as follows:

- Meet Honors Course Standards and successfully complete two (2) Honors core courses during freshman (9th grade) year.
- Submit a completed Apply Texas Application online at [http://www.applytexas.org](http://www.applytexas.org) indicating Dual Credit.
- **Take and successfully pass** the Texas Success Initiative (TSIA 2.0) assessment (or TSI exemption scores). Passing scores are as follows:
  - MATH: CRC score of 950-990 or, CRC score of 910-949 with a Diagnostic Level of 6.
  - ELAR: CRC score of 945-990 with an Essay of 5-8 or, CRC score of 910-944 with a Diagnostic Level of 5-6 and an Essay of 5-8.
- You are TSI exempt if you submit verification that you have completed one of the following:
  - ACT: 23 Composite with a 19 English and 19 Math
  - SAT: score of 480 on the Evidence-Based Reading and Writing (EBRW) test; a minimum score of 530 on the Mathematics section. (There is no combined score if SAT was administered after March 5, 2016)

**Visit the Go Center for details and to sign-up for the TSIA 2.0**

**IMPORTANT:**
Students MUST maintain a 2.0 grade point average in ALL college courses. Any grade below a “C” will result in permanent removal from the program.
Career and Technical Education

The Sharyland ISD Career and Technical Education (CTE) Department offers various programs that enable our students to prepare for college and careers. These programs consist of a sequence of courses related to specific areas of focus, also known as a career clusters, each providing students with coherent and rigorous content. CTE content is aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare students for further education and careers in current or emerging professions. The CTE career clusters we currently offer are:

- Agriculture, Food, and Natural Resources
- Architecture and Construction
- Arts, Audio Visual Technology, and Communications
- Business, Management, and Administration
- Education and Training
- Finance
- Health Science
- Hospitality and Tourism
- Human Services
- Law, Public Safety, Corrections, and Security
- Science, Technology, Engineering, and Mathematics
- Transportation, Distribution, and Logistics

The Sharyland ISD Career and Technical Education (CTE) Department provides direction and leadership for all CTE programs in the district. It focuses on: ensuring the implementation of the CTE Texas Essential Knowledge and Skills (TEKS); ensuring that adequate equipment and materials are readily available for the delivery of instruction; offering a wide array of college and career events; developing and maintaining business/community partnerships; and overall, on improving our established CTE programs.
Curriculum and Instruction

The Curriculum Division provides state-level support, information and non-regulatory guidance to school administrators, teachers, counselors, parents, and students about general curriculum laws and rules, particularly with respect to graduation requirements, options for offering courses, and the award of credit.

The division is responsible for supporting development and implementation of the Texas Essential Knowledge and Skills in the foundation curriculum (English language arts, mathematics, science, and social studies) and the enrichment curriculum (career and technical education, fine arts, health education, languages other than English, physical education, and technology applications).

*It is Sharyland ISD’s intent to offer all courses in this catalog. Some courses may not be offered if sufficient student interest of enrollment is not evident. Instructor availability may also impact course offerings.*
### English I

**Recommended Grade Placement:** 9  
**Credit:** 1  
English I incorporates written and oral communication skills through the study of reading, writing, and research. Students practice a variation of written tasks in a variety of genres while utilizing descriptive, narrative, persuasive, and expository techniques. Students learn skills in revising and editing, and the correct use of the conventions and mechanics of written English. Students also study literature which includes but is not limited to short stories, poetry, mythology, biographies, and Shakespearean plays. Students read multiple genres in depth by analyzing works, and interpreting the historical and cultural influence in each context. Students are assigned outside reading and writing assignments. This course requires successful performance on the STAAR End-of-Course assessment for graduation.

### English I Honors

**Recommended Grade Placement:** 9  
**Credit:** 1  
English I Honors covers English I curriculum with an emphasis in critical thinking skills, analysis, and synthesis. These are all essential in preparing students for the AP Language and Literature courses. This course integrates the skills necessary for the STAAR English I End-of-Course assessment, and prerequisite skills for Advanced Placement English Language Arts courses in 11th and 12th grade. Students will practice a variety of written tasks including research, literary analysis, revising and editing, and incorporate the correct use of conventions and mechanics of written English. English I Honors requires creative thinking in both individual and cooperative settings. The intentional rigor implemented in this course is to prepare students for dual credit, advanced placement (AP), and college level coursework. This course requires successful performance on the STAAR English I End-of-Course examination for graduation.

### English II

**Recommended Grade Placement:** 10  
**Credit:** 1  
English II emphasizes reading and writing across all genres and continues the refinement of reading, writing, and research skills as learned in English I. Students use the writing process to produce effective arguments to include the research process and information from primary and secondary sources. Students will read critically by analyzing and responding to a variety of literary genres. Students will interpret the possible historical and cultural influences in literature. Students will also critique oral communications including media literacy and analyze author’s purpose and the effect on the audience. This course requires successful performance on the STAAR English II End-of-Course assessment for graduation.

### English II Honors

**Recommended Grade Placement:** 10  
**Credit:** 1  
English II Honors provides an enhanced version of the English II curriculum that will help students build on prior knowledge and further prepare for Advanced Placement Language and Literature courses. English II Honors includes advanced mechanics, syntax, usage and vocabulary. Students analyze discourse in persuasive and informational texts and gain exposure to AP reading and writing strategies and AP writing prompts. The course requires critical reading of a variety of classic and contemporary literature with an emphasis in literary and rhetorical analysis and synthesis of author’s style and purpose. Written compositions require the use of revising and editing skills and the use of technology to research topics and publish essays. Students will also use technology and visuals to produce a variety of oral and media communications. The intentional rigor implemented in this course is to prepare students for dual credit, advanced placement (AP), and college level course work. This course requires successful performance on the STAAR English II End-of-Course assessment for graduation.
### English for Speakers of Other Languages I  
TEA# 03220100  
Course # 0126

**Recommended Grade Placement:** 9  
**Credit:** 1  
**Prerequisite: LPAC Recommendation**

ESOL I enables non-English speaking students to acquire sufficient beginning vocabulary to develop comprehension skills to communicate with English speakers. Instruction begins with a focus on listening and speaking while reading and writing skills are developed simultaneously as the student develops an increased level of English. Students will develop literacy skills to accelerate learning in language arts as well as other content areas. This course requires successful performance on the STAAR English I End-of-Course assessment for graduation.

### English for Speakers of Other Languages II  
TEA# 03220200  
Course # 0136

**Recommended Grade Placement:** 10; **Prerequisite:** LPAC Recommendation  
**Credit:** 1  

ESOL II enables the limited English-speaking student at the intermediate or advanced level to continue to increase and refine language skills. ESOL students read a variety of texts to develop an increased level of understanding of English. Students will write in a variety of forms with increased accuracy to address a specific purpose and audience in language arts as well as other content areas. This course requires successful performance on the STAAR English II End-of-Course assessment for graduation.

### English III  
TEA # 03220300  
Course # 0142

**Recommended Grade Placement:** 11  
**Credit:** 1  

English III continues to increase and refine students’ written and oral communication skills, building on reading, writing, and research skills they developed in English I and English II. English III involves an intensive study of advanced usage of critical reading and writing skills, and vocabulary. The course will draw on a variety of literary genres including literary texts, informational texts, and literary essays. Students will analyze the works and interpret the possible historical and cultural influence in literature. Students will write analytical essays, including a documented research paper and use technology to revise, edit, and publish compositions. Students will present and critique oral communications and multimedia products.

### English III Honors  
TEA # 03220300  
Course # 0148

**Recommended Grade Placement:** 11  
**Credit:** 1  

English III Honors provides an emphasis in critical analysis of texts through reading, writing, and media. This course will include more challenging literature and will integrate higher order and critical thinking skills through thought-provoking questions, concepts, and research topics. Students will compose a variety of written texts with a clear controlling idea, coherent organization and detail. In English III Honors, students are expected to know how to locate a range of relevant sources and evaluate, synthesize, and present ideas and information. Students are required to work as self-directed learners who can work both independently and collaboratively.
English III Dual Credit

Recommended Grade Placement: 11
Credit: 1
Prerequisite: English I and English II; Met South Texas College acceptance criteria

**STC ENGL 1301 Composition I** - This course is an intensive study of and practice in writing processes, from intervention and research, to drafting, revision, and editing, both individually and collaboratively. Emphasis on effective rhetorical choices, including audience, purpose, arrangement, and style. Focus on writing the academic essay as a vehicle for learning, communicating, and critical analysis.

**STC ENGL 1302 Composition II Rhetoric** - (Prerequisite: “C” or better in English 1301) - This course is an intensive study of and practice in the strategies and techniques for developing research-based expository, argumentative, and persuasive texts. Emphasis on effective and ethical rhetorical inquiry, including primary and secondary research methods; critical reading of verbal, visual, and multimedia texts; systematic evaluation, synthesis, and documentation of information sources; and critical thinking about evidence and conclusions.

AP English Language and Composition

Recommended Grade Placement: 11
Credit: 1
College Board Recommended Prerequisite: There are no prerequisites for the courses, but students should be able to read and comprehend college-level texts and apply the conventions of Standard Written English in their writing.

AP Language and Composition emphasizes the analysis of a variety of literary and nonfiction texts with particular attention to the writer’s style, diction, syntax, argumentation and logic. The AP English Language and Composition course requires students to become skilled readers of prose written in a variety of rhetorical contexts as well as become skilled writers who compose for a variety of purposes. Students will become aware of interactions among a writers’ purposes, an author’s propositional content, genre conventions, and the resources of language that contribute to effectiveness in writing. Students also write their own refined arguments and synthesize arguments from different sources and understand the elements and dynamics of rhetorical theory. Students practice research skills and long-term project management that will be required in college classes. The intentional rigor implemented in this course is to prepare students for advanced placement (AP) assessments and college level course work. This course will follow the AP English Language and Composition Advanced Placement requirements outlined in the AP College Board Course and Exam Description.

English IV

Recommended Grade Placement: 12
Credit: 1

English IV connects all high school English courses and continues the refinement process of necessary skills for effective reading, writing, speaking, and listening for post-secondary readiness. This course emphasizes the use of critical thinking skills, the use of rhetorical strategies in student’s writing, and the study of major works in a variety of genres. The students will be connecting historical content, major themes and concepts from multiple genres to produce written assignments. Students will use technology to revise, edit, and produce text and research for documentation.
**English IV Honors**

**Recommended Grade Placement:** 12  
**Credit:** 1  

English IV Honors is designed to focus on preparation for college level reading and writing with an emphasis in higher level and critical thinking skills. Students will compose a variety of written texts, with a clear thesis statement, coherent organization, and significant detail. Students will also research a range of relevant topics, evaluate sources, and present ideas and information throughout the course in different forms. Students will also employ oral and written conventions where students will address standards from English I, English II, and English III. The English IV Honors course requires that students work as self-directed learners, who can work both independently, and collaboratively. This course is a culmination of all high school levels of English, with advanced support and preparation to meet the postsecondary expectations.

---

**English IV Dual Credit**

**Recommended Grade Placement:** 12  
**Credit:** 1  

**Prerequisite:** Met South Texas College acceptance criteria; a grade of "C" or better in both ENGL 1301 and ENGL 1302  

**STC ENGL 2321 British Literature** - This course is a survey of the development of British literature from the Anglo-Saxon period to the present. Students will study works of prose, poetry, drama, and fiction in relation to their historical, linguistic, and cultural contexts. Texts will be selected from a diverse group of authors and traditions.  

**STC ENGL 2341 Introduction to Forms of Literature** - (Prerequisite: "C" or better in ENGL 1301 and ENGL 1302) - This course is the study of one or more literary genres including, but not limited to, poetry, fiction, drama, and film. Students will study works of prose, poetry, drama, and fiction in relation to literary periods, terms, and criticism. Texts will be selected from a diverse group of authors and traditions.

---

**AP English IV Literature and Composition**

**Recommended Grade Placement:** 12  
**Credit:** 1  

**College Board Recommended Prerequisite:** There are no prerequisites for the courses, but students should be able to read and comprehend college-level texts and apply the conventions of Standard Written English in their writing.  

AP English Literature and Composition is a course that engages students in the careful reading and critical analysis of imaginative literature. Through close reading of selected texts, students deepen their understanding of the ways writers use language to provide meaning for their readers. Throughout the course, students will consider a work’s structure, style and themes, as well as such smaller-scale elements as the use of figurative language, imagery, symbolism and tone. Students will analyze literary elements and writer’s style related to purpose, audience, and theme. The intentional rigor implemented in this course is to prepare students for advanced placement (AP) assessments and college level course work. This course will follow the AP English Literature and Composition Advanced Placement requirements outlined in the AP College Board Course and Exam Description.

---

**Newcomers English Language Development**

**Recommended Grade Level:** 9  
**Credit:** 1  

Newcomers English Language Development (NELD A&B) courses are designed to provide instructional opportunities for secondary level recent immigrant students with little to no English proficiency. The development of communicative competence occurs through targeted lessons based on students’ needs.
Reading I, II, III  
**TEA # 03270700 (I); 03270800 (II); 03270900 (III)**  
**Course # 0103 (I), 0104 (II), 0107 (III)**  
**Recommended Grade Levels: 9 – 12**  
Credit: 1  
Reading I-III are courses where students apply a variety of word recognition strategies and build an extensive vocabulary through systematic word study. They read silently and orally with fluency and build comprehension in increasingly demanding texts. Various strategies are used to comprehend, analyze, and evaluate texts. Students will create personal responses to a variety of texts reflecting diverse cultures and research topics of interest by reviewing and evaluating print and non-print sources.

Creative Writing  
**TEA # 03221200**  
**Course # 0125**  
**Recommended Grade Levels: 10 – 12**  
Credit: 1  
The study of creative writing allows high school students to earn one-half to one credit while developing versatility as a writer. Creative Writing, a rigorous composition course, asks high school students to demonstrate their skill in such forms of writing as fictional writing, short stories, poetry, and drama. All students are expected to demonstrate an understanding of the recursive nature of the writing process, effectively applying the conventions of usage and the mechanics of written English. The students’ evaluation of their own writing as well as the writing of others ensures that students completing this course are able to analyze and discuss published and unpublished pieces of writing, develop peer and self-assessments for effective writing, and set their own goals as writers.

Journalism I, II, III  
**TEA # 03230100 (I), 03230140 (II), 03230150 (III)**  
**Course # 0168 (I), 0169 (II), 0170 (III)**  
**Recommended Grade Levels: 9 – 12**  
Credit: 1 per course  
Students enrolled in Journalism I write in a variety of forms for a variety of audiences and purposes. High school students enrolled in this course are expected to plan, draft, and complete written compositions on a regular basis, carefully examining their papers for clarity, engaging language, and the correct use of the conventions and mechanics of written English. In Journalism I, students are expected to write in a variety of forms and for a variety of audiences and purposes. Students will become analytical consumers of media and technology to enhance their communication skills. Published work of professional journalists, technology, and visual and electronic media are used as tools for learning as students create, clarify, critique, write, and produce effective communications. Students enrolled in Journalism will learn journalistic traditions, research self-selected topics, write journalistic texts, and learn the principles of publishing.

Advanced Journalism  
**TEA # 03230110 (I); 03230120 (II); 03230130 (III)**  
**Course # 0160 (I), 0162 (II), 0164 (III)**  
**Recommended Grade Levels: 9 – 12**  
Credit: 1 per course  
Students enrolled in Advanced Journalism: Yearbook I, II, III communicate in a variety of forms such as print, digital, or online media for a variety of audiences and purposes. High school students are expected to plan, draft, and complete written and/or visual communications on a regular basis, carefully examining their copy for clarity, engaging language, and the correct use of the conventions and mechanics of written English. In Advanced Journalism: Yearbook I, II, III, students are expected to become analytical consumers of media and technology to enhance their communication skills. In addition, students will apply journalistic ethics and standards. Published works of professional journalists, technology, and visual and electronic media are used as tools for learning as students create, clarify, critique, write, and produce effective communications. Students enrolled in Advanced Journalism: Yearbook I, II, III, will refine and enhance their journalistic skills, research self-selected topics, and plan, organize, and prepare a project(s) in one or more forms of media.
Debate I, II, III

Recommended Grade Levels: 9 – 12
Credit: 1 per course
Controversial issues arise in aspects of personal, social public, and professional life in modern society. Debate and argumentation are widely used to make decisions and reduce conflict. Students who develop skills in argumentation and debate become interested in current issues, develop sound critical thinking, and sharpen communication skills. They acquire life-long skills for intelligently approaching controversial issues.

College Preparatory ELAR HB5

Recommended Grade Level: 12
Credit: 1
This course is created in partnership with at least one institute of higher education to assist students with meeting college readiness in ELA. It is designed for students at the 12th grade whose performance on coursework or college entrance exams indicates that they may need additional support to perform entry-level college coursework. Students must obtain a 70 in the class and on the cumulative assessment of the course to receive credit for the course. Note: This course will satisfy the fourth English Language Arts credit for graduation. Although College Preparatory ELA is a state approved ELA elective credit, most colleges and universities will not accept it for admission purposes and may request students take the TSIA.

Practical Writing

Recommended Grade Levels: 9 – 12
Credit: 0.5 – 1
The study of writing allows high school students to earn one-half to one credit while developing skills necessary for practical writing. This course emphasizes skill in the use of conventions and mechanics of written English, the appropriate and effective application of English grammar, the reading comprehension of informational text, and the effective use of vocabulary. Students are expected to understand the recursive nature of reading and writing. Evaluation of students’ own writing as well as the writing of others ensures that students completing this course are able to analyze and evaluate their writing.

It is Sharyland ISD's intent to offer all courses in this catalog. Some courses may not be offered if sufficient student interest of enrollment is not evident. Instructor availability may also impact course offerings.
### Algebra I

**Recommended Grade Placement:** 9  
**Credit:** 1  
Algebra I extends comprehension of number and algebraic methods from grades 6-8, and integrates graphing, solving linear functions, and understanding equations and inequalities. Students are expected to describe, graph, write, and solve quadratic functions and equations, understand exponential functions, polynomials, radical expressions, sequences, and laws of exponents. Students will apply solutions to explore data and analyze statistical relationships in both the classroom and real-world scenarios. In Algebra I, there is additional emphasis in problem solving using real objects, manipulatives, paper and pencil, technology, mental math, estimation, and number sense, multiple representations, and applications of mathematical skills and concepts which connect to all other math courses in high school. This course requires successful performance on the STAAR Algebra I End-of-Course assessment for graduation.

### Algebra I Honors

**Recommended Grade Placement:** 9  
**Credit:** 1  
Honors Algebra I serves as a foundation for all upper level and advanced placement mathematics courses, and initiates specific focus on mastery of linear, quadratic, and exponential functions. Students are expected to understand each function as it operates within transformations, equations, and associated solutions in both the classroom and real-world scenarios. Students will study polynomials, radical expressions, sequences, and laws of exponents and are expected to describe, graph, write, and solve linear systems with two or more equations or variables, and create new functions through transformations. Honors Algebra I includes a more in-depth study of Algebra I curriculum with additional emphasis on critical thinking and high-level problem-solving skills. The intentional rigor implemented in this course is to prepare students for dual credit, advanced placement (AP), and college level course work. This course requires successful performance on the STAAR Algebra I End-of-Course assessment for graduation.

### Algebra I ESL

**Recommended Grade Placement:** 9  
**Credit:** 1  
**Prerequisite:** LPAC Recommendation  
Algebra I ESL extends comprehension of number and algebraic methods from grades 6-8, integrates graphing, solving linear functions, and understanding equations and inequalities with specific reinforcement in English language development. Students are expected to describe, graph, write, and solve quadratic functions and equations, understand exponential functions, polynomials, radical expressions, sequences, and laws of exponents at each student’s pace. The teacher will implement Sheltered Instruction Observation Protocol (SIOP) strategies as part of the student’s daily instruction to reinforce language acquisition and mathematical concepts. Students will apply solutions to explore data and analyze statistical relationships in both the classroom and real-world scenarios. In Algebra I, there is additional emphasis in problem solving using real objects, manipulatives, paper and pencil, technology, mental math, estimation, and number sense, multiple representations, and applications of mathematical skills and concepts which connect to all other math courses in high school. This course requires successful performance on the STAAR Algebra I End-of-Course assessment for graduation.
Algebra I Extended  
**TEA # 03100500**  
**Course # 0361, 0362, 0366**

**Recommended Grade Placement:** 9  
**Credit:** 1  
Algebra I extended incorporates comprehension of number and algebraic methods from grades 6-8, and integrates graphing, solving linear functions, and understanding equations and inequalities in a year-long course. Students are expected to describe, graph, write, and solve quadratic functions and equations, understand exponential functions, polynomials, radical expressions, sequences, and laws of exponents. Students will apply solutions to explore data and analyze statistical relationships in both the classroom and real-world scenarios. In Algebra I, there is additional emphasis in problem solving using real objects, manipulatives, paper and pencil, technology, mental math, estimation, and number sense, multiple representations, and applications of mathematical skills and concepts which connect to all other math courses in high school. Algebra I Extended is the year-long version of the Algebra I accelerated block course. This course requires successful performance on the STAAR Algebra I End-of-Course assessment for graduation.

Geometry  
**TEA # 03100700**  
**Course # 0370**

**Recommended Grade Placement:** 10  
**Credit:** 1  
**Prerequisite:** Algebra I  
In Geometry, students will build on the knowledge and skills for mathematics from Kindergarten-Algebra I to strengthen their mathematical reasoning skills in geometric contexts. Within the course, students will begin to focus on more precise terminology, symbolic representations, and the development of proofs. Students will explore concepts covering coordinate and transformational geometry; logical argument and constructions; proof and congruence; similarity, proof, and trigonometry; two-and three-dimensional figures; circles; and probability. Students will connect previous knowledge from Algebra I to Geometry through the coordinate and transformational geometry strand. Using patterns to identify geometric properties, with an emphasis in probability and statistics in the college and career readiness standards.

Geometry Honors  
**TEA# 03100700**  
**Course # 0372**

**Recommended Grade Placement:** 9, 10  
**Credit:** 1  
**Prerequisite:** Algebra I  
In Geometry Honors, students will build on the knowledge and skills for mathematics in Kindergarten- Algebra I to strengthen their mathematical reasoning skills in geometric contexts. Within the course, students will begin to focus on more precise terminology, symbolic representations, and the development of proofs. Students will explore concepts covering coordinate and transformational geometry; logical argument and constructions; proof and congruence; similarity, proof, and trigonometry; two-and three-dimensional figures; circles; and probability. Students will connect previous knowledge from Algebra I to Geometry through the coordinate and transformational geometry strand. Using patterns to identify geometric properties, with an emphasis in probability and statistics in the college and career readiness standards. Students will also learn mathematical areas of probability and statistics in geometry as preparation for college entrance exams. The intentional rigor implemented in this course is to prepare students for dual credit, advanced placement (AP), and college level course work.
Mathematical Models with Applications  TEA# 03102400  Course # 0388

Grade Placement: 11, 12  
Credit: 1  
Prerequisite: Algebra I

Mathematical Models with Applications is designed to build on the knowledge and skills for mathematics in Kindergarten-Grade 8 and Algebra I. This mathematics course provides a path for students to succeed in Algebra II and prepares them for various post-secondary choices. Students learn to apply mathematics through experiences in personal finance, science, engineering, fine arts, and social sciences. Students use algebraic, graphical, and geometric reasoning to recognize patterns and structure, model information, solve problems, and communicate solutions. Students will select from tools such as physical objects; manipulatives; technology, including graphing calculators, data collection devices, and computers; and paper and pencil and from methods such as algebraic techniques, geometric reasoning, patterns, and mental math to solve problems.

Algebra II  TEA# 03100600  Course # 0382

Grade Placement: 9-11  
Credit: 1  
Prerequisite: Algebra I

Algebra II integrates Algebra I and Geometry concepts as students are introduced to Algebra II content curriculum in quadratic functions, exponential functions, and systems of equations. In Algebra II, students will also build on the knowledge and skills for mathematics in Kindergarten-Grade 8 and Algebra I. Students will broaden their knowledge of quadratic functions, exponential functions, and systems of equations. Students will study logarithmic, square root, cubic, cube root, absolute value, rational functions, and their related equations. Students will connect functions to their inverses and associated equations and solutions in both mathematical and real-world situations. In addition, students will extend their knowledge of data analysis and numeric and algebraic methods. Algebra II is a pre-requisite course for most fourth-year mathematics courses and carries mathematical concepts that connect to the college and career readiness pathway.

Algebra II Honors  TEA# 03100600  Course # 0380

Grade Placement: 9-11  
Credit: 1  
Prerequisite: Algebra I

Algebra II Honors integrates Algebra I and Geometry concepts as students are introduced to Algebra II content curriculum in quadratic functions, exponential functions, and systems of equations. In Algebra II, students will also build on the knowledge and skills for mathematics in Kindergarten-Grade 8 and Algebra I. Students will broaden their knowledge of quadratic functions, exponential functions, and systems of equations. Students will study logarithmic, square root, cubic, cube root, absolute value, rational functions, and their related equations. Students will connect functions to their inverses and associated equations and solutions in both mathematical and real-world situations. In addition, students will extend their knowledge of data analysis and numeric and algebraic methods. Algebra II Honors carries mathematical concepts that focus on additional Algebra II concepts to prepare students for dual credit, advanced placement (AP), and college level course work.

Advanced Quantitative Reasoning  TEA# # 03102510  Course # 0389

Grade Placement: 11  
Credit: 1  
Prerequisite: Geometry; Algebra II

Advanced Quantitative Reasoning teaches students how to develop and apply skills necessary for college, careers, and life. Course content consists primarily of applications of high school mathematics concepts to prepare students to become well-educated and highly informed 21st century citizens. Students will develop and apply reasoning, planning, and communication to make decisions and solve problems in applied situations involving numerical reasoning, probability, statistical analysis, finance, mathematical selection, and modeling with algebra, geometry, trigonometry, and discrete mathematics.
### Pre-Calculus

<table>
<thead>
<tr>
<th>Grade Placement: 11, 12</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credit: 1</td>
</tr>
</tbody>
</table>

**Prerequisite:** Algebra I; Geometry; Algebra II

Pre-calculus is a course that prepares students for calculus and is designed to strengthen and enhance conceptual understanding and mathematical reasoning used when modeling and solving mathematical and real-world problems. Students systematically work with functions and their multiple representations. The study of Pre-calculus deepens students' mathematical understanding and fluency with algebra and trigonometry and extends their ability to make connections and apply concepts and procedures at higher levels. Students investigate and explore mathematical ideas, develop multiple strategies for analyzing complex situations, and use technology to build understanding, make connections between representations, and provide support in solving problems.

### Pre-Calculus Honors

<table>
<thead>
<tr>
<th>Grade Placement: 11, 12</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credit: 1</td>
</tr>
</tbody>
</table>

**Prerequisite:** Algebra I; Geometry; Algebra II

Pre-Calculus Honors is the preparation for calculus. The course approaches topics from a function point of view, where appropriate, and is designed to strengthen and enhance conceptual understanding and mathematical reasoning used when modeling and solving mathematical and real-world problems. Students systematically work with functions and their multiple representations. The study of Pre-calculus Honors deepens students' mathematical understanding and fluency with algebra and trigonometry and extends their ability to make connections and apply concepts and procedures at higher levels. Pre-Calculus Honors connects algebra and trigonometry and establishes the foundation necessary for College Algebra, Calculus AB, and Calculus BC. The intentional rigor implemented in this course is to prepare student for dual credit, advanced placement (AP), and college level course work.

### Pre-Calculus Honors / College Algebra DC

<table>
<thead>
<tr>
<th>Grade Placement: 11</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credit: 1</td>
</tr>
</tbody>
</table>

**Prerequisite:** Algebra I; Geometry; Algebra II; Met South Texas College acceptance criteria

Pre-calculus Honors is the preparation for calculus. The course approaches topics from a function point of view, where appropriate, and is designed to strengthen and enhance conceptual understanding and mathematical reasoning used when modeling and solving mathematical and real-world problems. Students systematically work with functions and their multiple representations. The study of Pre-calculus Honors deepens students' mathematical understanding and fluency with algebra and trigonometry and extends their ability to make connections and apply concepts and procedures at higher levels. Students investigate and explore mathematical ideas, develop multiple strategies for analyzing complex situations, and use technology to build understanding, make connections between representations, and provide support in solving problems. Pre-Calculus Honors connects algebra and trigonometry and establishes the foundation necessary for College Algebra, Calculus AB, and Calculus BC. The intentional rigor implemented in this course is to prepare student for dual credit, advanced placement (AP), and college level course work.

**STC MATH 1414 College Algebra** - This course is the study of quadratic, polynomial, rational, logarithmic and exponential functions and includes the study of systems of equations and matrices. The focus of the course is the discovery and application of algebraic techniques, including graphing, to solve related equations. Additional topics may include sequences and series.
AP Calculus AB

Grade Placement: 11, 12
Credit: 1

College Board Recommended Prerequisites: Before studying calculus, all students should complete four years of secondary mathematics designed for college-bound students: courses in which they study algebra, geometry, trigonometry, analytic geometry, and elementary functions.

AP Calculus AB is designed to develop mathematical knowledge conceptually, by guiding students to connect topics and representations throughout each course and apply strategies and techniques to accurately solve diverse types of problems. The curriculum for AP Calculus AB is the equivalent to that of a first-semester college calculus course. AP Calculus AB is structured around three big ideas: limits, derivatives, and integrals and the Fundamental Theorem of Calculus. The intentional rigor implemented in this course is to prepare student for dual credit, advanced placement (AP) assessments, and college level course work. This course will follow the AP Calculus AB Advanced Placement requirements outlined in the AP College Board Course and Exam Description.

AP Calculus BC

Grade Placement: 12
Credit: 1

College Board Recommended Prerequisites: Before studying calculus, all students should complete four years of secondary mathematics designed for college-bound students: courses in which they study algebra, geometry, trigonometry, analytic geometry, and elementary functions.

AP Calculus BC is an extension of AP Calculus AB and is designed to develop mathematical knowledge conceptually, by guiding students to connect topics and representations throughout each course and apply strategies and techniques to accurately solve diverse types of problems. The curriculum for AP Calculus BC expands a student's understanding of the concepts in calculus including functions, graphs, limits, derivatives, integrals and their applications, and polynomial approximations and series. Additional topics to be studied include parametric, polar and vector functions, and polynomial approximations and series. Students are expected to have a complete understanding of all functions and their graphs from prior courses, as well as a complete understanding of algebraic, geometric and trigonometric skills. The intentional rigor implemented in this course is to prepare student for dual credit, advanced placement (AP) assessments, and college level course work. This course will follow the AP Calculus BC Advanced Placement requirements outlined in the AP College Board Course and Exam Description.

AP Statistics

Grade Placement: 11, 12
Credit: 1

College Board Recommended Prerequisites: Students must have taken second-year algebra before enrolling in AP Statistics.

AP Statistics is a course that introduces students to the major concepts and tools for collecting, analyzing and drawing conclusions from the data they have viewed or collected. Students will explore data by describing patterns and departures from patterns, sample and experiment through a variety of planned studies, anticipate patterns based on random phenomena using probability and simulation, and use statistical inference to provide estimations for the development of parameters and hypotheses. Students will be responsible for projects, labs, cooperative group problem-solving, writing, and individual course work to prepare them for the AP Statistics exam through College Board. The intentional rigor implemented in this course is to prepare student for dual credit, advanced placement (AP) assessments and college level course work. This course will follow the AP Statistics Advanced Placement requirements outlined in the AP College Board Course and Exam Description.
## Statistics Dual Credit

**Grade Placement:** 10 - 12  
**Credit:** 1  
**Prerequisite:** Algebra I; Geometry; Algebra II; Met South Texas College acceptance criteria  

**STC MATH 1442 Elementary Statistical Methods** - This course is a presentation and interpretation of data, probability, sampling, correlation and regression, analysis of variance, and use of statistical software.

## Calculus I Dual Credit

**Grade Placement:** 11, 12  
**Credit:** 1  
**Prerequisite:** Algebra I; Geometry; Algebra II; Met South Texas College acceptance criteria; a grade of " C" or better in MATH 1316 or MATH 2412  

**STC MATH 2413 Calculus I** - This course covers functions, limits, continuity, differentiation, anti-derivatives, and the definite integral and its applications.

## Calculus II Dual Credit

**Grade Placement:** 11, 12  
**Credit:** 1  
**Prerequisite:** Algebra I; Geometry; Algebra II; Met South Texas College acceptance criteria; a grade of " C" or better in MATH 2413  

**STC MATH 2414 Calculus II** - This course covers derivatives and integrals of transcendental functions, integration methods and applications, infinite sequences and series.

## College Preparatory Math (HB5)

**Grade Placement:** 12  
**Credit:** 1  
**Prerequisite:** Meet criteria  

As part of the Texas Success Initiative (TSIA), Texas law requires students entering college to have readiness in reading and mathematics. Various assessments determine if a student needs reinforcement of specific skills. College Preparatory Math through House Bill 5 includes a study of relations, functions, inequalities, algebraic expressions, and equations (linear, polynomial, radical, rational), with special emphasis on linear and quadratic expressions and equations. This course addresses a variety of mathematical topics needed to prepare student success in college-level mathematics.  

Note: This course will satisfy the fourth mathematics credit requirement for graduation. Although College Preparatory Mathematics is a state approved mathematics elective credit, most colleges and universities will not accept it for admission purposes and may request students take the TSIA.

## Digital Electronics Honors

**Grade Placement:** 10-12  
**Credit:** 1  

From smart phones to appliances, digital circuits are all around us. This course provides a foundation for students who are interested in electrical engineering, electronics, or circuit design. Students study topics such as combinational and sequential logic and are exposed to circuit design tools used in industry including logic gates, integrated circuits, and programmable logic devices.  

**Note:** This course can satisfy a math credit requirement for students on the Foundation High School Program. Students are encouraged to meet with their Academic Counselor to ensure they are following the appropriate math course sequence and can apply this course to their math graduation requirements.
Accounting II Honors

Grade Placement: 11–12
Credit: 1

Prerequisites: Accounting I

In Accounting II, students will continue the investigation of the field of accounting, including how it is impacted by industry standards as well as economic, financial, technological, international, social, legal, and ethical factors. Students will reflect on this knowledge as they engage in various managerial, financial, and operational accounting activities. Students will formulate, interpret, and communicate financial information for use in management decision making. Students will use equations, graphical representations, accounting tools, spreadsheet software, and accounting systems in real-world situations to maintain, monitor, control, and plan the use of financial resources.

Note: This course can satisfy a math credit requirement for students on the Foundation High School Program. Students are encouraged to meet with their Academic Counselor to ensure they are following the appropriate mathematics course sequence and can apply this course to their math graduation requirements.

It is Sharyland ISD's intent to offer all courses in this catalog. Some courses may not be offered if sufficient student interest or enrollment is not evident. Instructor availability will also be a factor in course offerings.
Integrated Physics and Chemistry  TEA # 03060201  Course # 0402

Grade Placement: 9 - 10  
Credit: 1

In Integrated Physics and Chemistry, students conduct laboratory and field investigations, use scientific methods during investigation, and make informed decisions using critical thinking and scientific problem solving. This course integrates the disciplines of physics and chemistry in the following topics: force, motion, energy, and matter.

Integrated Physics and Chemistry Honors  TEA # 03060201  Course # 0400

Grade Placement: 9  
Credit: 1

Integrated Physics and Chemistry Honors students conduct laboratory and field investigations, use scientific methods during investigation, and make informed decisions using critical thinking and scientific problem solving. This course integrates the disciplines of physics and chemistry in the following topics: force, motion, energy, and matter. Integrated Physics and Chemistry Honors includes a more in-depth study of IPC curriculum with additional emphasis on critical thinking and high-level problem-solving skills. The intentional rigor implemented in this course is to prepare students for dual credit, advanced placement (AP), and college level course work.

Biology  TEA # 03010200  Course # 0410

Grade Placement: 9 - 11  
Credit: 1

In Biology, students conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Students in Biology study a variety of topics that include: structures and functions of cells and viruses; growth and development of organisms; cells, tissues, and organs; nucleic acids and genetics; biological evolution; taxonomy; metabolism and energy transfers in living organisms; living systems; homeostasis; and ecosystems and the environment. This course requires successful performance on the STAAR Biology End-of-Course assessment for graduation.

Biology Honors  TEA # 03010200  Course # 0408

Grade Placement: 9  
Credit: 1

Biology Honors assists students in conducting laboratory and field investigations, using scientific methods during investigations, and making informed decisions using critical thinking and scientific problem solving. Students in Biology Honors study a variety of topics that include: structures and functions of cells and viruses; growth and development of organisms; cells, tissues, and organs; nucleic acids and genetics; biological evolution; taxonomy; metabolism and energy transfers in living organisms; living systems; homeostasis; and ecosystems and the environment. Biology Honors helps students focus deeply on four core areas: ecological systems, evolution, cellular systems and genetics through dialogue, investigations, and problem solving. The intentional rigor implemented in Biology Honors establishes the foundation necessary for all upper level sciences, advanced placement (AP) and college level science course work. This course requires successful performance on the STAAR Biology End-of-Course assessment for graduation.

Chemistry

Grade Placement: 10
Credit: 1
Prerequisite: One unit of high school science; Algebra I

In Chemistry, students conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Students study a variety of topics that include characteristics of matter, use of the Periodic Table, development of atomic theory and chemical bonding, chemical stoichiometry, gas laws, solution chemistry, thermochemistry, and nuclear chemistry. Students will investigate how chemistry is an integral part of our daily lives.

Chemistry Honors

Grade Placement: 10
Credit: 1
Prerequisite: Biology; Algebra I

Chemistry Honors extends the Chemistry curriculum to target specific content in advanced placement (AP) courses. In Pre-AP Chemistry, students conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Students study a variety of topics that include characteristics of matter, use of the Periodic Table, development of atomic theory and chemical bonding, chemical stoichiometry, gas laws, solution chemistry, thermochemistry, and nuclear chemistry. Students will investigate how chemistry is an integral part of our daily lives. Chemistry Honors establishes the foundation necessary for all upper level sciences, advanced placement (AP) course work, and college level science course work.

AP Chemistry

Grade Placement: 11-12
Credit: 1
Prerequisite: College Board recommendation is successful completion of high school Chemistry and Algebra II.

AP Chemistry is designed to be taken only after the successful completion of high school Chemistry. Students who take AP Chemistry will take a course with the same curriculum framework as its foundation, but will also develop advanced inquiry, and reasoning skills, such as designing a plan for collecting data, analyzing data, applying mathematical routines, and connecting concepts in and across domains. This course is structured into three big ideas; chemical elements and the atomic theory of matter, chemical and physical properties and transformations of matter, and chemical changes in matter. This course will follow the AP Chemistry Advanced Placement requirements outlined in the AP College Board Course and Exam Description. The intentional rigor implemented in this course is to prepare students for dual credit, advanced placement (AP) assessments, and college level course work.

Physics

Grade Placement: 9-12
Credit: 1
Prerequisite: Algebra I

In Physics, students conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Students study a variety of topics that include: laws of motion; changes within physical systems and conservation of energy and momentum; forces; thermodynamics; characteristics and behavior of waves; and atomic, nuclear, and quantum physics. Students who successfully complete Physics will acquire factual knowledge within a conceptual framework, practice experimental design and interpretation, work collaboratively with colleagues, and develop critical thinking skills.

### AP Environmental Science

<table>
<thead>
<tr>
<th>Grade Placement: 11, 12</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credit: 1</td>
</tr>
</tbody>
</table>

**Prerequisite:** College Board recommends that students should have completed two years of high school laboratory science—one year of life science and one year of physical science. Students should have also taken one year of Algebra.

AP Environmental Science course is designed to be the equivalent of a one-semester, introductory college course in environmental science. AP Environmental science connects a wide variety of sciences into one course; these include geology, biology, environmental studies, environmental science, chemistry, and geography. The AP Environmental Science course has been developed to enable students to undertake, as first-year college students, a more advanced study of topics in environmental science. The goal of the AP Environmental Science course is to provide students with the scientific principles, concepts, and methodologies required to understand the interrelationships of the natural world, to identify and analyze environmental problems both natural and human-made, to evaluate the relative risks associated with these problems, and to examine alternative solutions for resolving or preventing them. This course will follow the AP Environmental Science Advanced Placement requirements outlined in the AP College Board Course and Exam Description. The intentional rigor implemented in this course is to prepare student for college, dual credit, and advanced placement (AP) assessments.

### Anatomy and Physiology

<table>

</tr>
</thead>
<tbody>
<tr>
<td>Credit: 1</td>
</tr>
</tbody>
</table>

**Prerequisite:** Biology and a second science credit

**Recommended Prerequisite:** A course from the Health and Science Career Cluster.

The Anatomy and Physiology course is designed for students to conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Students in Anatomy and Physiology will study a variety of topics, including the structure and function of the human body and the interaction of body systems for maintaining homeostasis.

*Note: This course can satisfy a science credit requirement for students on the Foundation High School Program. Students are encouraged to meet with their Academic Counselor to ensure they are following the appropriate science course sequence and can apply this course to their science graduation requirements.*

**Prerequisite:** Biology and a second science credit

**Recommended Prerequisite:** A course from the Health and Science Career Cluster.

Anatomy and Physiology is course designed for students to conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. This course is similar to Anatomy and Physiology; however, it incorporates higher-order thinking skills through assessment and synthesis of the anatomical knowledge combined with exposure to clinical analysis and lab work. Students in Anatomy and Physiology will study a variety of topics, including the structure and function of the human body and the interaction of body systems for maintaining homeostasis.

*Note: This course can satisfy a science credit requirement for students on the Foundation High School Program. Students are encouraged to meet with their Academic Counselor to ensure they are following the appropriate science course sequence and can apply this course to their science graduation requirements.*

Microbiology for Science Majors  
**TEA # 13020700**  
**Course # 0907D**

**Grade Placement:** 11-12  
**Credit:** 1  
**Prerequisite:** High school Biology and Chemistry; Meet South Texas College acceptance criteria; a grade of a “C” or better in BIOL 1406, BIOL 1407 and CHEM 1411.

**STC BIOL 2421 Microbiology for Science Majors** - This is a study of principles of microbiology, including metabolism, structure, function, genetics, and phylogeny of microbes. The course will also examine the interactions of microbes with each other, hosts and the environment. Laboratory activities will reinforce principles of microbiology as well as the microbial interactions including all of the principles and microbial interactions covered in the lecture sessions. Note: This course may substitute the fourth science credit requirement for graduation. In order to register for this course, students must meet with their academic counselor for the appropriate science course sequence.

Forensic Science  
**TEA # 13029500**  
**Course # 0906**

**Grade Placement:** 11-12  
**Credit:** 1  
**Prerequisites:** Biology and Chemistry  
**Recommended Prerequisite or Corequisite:** Any Law, Public Safety, Corrections & Safety Career Cluster course.

Forensic Science is a course that introduces students to the application of science to connect a violation of law to a specific criminal, criminal act, or behavior and victim. Students will learn terminology and procedures related to the search and examination of physical evidence in criminal cases as they are performed in a typical crime laboratory. Using scientific methods, students will collect and analyze evidence such as fingerprints, bodily fluids, hairs, fibers, paint, glass, and cartridge cases. Students will also learn the history and the legal aspects as they relate to each discipline of forensic science. Scientific methods of investigation can be experimental, descriptive, or comparative. The method chosen should be appropriate to the question being asked.  

**Note:** This course can satisfy a science credit requirement for students on the Foundation High School Program. Students are encouraged to meet with their Academic Counselor to ensure they are following the appropriate science course sequence and can apply this course to their science graduation requirements.
### Forensic Science Honors  
**TEA # 13029500**  
**Course # 0910**

**Grade Placement:** 11–12  
**Credit:** 1  
**Prerequisites:** Biology and Chemistry  
**Recommended Prerequisite or Corequisite:** Any Law, Public Safety, Corrections & Safety Career Cluster course.

Forensic Science is a course that introduces students to the application of science to connect a violation of law to a specific criminal, criminal act, or behavior and victim. Students will learn terminology and procedures related to the search and examination of physical evidence in criminal cases as they are performed in a typical crime laboratory with the use of higher order thinking skills and strategies. Using scientific methods, students will collect and analyze evidence such as fingerprints, bodily fluids, hairs, fibers, paint, glass, and cartridge cases. Students will also learn the history and the legal aspects as they relate to each discipline of forensic science. Scientific methods of investigation can be experimental, descriptive, or comparative. The method chosen should be appropriate to the question being asked. Students are expected to work collaboratively as well as individually to reach specific course requirements.

*Note: This course can satisfy a science credit requirement for students on the Foundation High School Program. Students are encouraged to meet with their Academic Counselor to ensure they are following the appropriate science course sequence and can apply this course to their science graduation requirements.*

### Advanced Animal Science Honors  
**TEA # 13000700**  
**Course # 0525**

**Grade Placement:** 11–12  
**Credit:** 1  
**Prerequisites:** Biology and Chemistry or Integrated Physics and Chemistry (IPC); Algebra I and Geometry; and either Small Animal Management, Equine Science, or Livestock Production.

This course examines the interrelatedness of human, scientific, and technological dimensions of livestock production. Instruction is designed to allow for the application of scientific and technological aspects of animal science through field and laboratory experiences.

*Note: This course can satisfy a science credit requirement for students on the Foundation High School Program. Students are encouraged to meet with their Academic Counselor to ensure they are following the appropriate science course sequence and can apply this course to their science graduation requirements.*

### Engineering Science Honors  
**TEA # 13037500**  
**Course # 0912**

**Grade Placement:** 10–12  
**Credit:** 1  
**Prerequisite:** Algebra I and Biology; and Chemistry, IPC, or Physics  
**Recommended Prerequisite:** Geometry

Engineering Science Honors is an engineering course designed to expose students to some of the major concepts and technologies that they will encounter in a postsecondary program of study in any engineering domain. Students will have an opportunity to investigate engineering and high-tech careers. In Engineering Science Honors, students will employ science, technology, engineering, and mathematical concepts in the solution of real-world challenge situations. Students will develop problem-solving skills and apply their knowledge of research and design to create solutions to various challenges. Students will also learn how to document their work and communicate their solutions to their peers and members of the professional community.

*Note: This course can satisfy a science credit requirement for students on the Foundation High School Program. Students are encouraged to meet with their Academic Counselor to ensure they are following the appropriate science course sequence and can apply this course to their science graduation requirements.*

<td>In World Geography Studies, students examine people, places, and environments at local, regional, national, and international scales from the spatial and ecological perspectives of geography. Students describe the influence of geography on events of the past and present with emphasis on contemporary issues. Students will study the shape patterns in the physical environment; the characteristics of major landforms, climates, and ecosystems and their interrelationships; the political, economic, and social processes that shape cultural patterns of regions; types and patterns of settlement; the distribution and movement of the world population; relationships among people, places, and environments; and the concept of region.</td>

| In World Geography Honors, students examine people, places, and environments at local, regional, national, and international scales from the spatial and ecological perspectives of geography. Students are expected to develop and practice the skills of analyzing evidence, disciplinary reasoning, and developing arguments. Students will describe the influence of geography on events of the past and present with emphasis on contemporary issues. Students will describe how location affects economic activities in different economic systems. Students compare how components of culture shape the characteristics of regions and analyze the impact of technology and human modifications on the physical environment. The intentional rigor implemented in this course is to prepare students for dual credit, advanced placement (AP), and college level course work. |

| World History Studies is a survey of the history of humankind through various eras, events, and people. The major emphasis is on the study of significant people from the earliest times to the present. Traditional historical points of reference in world history are identified as students analyze important events and issues in western civilization as well as in civilizations in other parts of the world. Students evaluate the causes and effects of political and economic imperialism and of major political revolutions since the 17th century. Students examine the history and impact of major religious and philosophical traditions. |

| World History Studies Honors is a survey of the history of humankind. The scope of this course focuses on essential concepts and skills that can be applied to various eras, events, and people. The major emphasis is on the study of significant people, events, and issues from the earliest times to the present. Traditional historical points of reference in world history are identified as students analyze important events and issues in western civilization as well as in civilizations in other parts of the world. Students evaluate the causes and effects of political and economic imperialism and of major political revolutions since the 17th century. Students trace the historical development of important legal and political concepts. Students examine the history and impact of major religious and philosophical traditions. Students analyze the connections between major developments in science and technology and the growth of industrial economies, and they use the process of historical inquiry to research, interpret, and use multiple sources of evidence. The intentional rigor implemented in this course is to prepare students for dual credit, advanced placement (AP), and college level course work. |
AP World History  

Grade Placement: 10  
Credit: 1  

College Board Recommended Prerequisite: There are no prerequisites for the courses, but students should be able to read a college-level textbook and write grammatically correct, complete sentences.  

AP World History is designed to be the equivalent of a two-semester introductory college or university world history course. In AP World History students investigate significant events, individuals, developments, and processes in six historical periods from approximately 8000 B.C.E. to the present. Students develop and use the same skills, practices, and methods employed by historians: analyzing primary and secondary sources; developing historical arguments; making historical comparisons; and utilizing reasoning about contextualization, causation, and continuity and change over time. The course provides five themes that students explore throughout the course in order to make connections among historical developments in different times and places: interaction between humans and the environment; development and interaction of cultures; state building, expansion, and conflict; creation, expansion, and interaction of economic systems; and development and transformation of social structures. The intentional rigor implemented in this course is to prepare students for dual credit, advanced placement (AP) assessments, and college level course work. This course will follow the AP World History Advanced Placement requirements outlined in the AP College Board Course and Exam Description.

AP Human Geography  

Grade Placement: 10  
Credit: 1  

College Board Recommended Prerequisite: Students need to be able to read college-level texts and apply the conventions of Standard Written English in their writing. However, a background in world history, world regional geography, physical geography, comparative world religions, and economics will give students a solid foundation for building conceptual understanding.  

AP Human Geography course introduces students to the systematic study of patterns and processes that have shaped human understanding, use, and alteration of Earth’s surface. Students learn to employ spatial concepts and landscape analysis to examine human socioeconomic organization and its environmental consequences. They also learn about the methods and tools geographers use in their research and applications. The intentional rigor implemented in this course is to prepare students for dual credit, advanced placement (AP) assessments, and college level course work. This course will follow the AP Human Geography Advanced Placement requirements outlined in the AP College Board Course and Exam Description.

United States History  

Grade Placement: 11  
Credit: 1  

In United States History Studies Since 1877, which is the second part of a two-year study that begins in Grade 8, students study the history of the United States from 1877 to the present. Historical content focuses on the political, economic, and social events and issues related to industrialization and urbanization, major wars, domestic and foreign policies, and reform movements, including civil rights. Students will evaluate the dynamic relationship of the three branches of the federal government, analyze efforts to expand the democratic process, and describe the relationship between the arts and popular culture and the times during which they were created. Students use critical-thinking skills and a variety of primary and secondary source material to explain and apply different methods that historians use to understand and interpret the past, including multiple points of view and historical context. This course requires successful performance on the STAAR United States History End-of-Course assessment for graduation.
AP United States History

Grade Placement: 11

Credit: 1

College Board Recommended Prerequisite: Students should be able to read a college-level textbook and write grammatically correct, complete sentences.

AP United States History is designed to be the equivalent of a two-semester introductory college or university U.S. history course. In AP U.S. History students investigate significant events, individuals, developments, and processes in nine historical periods from approximately 1491 to the present. Students develop and use skills, practices, and methods for analyzing primary and secondary sources; developing historical arguments; making historical comparisons; and utilizing reasoning about contextualization, causation, and continuity and change over time. AP U.S. History provides seven themes that students explore to make connections among historical developments in different times and places: American and national identity; migration and settlement; politics and power; work, exchange, and technology; America in the world; geography and the environment; and culture and society. The intentional rigor implemented in this course is to prepare students dual credit, advanced placement (AP) assessments, and college level course work. This course will follow the AP United States History Advanced Placement requirements outlined in the AP College Board Course and Exam Description. This course requires successful performance on the STAAR United States History End-of-Course assessment for graduation.

United States History Dual Credit

Grade Placement: 11

Credit: 1

Prerequisite: High school World Geography or World History; Meet South Texas College acceptance criteria.

STC HIST 1301 United States History I - This course is a survey of the social, political, economic, cultural, and intellectual history of the United States from the pre-Columbian era to the Civil War/Reconstruction period. United States History I includes the study of pre-Columbian, colonial, revolutionary, early national, slavery and sectionalism, and the Civil War/Reconstruction eras. Themes that may be addressed in United States History I include: American settlement and diversity, American culture, religion, civil and human rights, technological change, economic change, migration, and creation of the federal government.

STC HIST 1302 United States History II - This course is a survey of the social, political, economic, cultural, and intellectual history of the United States from the Civil War/Reconstruction era to the present. United States History II examines industrialization, immigration, world wars, the Great Depression, Cold War and post-Cold War eras. Themes that may be addressed in United States History II include: American culture, religion, civil and human rights, technological change, economic change, migration and migration, urbanization and suburbanization, the expansion of the federal government, and the study of U.S. foreign policy. This course requires successful performance on the STAAR United States History End-of-Course examination for graduation.

United States Government

Grade Placement: 10-12

Credit: 0.5

In United States Government, the focus is on the principles and beliefs upon which the United States was founded, and on the structure, functions, and powers of government at the national, state, and local levels. Students learn major political ideas and forms of government in history. Students analyze major concepts of republicanism, federalism, checks and balances, separation of powers, popular sovereignty, and individual rights and compare the U.S. system of government with other political systems. Students identify the role of government in the U.S. free enterprise system and examine the strategic importance of places to the United States. Students examine the relationship between governmental policies and the culture of the United States.
In United States Government Honors, the focus is on the principles and beliefs upon which the United States was founded and, on the structure, functions, and powers of government at the national, state, and local levels. Students analyze major concepts of republicanism, federalism, checks and balances, separation of powers, popular sovereignty, and individual rights and compare the U.S. system of government with other political systems. Students identify the role of government in the U.S. free enterprise system and examine the strategic importance of places to the United States. Students examine the relationship between governmental policies and the culture of the United States and analyze the impact of individuals, political parties, interest groups, and the American political system. Students identify examples of government policies that encourage scientific research and use critical-thinking skills to create a product on a contemporary government issue.

College Board Recommended Prerequisite: Students should be able to read and comprehend a college-level textbook and write grammatically correct, complete sentences.

AP U.S. Government and Politics provides a college-level, nonpartisan introduction to key political concepts, ideas, institutions, policies, interactions, roles, and behaviors that characterize the constitutional system and political culture of the United States. Students will study U.S. foundational documents, Supreme Court decisions, and other texts and visuals to gain an understanding of the relationships and interactions among political institutions, processes, and behaviors. They will also engage in disciplinary practices that require them to read and interpret data, make comparisons and applications, and develop evidence-based arguments. In addition, they will complete a political science research or applied civics project. The intentional rigor implemented in this course is to prepare students for dual credit, advanced placement (AP) assessments, and college level course work. This course will follow the United States Government and Politics Advanced Placement requirements outlined in the AP College Board Course and Exam Description.

Prerequisite: High school World Geography or World History; Meet South Texas College acceptance criteria.

STC GOVT 2305 Federal Government - This course covers the origin and development of the U.S. Constitution, structure and powers of the national government including the legislative, executive, and judicial branches, federalism, political participation, the national election process, public policy, civil liberties, and civil rights.

Prerequisite: High school World Geography or World History; Meet South Texas College acceptance criteria.

STC GOVT 2306 Texas Government - This course covers the origin and development of the Texas Constitution, structure and powers of state and local government, federalism and inter-governmental relations, political participation, the election process, public policy, and the political culture of Texas.

56
Economics

Grade Placement: 12
Credit: 0.5
Economics with Emphasis on the Free Enterprise System and Its Benefits is the culmination of the economic content and concepts studied from Kindergarten through required secondary courses. The focus is on the basic principles concerning production, consumption, and distribution of goods and services (the problem of scarcity) in the United States and a comparison with those in other countries around the world. Students will investigate the concepts of specialization and international trade, economic growth, key economic measurements, and monetary and fiscal policy. Types of business ownership and market structures are discussed. The course also incorporates instruction in personal financial literacy.

Economics Honors

Grade Placement: 12
Credit: 0.5
Economics with Emphasis on the Free Enterprise System and Its Benefits is the culmination of the economic content and concepts studied from Kindergarten through required secondary courses. The focus is on the basic principles concerning production, consumption, and distribution of goods and services (the problem of scarcity) in the United States and a comparison with those in other countries around the world. Students will investigate the concepts of specialization and international trade, economic growth, key economic measurements, and monetary and fiscal policy. Students will study the roles of the Federal Reserve System and other financial institutions, government, and businesses in a free enterprise system. Types of business ownership and market structures are discussed. The course also incorporates instruction in personal financial literacy. Students apply critical-thinking skills using economic concepts to evaluate the costs and benefits of economic issues.

AP Macroeconomics

Grade Placement: 11, 12
Credit: 1
College Board Recommended Prerequisite: Students should be able to read a college-level textbook and should possess basic mathematics and graphing skills.
The AP Macroeconomics course provides students with a thorough understanding of the principles of economics and how economists use those principles to examine aggregate economic behavior. Students learn how the measures of economic performance, such as gross domestic product (GDP), inflation, and unemployment are constructed and how to apply them to evaluate the macroeconomic conditions of an economy. The course recognizes the global nature of economics and provides ample opportunities to examine the impact of international trade and finance on national economies. Various economic schools of thought are introduced as students consider solutions to economic problems. The intentional rigor implemented in this course is to prepare students for dual credit, advanced placement (AP) assessments, and college level course work. This course will follow the AP Macroeconomics Advanced Placement requirements outlined in the AP College Board Course and Exam Description.

Macroeconomics Dual Credit

Grade Placement: 11, 12
Credit: 1
Prerequisite: High school World Geography or World History; Meet South Texas College acceptance criteria.
STC ECON 2301 Principles of Economics I Macro - This course an analysis of the economy as a whole including measurement and determination of Aggregate Demand and Aggregate Supply, national income, inflation, and unemployment. Other topics include international trade, economic growth, business cycles, and fiscal policy and monetary policy.
**Personal Financial Literacy**  
TEA # 03380082  
Course # 1927  
**Grade Placement:** 10-12  
**Credit:** 0.5  
Personal Financial Literacy will develop citizens who have the knowledge and skills to make sound, informed financial decisions that will allow them to lead financially secure lifestyles and understand personal financial responsibility. Personal Financial Literacy is designed to be a course that will teach students skills to analyze decisions involving earning and spending, saving and investing, credit and borrowing, insuring and protecting, and college and postsecondary education and training. Students evaluate the necessity of the purchase, the quality or value of the purchase or investment compared to other alternatives, and the total cost of acquisition, particularly in the context of financing options.

**General Psychology Dual Credit**  
TEA # 03350100  
Course # 0399D  
**Grade Placement:** 10-12  
**Credit:** 0.5  
**Prerequisite:** Meet South Texas College acceptance criteria.  
*STC PSYC 2301 General Psychology* - This course is a survey of the major topics in psychology. It introduces the study of behavior and the factors that determine and affect behavior.

**Sociology Dual Credit**  
TEA # 03370100  
Course # 0398D  
**Grade Placement:** 10-12  
**Credit:** 0.5  
**Prerequisite:** Meet South Texas College acceptance criteria.  
*STC SOCI Introductory Sociology* - This course is the scientific study of human society, including ways in which groups, social institutions, and individuals affect each other. Causes of social stability and social change are explored through the application of various theoretical perspectives, key concepts, and related research methods of sociology. Analysis of social issues in their institutional context may include topics such as social stratification, gender, race/ethnicity, and deviance.

| Grade Placement: 9-12           | Credit: 1  |
| Prerequisite: Spanish I-E       |
| This course is a continuation of Spanish I-E with a review of the indicative tenses, and a variety of vocabulary that will be used to attain a measurable degree of communicative competency and proficiency in each of the language skills. This course is open to non-Spanish speakers only. |

| Spanish II – S (Spanish speakers) | 03440220  | 0342     |
| Grade Placement: 9-12           | Credit: 1  |
| Prerequisite: Spanish I-S       |
| Spanish II-S is a continuation of Spanish I-S with an in-depth study of listening, speaking, reading, and writing of the Spanish language. Students are required to have the ability to express themselves orally and through written compositions. Materials of an awareness of history and culture are provided. Students are able to practice conversational Spanish through oral activities such as dialogues, role-plays, poetry recitation and short story writing as well as class presentations. This course is designed to make the transition to Spanish III and/or Spanish AP easier. |

| Spanish III – E (English speakers) | 03440300  | 0352     |
| Grade Placement: 10-12          | Credit: 1  |
| Prerequisite: Spanish I-E & Spanish II-E |
| Spanish III-E refines listening, speaking, reading, writing and grammar skills. Emphasis will be provided on the culture and history of Spanish-speaking countries as well as traditions and celebrations using a wide variety of media sources available such as newspapers, short-stories, videos, music and/or magazines. Students must be able to express themselves well in both written and oral Spanish. Students must have completed or tested out of both Spanish I-E and Spanish II-E. |

| Spanish III – S (Spanish speakers) | 03440330  | 0344     |
| Grade Placement: 10-12           | Credit: 1  |
| Prerequisite: Spanish I-S & Spanish II-S |
| Spanish III-S refines listening, speaking, reading, and writing skills. Grammar and literature are studied in detail. Emphasis will be provided on the culture and history of the people of Spanish speaking countries. Students must be able to express themselves well both in written and oral Spanish. A student must have completed or tested out of both Spanish I-S and Spanish II-S. |
AP Spanish Language and Culture  
Grade Placement: 9 - 12  
Credit: 1  
College Board Recommended Prerequisite: Students who enter this course should have three to five years of language instruction at the high school level.

The AP Spanish Language and Culture course takes a holistic approach to language proficiency and focuses on comprehension, vocabulary usage, language control, communication strategies, and cultural awareness. The AP Spanish Language and Culture course promotes fluency and accuracy, engages students in an exploration of culture in both contemporary and historical contexts, and develops students' awareness of books, practices, perspectives and social interactions within a culture. The intentional rigor implemented in this course is to prepare students for dual credit, advanced placement (AP) assessments, and college level course work. This course will follow the AP Spanish Language and Culture Advanced Placement requirements outlined in the AP College Board Course and Exam Description.

AP Spanish Literature and Culture  
Grade Placement: 9 - 12  
Credit: 1  
College Board Recommended Prerequisite: Students who enter this course should have three to five years of language instruction at the high school level.

The AP Spanish Literature and Culture course is designed to provide students with a learning experience equivalent to that of an introductory college course in literature written in Spanish. The course introduces students to the formal study of a representative body of texts from Peninsular Spanish, Latin American, and U.S. Hispanic literature. The course provides opportunities for students to demonstrate their proficiency in Spanish across the three modes of communication: interpersonal, interpretive, and presentational; and the five goal areas: communication, cultures connections, comparisons, and communities. A key objective of the course is to encourage students not only to understand and retell the content of the texts they read but also to relate that content to literary, historical, sociocultural, and geopolitical contexts in Spanish. This course prepares students for the College Board AP Spanish Literature and Culture examination which consists of free-response questions on listening comprehension, reading comprehension and literary analysis, as well as free-response essays on required authors, and poetry analysis. This course will follow the AP Spanish Literature and Culture Advanced Placement requirements as outlined in the AP College Board Course and Exam Description.

Spanish for Native/Heritage Speakers I Dual Credit  
Grade Placement: 11 - 12  
Credit: 1  
Prerequisite: Meet South Texas College acceptance criteria

STC SPAN 2313 Spanish for Native/Heritage Speakers I - This course builds upon existing oral proficiencies of heritage speakers of Spanish. Enhances proficiencies in the home-based language by developing a full range of registers including public speaking and formal written discourse. Emphasis on comprehension, appreciation, and interpretation of the cultures of the Spanish-speaking world.

Spanish for Native/Heritage Speakers II Dual Credit  
Grade Placement: 11 - 12  
Credit: 1  
Prerequisite: Meet South Texas College acceptance criteria; a grade of a “C” or better in SPAN 2313.

STC SPAN 2315 Spanish for Native/Heritage Speakers II - This course is a review and application of skills in reading and writing. Emphasizes on vocabulary, acquisition, reading, composition, and culture. Designed for individuals with oral proficiency in Spanish, these courses are considered equivalent to SPAN 2311 and SPAN 2312.
French I

Grade Placement: 9-12
Credit: 1
Prerequisite: Official promotion to or placement in high school.

This is a full-year course designed to develop the ability to understand, read, speak, and write the French language. Time will be spent on conversation, reading, and writing, and learning about culture structure and grammar both in their native language as in French.

French II

Grade Placement: 9-12
Credit: 1
Prerequisite: French I

This is a continuation of French I. This course emphasizes more conversational French in class. Reading, writing, listening and comprehension of the French language is stressed. Students develop an understanding for morphology and syntax. Students must have successfully completed French I prior to taking French II.

French III

Grade Placement: 10-12
Credit: 1
Prerequisite: French II

The emphasis of French III is the strengthening of the basic language skills with a concentration on communication. The student will read and discuss a variety of authentic selections in French. In French III, students will read and discuss more complex literary selections. Independent use of the language will be fostered through writing and conversational opportunities. Students must have successfully completed French I and French II prior to taking French III.

French III Honors

Grade Placement: 10-12
Credit: 1
Prerequisite: French II

The emphasis of French level three is the strengthening of the basic language skills with a concentration of communication both verbal and written. The student will read and discuss a variety of authentic selections in French. The level-three honors French student will read and discuss more complex literary selections. Independent use of the language will be fostered through writing and conversational opportunities. Students must have successfully completed French I and French II prior to taking French III Honors.

AP French Language and Culture

Grade Placement: 11-12
Credits: 1
College Board Recommended Prerequisite: Students who enter this course should have three to five years of language instruction at the high school level.

The AP French Language and Culture course takes a holistic approach to language proficiency and recognizes the complex interrelatedness of comprehension and comprehensibility, vocabulary usage, language control, communication strategies, and cultural awareness. The AP French Language and Culture course strives to promote both fluency and accuracy in language and engages students in an exploration of culture in both contemporary and historical contexts. This course prepares students for the College Board AP French Language and Culture examination, which consists of multiple-choice questions in reading and listening and free-response questions in writing and speaking. The AP French Language and Culture examination evaluates both understanding and the ability to respond to written and spoken French within six major cultural themes.

*It is Sharyland ISD’s intent to offer all courses in this catalog. Some courses may not be offered if sufficient student interest or enrollment is not evident. Instructor availability will also be a factor in course offerings.*
Art I

Grade Placement: 9-12
Credit: 1
In Art I, the student develops and expands visual literacy skills using critical thinking, imagination, and the senses to observe and explore the world by learning about, understanding, and applying the elements of art, principles of design, and expressive qualities. The student uses what the student sees, knows, and has experienced as sources for examining, understanding, and creating original artwork.

Design I

Grade Placement: 9-12
Credit: 1
The student develops and expands visual literacy skills using critical thinking, imagination, and the senses to observe and explore the world by learning about, understanding, and applying the elements of art, principles of design, and expressive qualities. The student uses what the student sees, knows, and has experienced as sources for examining, understanding, and creating original artworks. The student is expected to express thoughts and ideas creatively while challenging the imagination, fostering reflective thinking, and developing disciplined effort and progressive problem-solving skills. The student will create original design using multiple solutions from direct observation, original sources, experiences, and imagination in order to expand personal themes that demonstrate artistic intent.

Design II

Grade Placement: 10-12
Credit: 1
Prerequisite: The prerequisite for each art course listed is one credit of the same Level I course.
The student develops and expands visual literacy skills using critical thinking, imagination, and the senses to observe and explore the world by learning about, understanding, and applying the elements of art, principles of design, and expressive qualities and connect those to concepts from Design I. The student uses what the student sees, knows, and has experienced as sources for examining, understanding, and creating original artwork. The student is expected to express thoughts and ideas creatively while challenging the imagination, fostering reflective thinking, and developing disciplined effort and progressive problem-solving skills. The student will create original design using multiple solutions from direct observation, original sources, experiences, and imagination in order to expand personal themes that demonstrate artistic intent.

Drawing I

Grade Placement: 9-12
Credit: 1
Drawing I incorporates observation and perception, creative expression, historical and cultural relevance, and critical evaluation and response. Students will provide broad, unifying structures for organizing the knowledge and skills students are expected to acquire. Students will learn different drawing styles and techniques by expanding on multiple solutions from direct observation, original sources, experiences, and imagination in order to expand personal themes that demonstrate artistic intent.
## Drawing II

**Grade Placement:** 10-12  
**Credit:** 1  
**Prerequisite:** The prerequisite for each art course listed is one credit of the same Level I course.  
Drawing II, like Drawing I, incorporates observation and perception, creative expression, historical and cultural relevance, and critical evaluation and response. Students will provide broad, unifying structures for organizing the knowledge and skills students are expected to acquire. Students will continue to rely on personal observations and perceptions, to communicate their thoughts and ideas with innovation and creativity. The student will create original artwork using multiple solutions from direct observation, original sources, experiences, and imagination in order to expand personal themes that demonstrate artistic intent.

## Painting I

**Grade Placement:** 9-12  
**Credit:** 1  
In Painting I, the student is expected to evaluate and analyze artwork using a method of critique such as describing the artwork, analyzing the way it is organized, interpreting the artist's intention, and evaluating the success of the artwork. The student will also analyze original artwork, portfolios, and exhibitions to demonstrate innovation and provide examples of in-depth exploration of qualities such as aesthetics; formal, historical, and cultural contexts; intentions; and meanings. The student will become familiar original artwork using multiple solutions from direct observation, original sources, experiences, and imagination in order to expand personal themes that demonstrate artistic intent.

## Painting II

**Grade Placement:** 10-12  
**Credit:** 1  
**Prerequisite:** The prerequisite for each art course listed is one credit of the same Level I course.  
As an extension of Painting I, Painting II expects students to continue the analytical and evaluative process of artwork, by interpreting the artist's intention, and evaluating the success of the artwork. The student will also analyze original artwork, portfolios, and exhibitions to demonstrate innovation and provide examples of in-depth exploration of qualities such as aesthetics; formal, historical, and cultural contexts; intentions; and meanings. The student will create original artwork using multiple solutions from direct observation, original sources, experiences, and imagination in order to expand personal themes that demonstrate artistic intent.

## Sculpture I

**Grade Placement:** 9-12  
**Credit:** 1  
Sculpture I is a course that guides students toward the creation of original artwork using direct observation, original sources, experiences, and imagination to expand personal themes that demonstrate artistic intent. Students will implement and organize multiple solutions between natural and man-made environments for the purpose of sculpting styles and techniques. Different sculpting techniques will be introduced and incorporated throughout the course.

## Sculpture II

**Grade Placement:** 10-12  
**Credit:** 1  
**Prerequisite:** The prerequisite for each art course listed is one credit of the same Level I course.  
Sculpture II will continue to reinforce techniques learned in Sculpture I, and will continue to expose students to different forms of sculpting, modeling, and assembly. Through this course, students are expected to challenge their imaginations, foster critical thinking, and build pieces as they progress throughout the course.
### Art Appreciation Dual Credit

**Grade Placement:** 10-12  
**Credit:** 1  
**Prerequisite:** Meet South Texas College acceptance criteria.  
**STC ARTS 1301 Art Appreciation** - This course is a general introduction to the visual arts designed to create an appreciation of the vocabulary, media, techniques, and purposes of the creative process. Students will critically interpret and evaluate works of art within formal, cultural and historical contexts.

### Theater Arts I - IV

**Grade Placement:** 9-12  
**Credits:** 1 per course  
**Prerequisite:** Official promotion to or placement in high school; Teacher Approval  
Theater Arts I-IV involves creative expression, using elements of drama and conventions of theatre. In Theater Arts courses, students communicate in a dramatic form, engage in artistic thinking, build positive self-concepts, relate interpersonally and integrate knowledge with other content areas in a relevant manner. Students increase their understanding of heritage and traditions in theatre and the diversity of world cultures as expressed in theatre, engage in inquiry and dialogue, accept constructive criticism, revise personal views to promote creative and critical thinking, and develop the ability to appreciate and evaluate live theatre. Through diverse forms of storytelling and production, students will exercise and develop creativity, intellectual curiosity, critical thinking, problem solving, and collaborative skills. Participation and evaluation in a variety of theatrical experiences will afford students opportunities to develop an understanding of self and their role in the world.

### Theater Production I - IV

**Grade Placement:** 9-12  
**Credits:** 1 per course  
**Prerequisite:** Official promotion to or placement in high school; Teacher Approval  
Theater Production I-IV involves students in the conventions of theatre, communicate in a dramatic form, engage in artistic thinking, build positive self-concepts, relate interpersonally and integrate knowledge with other content areas in a relevant manner. Students will incorporate their understanding of heritage and traditions in theatre and the diversity of world cultures as expressed in theatre, engage in inquiry and dialogue, accept constructive criticism, revise personal views to promote creative and critical thinking, and develop the ability to appreciate and evaluate live theatre. Through diverse forms of production, students will exercise and develop creativity, intellectual curiosity, critical thinking, problem solving, and collaborative skills. Participation and evaluation in a variety of theatrical experiences will afford students opportunities to develop an understanding of self and their role in the world.

### Drama Appreciation Dual Credit

**Grade Placement:** 10-12  
**Credit:** 1  
**Prerequisite:** Meet South Texas College acceptance criteria  
**STC DRAM 1310 Introduction to Theater** - This course is a survey of theater including its history, dramatic works, stage techniques, production procedures, and relation to other art forms. Participation in productions may be required.
### Band

**Grade Placement:** 9-12  
**Credits:** 1 per course  
**Prerequisite:** Official promotion to or placement in high school; Director Approval

Band courses continue the process of music literacy; creative expression; historical and cultural relevance; and critical evaluation and response. The foundation of music literacy is fostered through reading, reproducing, and creating music. Through creative expression, students apply their music literacy and the critical-thinking skills of music to play, read, write, and/or move. By experiencing musical periods and styles, students will understand the relevance of music to history, culture, and the world, including the relationship of music to other academic disciplines and the vocational possibilities offered. Through critical listening, students analyze, evaluate, and respond to music, developing criteria for making critical judgments and informed choices. The student will describe and analyze music and musical sounds, and develop organizational skills, engages in problem solving, and explores the properties and capabilities of various musical idioms.

### Applied Music

**Grade Placement:** 9-12  
**Credits:** 1 per course  
**Prerequisite:** Official promotion to or placement in high school; Director Approval

Applied Music courses continue the implementation of music literacy; creative expression; historical and cultural relevance; and critical evaluation and response. The foundation of music literacy is fostered through reading, writing, reproducing, and creating music. By experiencing musical periods and styles, students will understand the relevance of music to history, culture, and the world, including the relationship of music to other academic disciplines and the vocational possibilities offered. The student will describe and analyze music and musical sounds, and develop organizational skills, engages in problem solving, and explores the properties and capabilities of various musical idioms.

### Choir

**Grade Placement:** 9-12  
**Credits:** 1 per course  
**Prerequisite:** Official promotion to or placement in high school; Director Approval

Choir courses provide broad, unifying structures for organizing the knowledge and skills students are expected to acquire through music. The foundation of Choir is fostered through reading, reproducing, and creating music. Through creative expression, students apply their music literacy and the critical-thinking skills of music to sing. By experiencing musical periods and styles, students will understand the relevance of music to history, culture, and the world, including the relationship of music to other academic disciplines and the vocational possibilities offered. Through critical listening, students analyze, evaluate, and respond to music, developing criteria for making critical judgments and informed choices. The student will describe and analyze music and musical sounds, and develop organizational skills, engages in problem solving, and explores the properties and capabilities of various musical idioms.

### Dance

**Grade Placement:** 9-12  
**Credits:** 1 per course  
**Prerequisite:** Official promotion to or placement in high school; Director Approval

Dance I-IV students develop movement principles and technical skills and explore choreographic and performance qualities. Students develop self-discipline and healthy bodies that move expressively, efficiently, and safely through space and time with a sensitive kinesthetic awareness. Students recognize dance as a vehicle for understanding historical and cultural relevance, increasing an awareness of heritage and traditions of their own and others, and enabling them to participate in a diverse society. Evaluating and analyzing dance allows students to strengthen decision-making skills, develop critical and creative thinking, and develop artistic and creative processes. Students continue to explore technology and its application to dance and movement, enabling them to make informed decisions about dance.
Diamonds/ Diamond Belles  
TEA # PES00014 (I), 03830200 (II), 03830300 (III), 03830400 (IV)  
Course # 0284 (I), 0285 (II), 0286 (III), 0287 (IV)  
Grade Placement: 9-12  
Credits: 1 per course  
Prerequisite: Official promotion to or placement in high school; Director Approval  
Diamonds I-IV follows the same criteria as Dance I-IV. Students are expected to develop movement principles and technical skills and explore choreographic and performance qualities. Students develop self-discipline and healthy bodies that move expressively, efficiently, and safely through space and time with a sensitive kinesthetic awareness.

Folklorico  
TEA # 03830100 (I), 03830200 (II), 03830300 (III), 03830400 (IV)  
Course # 0254 (I), 0255 (II), 0256 (III), 0257 (IV)  
Grade Placement: 9-12  
Credits: 1 per course  
Prerequisite: Official promotion to or placement in high school; Director Approval  
Folklorico I-IV follows the same criteria as Dance I-IV. Students are expected to develop movement principles and technical skills and explore choreographic and performance qualities. Students develop self-discipline and healthy bodies that move expressively, efficiently, and safely through space and time with a sensitive kinesthetic awareness. Students recognize dance as a vehicle for understanding historical and cultural relevance, increasing an awareness of heritage and traditions of their own and others, and enabling them to participate in a diverse society.

Mariachi  
TEA # 03153800 (I), 03151800 (II), 03151900 (III), 03152000 (IV)  
Course # 0276 (I), 0277 (II), 0278 (III), 0279 (IV)  
Grade Placement: 9-12  
Credits: 1 per course  
Prerequisite: Official promotion to or placement in high school; Director Approval  
Mariachi I-IV courses continue the process of music literacy; creative expression; historical and cultural relevance; and critical evaluation and response. The foundation of Mariachi is fostered through reading, reproducing, and creating music. Through creative expression, students apply their music literacy and the critical-thinking skills to play, read, or write music. By experiencing musical periods and styles, students will understand the relevance of music to history, culture, and the world. The student will describe and analyze music and musical sounds, and develop organizational skills, engages in problem solving, and explores the properties and capabilities of various musical idioms.

Floral Design  
TEA # 13001800  
Course # 0503  
Grade Placement: 9-12  
Credit: 1  
Floral Design is designed to develop students' ability to identify and demonstrate the principles and techniques related to floral design as well as develop an understanding of the management of floral enterprises. Through the analysis of artistic floral styles and historical periods, students will develop respect for the traditions and contributions of diverse cultures. Students will respond to and analyze floral designs, thus contributing to the development of lifelong skills of making informed judgments and evaluations. Note: This course satisfies a fine arts credit requirement for students on the Foundation High School Program.
**Health & Physical Education Courses**

Foundation of Personal Fitness  
Team Sports  
Girls Athletics  
Boys Athletics  
Adventure/Outdoor Education  
Junior Research Officers Training Corps (JROTC)  
Cheerleading

*All students who are enrolled in a course that satisfies the curriculum requirements for physical education are assessed on their physical fitness using the FITNESSGRAM assessment. (TEC§38.101)*

*Health and physical education courses provide instruction in the principles and techniques of cardiopulmonary resuscitation. (TEC§28.0023)*
Foundations of Personal Fitness

Grade Placement: 9  
Credit: 0.5

Foundations of Personal Fitness represents a new approach in physical education and the concept of personal fitness. The basic purpose of this course is to motivate students to strive for lifetime personal fitness with an emphasis on the health-related components of physical fitness. The knowledge and skills taught in this course include teaching students about the process of becoming fit as well as achieving some degree of fitness within the class. The concept of wellness, or striving to reach optimal levels of health, is the cornerstone of this course and is exemplified by one of the course objectives—students designing their own personal fitness program.

Team Sports

Grade Placement: 10  
Credit: 0.5

Prerequisite: Official promotion to or placement in high school; Approval by Team Coaching Staff

Students enrolled in Team Sports are expected to develop health-related fitness and an appreciation for teamwork and fair play. Like the other high school physical education courses, Team Sports is less concerned with the acquisition of physical fitness during the course than reinforcing the concept of incorporating physical activity into a lifestyle beyond high school.

Girls Athletics

Boys Athletics

Grade Placement: 10  
Credit: 1

Prerequisite: Official promotion to or placement in high school; Approval by Team Coaching Staff

Students enrolled in athletics are expected to develop health-related fitness and an appreciation for teamwork and fair play. Students will acquire the knowledge and skills for movement, social development, physical activity, and health. Students enrolled in athletics are expected to exhibit a level of competency in one or more sports, consistently perform skills and strategies and follow rules in the selected sport, and correctly identify the critical elements for successful performance of a sport skill.

Adventure / Outdoor Education

Grade Placement: 9  
Credit: 1

Students enrolled in adventure outdoor education are expected to develop competency in outdoor education activities that provide opportunities for enjoyment and challenge. Emphasis is placed upon student selection of activities that also promote a respect for the environment and that can be enjoyed for a lifetime.

JROTC

Grade Placement: 9-12  
Credit: 1 per course

Prerequisite: Official promotion to or placement in high school; Teacher Approval

The U.S. Army Junior Reserve Officer Training Corps (JROTC) is a program offered to high schools that teaches students character education, student achievement, wellness, leadership, and diversity. It is a cooperative effort between the U.S. Army and the high schools to produce successful students and citizens, while fostering in each school a more constructive and disciplined learning environment.
Cheerleading

Credit: 1 per course

Prerequisite: Official promotion to or placement in high school; Director Approval

Cheerleaders promote school spirit, participation, and the support of all athletic teams. Through the kinesthetic fundamentals of dance, stunting, and tumbling, cheerleaders are able to develop the skills necessary for self-discipline, and sportsmanship. Cheerleaders will also establish leadership capabilities, and cooperation with the team and the student body. Students who are interested in cheerleading must try out for the team each year. Through tryouts, the selection process allows for only a certain number of students to participate.
## Technology Applications

The chapters listed in the table below can be utilized to fulfill the locally required technology applications credit at Sharyland ISD.

Career and Technical Education

The Sharyland ISD Career and Technical Education (CTE) Department offers various programs that enable our students to prepare for college and careers. These programs consist of a sequence of courses related to specific areas of focus, also known as a career clusters, each providing students with coherent and rigorous content. CTE content is aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare students for further education and careers in current or emerging professions.

The Sharyland ISD Career and Technical Education (CTE) Department provides direction and leadership for all CTE programs in the district. It focuses on: ensuring the implementation of the CTE Texas Essential Knowledge and Skills (TEKS); ensuring that adequate equipment and materials are readily available for the delivery of instruction; offering a wide array of college and career events; developing and maintaining business/community partnerships; and overall, on improving our established CTE programs.
Sharyland ISD CTE Program Career Cluster Offerings

**Agriculture, Food & Natural Resources**

The Agriculture, Food, and Natural Resources (AFNR) cluster focuses on the essential elements of life—food, water, land, and air. This career cluster includes a diverse spectrum of occupations, ranging from farmer, rancher, and veterinarian to geologist, land conservationist, and florist. It also includes non-traditional agricultural occupations like wind energy, solar energy, and oil and gas production. Courses in the AFNR Career Cluster are designed to prepare learners for careers in the planning, production, processing, marketing, distribution, financing, and development of agricultural commodities, services, and natural resources, including food, fiber, wood products, water, minerals, and petroleum.

**Architecture & Construction**

The Architecture and Construction Career Cluster® focuses on designing, planning, managing, building, and maintaining the built environment. Principles of Architecture provides an overview to the various fields of architecture, interior design, and construction management.

**Arts, A/V Technology & Communications**

The Arts, A/V Technology and Communications (AAVTC) Career Cluster® focuses on careers in designing, producing, exhibiting, performing, writing, and publishing multimedia content including visual and performing arts and design, journalism, and entertainment services. Careers in the AAVTC Career Cluster require a creative aptitude, a strong background in computer and technology applications, a strong academic foundation, and a proficiency in oral and written communication.

**Business Management & Administration**

The Business Management and Administration Career Cluster® focuses on careers in planning, organizing, directing, and evaluating business functions essential to efficient and productive business operations.
The Education and Training Career Cluster® focuses on planning, managing, and providing education and training services and related learning support services. All parts of courses are designed to introduce learners to the various careers available within the Education and Training career cluster.

The Finance Career Cluster® encompasses careers that focus on planning, services for financial and investment planning, banking, insurance, and business financial management. Careers in this field require problem-solving, organization, and communication skills.

The Health Science Career Cluster® on planning, managing, and providing therapeutic services, diagnostics services, health informatics, support services, and biotechnology research and development. To pursue a career in the health science industry, students should learn to reason, think critically, make decisions, solve problems, and communicate effectively. Students should recognize that quality health care depends on the ability to work well with others.

The Hospitality and Tourism Career Cluster® focuses on the management, marketing, and operations of restaurants and other food/beverage services, lodging, attractions, recreation events, and travel-related services. Students learn knowledge and skills focusing on communication, time management, and customer service that meet industry
standards. Students will explore the history of the hospitality and tourism industry and examine characteristics needed for success in that industry.

The Human Services Career Cluster® focuses on preparing individuals for employment in career pathways that relate to families and human needs such as counseling and mental health services, family and community services, personal care services, and consumer services.

The Law, Public Safety, Corrections, and Security Career Cluster® focuses on planning, managing, and providing legal services, public safety, protective services, and homeland security, including professional and technical support services. Students will examine the roles and responsibilities of police, courts, corrections, private security, and protective agencies of fire and emergency services.

The Science, Technology, Engineering, and Mathematics (STEM) Career Cluster® focuses on planning, managing, and providing scientific research and professional and technical services, including laboratory and testing services, and research and development services.

The Transportation, Distribution, and Logistics (TDL) Career Cluster® focuses on careers in planning, management, and movement of people, materials, and goods by road, pipeline, air, rail and water and related professional support services such as transportation infrastructure planning and management, logistics services, mobile equipment and facility maintenance.
**Career and Technical Student Organizations (CTSOs)**

The United States Department of Education (USDE) recognizes the value of Career and Technical Student Organizations (CTSOs) and their place as an integral part of Career and Technical Education (CTE). The State of Texas and the Texas Education Code also recognize the importance and value CTSOs have for teachers and students. Sharyland ISD encourages all CTE students to become involved in one or more CTSOs to foster collaboration, leadership development, and healthy competition.

The Career and Technical Student Organizations currently offered at Sharyland ISD are as follows:

<table>
<thead>
<tr>
<th>Organization</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Business Professionals of America (BPA)</strong></td>
<td>Business Professionals of America has a history as a student organization that contributes to the preparation of a world-class workforce through the advancement of leadership, citizenship, academic, and technological skills. Through co-curricular programs and services, members of Business Professionals of America compete in demonstrations of their business technology skills, develop their professional and leadership skills, network with one another and professionals across the nation, and get involved in the betterment of their community through good works projects.</td>
</tr>
<tr>
<td><strong>Family, Career and Community Leaders of America (FCCLA)</strong></td>
<td>Family, Career, and Community Leaders of America (FCCLA) is a dynamic and effective national student organization that helps young men and women become leaders. Family and Consumer Sciences education. Involvement in FCCLA offers members the opportunity to expand their leadership potential and develop skills for life-planning, goal setting, problem-solving, decision making, and interpersonal communication—all necessary in the home and workplace.</td>
</tr>
<tr>
<td><strong>National Future Farmers of America (FFA)</strong></td>
<td>Future Farmers of America (FFA) is a dynamic youth organization that changes lives and prepares members for premier leadership, personal growth and career success through agricultural education. FFA develops members’ potential and helps them discover their talent through hands-on experiences, which give members the tools to achieve real-world success. Members are future chemists, veterinarians, government officials,</td>
</tr>
<tr>
<td><strong>For Inspiration and Recognition of Science and Technology (FIRST)</strong></td>
<td>The mission of FIRST is to inspire young people to be science and technology leaders and innovators by engaging them in exciting mentor-based programs that build science, engineering, and technology skills, that inspire innovation, and that foster well-rounded life capabilities including self-confidence, communication, leadership.</td>

Career Development Coursework

The Sharyland ISD offers various courses that allow students to participate in work-based learning experiences. These courses are:

- Career Preparation I/Extended Career Preparation
- Career Preparation II/Extended Career Preparation

### Career Preparation I/Extended Career Preparation

**TEA # 12701305  Course # 0531 & 2531**

**Grade Placement:** 11-12  
**Credit:** 3

**Prerequisite:** Successful completion of one or more advanced career and technical education courses that are part of a coherent sequence of courses in a Career Cluster related to the field in which the student will be employed.

**Corequisites:** Career Preparation I.

Extended Career Preparation provides opportunities for students to participate in a work-based learning experience that combines classroom instruction with business and industry employment experiences. The goal is to prepare students with a variety of skills for a changing workplace. Career preparation is relevant and rigorous, supports student attainment of academic standards, and effectively prepares students for college and career success.

**Note:** This course requires a Course Interest Form to be submitted and requires students to have either paid or unpaid employment. The employment site is typically selected by each individual student to ensure it correlates to their specific career interest area. Most employment sites are located out in our surrounding community, but some may be offered within our district.

### Career Preparation II/Extended Career Preparation

**TEA # 12701405  Course # 3531 & 5531**

**Grade Placement:** 12  
**Credit:** 3

**Prerequisite:** Successful completion of one or more advanced career and technical education courses that are part of a coherent sequence of courses in a Career Cluster related to the field in which the student will be employed.

**Corequisites:** Career Preparation I.

Extended Career Preparation provides opportunities for students to participate in a work-based learning experience that combines classroom instruction with business and industry employment experiences. Agriculture, Food, and Natural Resources
Career Cluster Flowchart

The flowchart that follows depicts the Career and Technical Education courses we offer within the Agriculture, Food, and Natural Resources career cluster. The courses are listed under the pertinent Program of Study (POS) they pertain to. Students are encouraged to select the Program of Study that best matches their college and/or career goals and to complete three or more courses for four or more credits within their selected POS, including one advanced-level course. The advanced-level courses are identified by a red circle on the top-left corner of each course. All of the courses within each of the Programs of Study are also color-coded indicating the recommended grade level students should take them. It is important to note that some courses may have a specific pre-requisite course requirement, which can be seen in the Course Descriptions section below.

The Texas Education Agency (TEA) engaged members of the workforce, secondary education, and higher education to advise on the development of the Programs of Study, including coherent sequences of courses, industry-based certifications, and work-based learning to ensure students are prepared for in-demand, high-skill, and high-wage careers in Texas.

The next few pages outline the Agriculture, Food & Natural Resources Programs of Study that we offer within our district, which are as follows:

- Applied Agricultural Engineering
- Animal Science
- Agribusiness
APPLIED AGRICULTURAL ENGINEERING

The Applied Agricultural Engineering program of study explores the occupations and educational opportunities associated with applying knowledge of engineering technology and biological science to agricultural problems concerned with power and machinery, electrification, structures, soil and water conservation, and processing agricultural products. This program of study may also include exploration into diagnosing, repairing, or overhauling farm machinery and vehicles, such as tractors, harvesters, dairy equipment, and irrigation systems.

The Agriculture, Food, and Natural Resources (AFNR) Career Cluster focuses on the essential elements of life—food, water, land, and air. This career cluster includes a diverse spectrum of occupations, ranging from farmer, rancher, and veterinarian to geologist, land conservationist, and florist. It also includes non-traditional agricultural occupations like wind energy, solar energy, and oil and gas production.

Successful completion of the Applied Agricultural Engineering program of study will fulfill requirements of a Business and Industry endorsement or STEM endorsement if the math and science requirements are met. Revised – August 2021

The Animal Science program of study focuses on the science, research, and business of animals and other living organisms. It teaches CTE learners how to apply biology and life science to real-world life processes of animals and wildlife, either in laboratories or in the field, which could include a veterinary office, a farm or ranch, or any outdoor area harboring animal life. Students may also research and analyze the growth and destruction of species and research or diagnose diseases and injuries of animals.

The Agriculture, Food, and Natural Resources (AFNR) Career Cluster focuses on the essential elements of life—food, water, land, and air. This career cluster includes a diverse spectrum of occupations, ranging from farmer, rancher, and veterinarian to geologist, land conservationist, and florist. It also includes non-traditional agricultural occupations like wind energy, solar energy, and oil and gas production.

Successful completion of the Animal Science program of study will fulfill requirements of a Business and Industry endorsement or STEM endorsement if the math and science requirements are met. Revised – August 2021.

FOR ADDITIONAL INFORMATION ON THE AGRICULTURE, FOOD, AND NATURAL RESOURCE CAREER CLUSTER, PLEASE CONTACT:  
Your Junior High or High School Counselor
The Agribusiness program of study explores the occupations and educational opportunities associated with the business of farming and agriculturally related business that supplies farm inputs, such as machinery and seeds. This program of study may also include exploration into the marketing of farm products, the purchase of farm products either for further processing or resale and grading or classifying unprocessed food or other agricultural products.

The Agriculture, Food, and Natural Resources (AFNR) Career Cluster focuses on the essential elements of life—food, water, land, and air. This career cluster includes a diverse spectrum of occupations, ranging from farmer, rancher, and veterinarian to geologist, land conservationist, and florist. It also includes non-traditional agricultural occupations like wind energy, solar energy, and oil and gas production.

Successful completion of the Agribusiness program of study will fulfill requirements of the Business and Industry Endorsement. Revised – August 2021

<td>This course allows students to develop knowledge and skills regarding career and educational opportunities, personal development, globalization, industry standards, details, practices, and expectations.</td>
</tr>
</tbody>
</table>
### Agricultural Mechanics and Metal Technologies  
**TEA # 13002200**  
**Course # 0502**

**Grade Placement:** 10–12  
**Credit:** 1  
**Recommended Prerequisite:** Principles of Agriculture, Food, and Natural Resources

Agricultural Mechanics and Metal Technologies is designed to develop an understanding of agricultural mechanics as it relates to safety and skills in tool operation, electrical wiring, plumbing, carpentry, fencing, concrete, and metal working techniques. To prepare for careers in agricultural power, structural, and technical systems, students must attain academic skills and knowledge; acquire technical knowledge and skills related to power, structural, and technical agricultural systems and the industry; and develop knowledge and skills regarding career opportunities, entry requirements, industry certifications, and industry expectations.

### Agricultural Power Systems  
**TEA # 13002400**  
**Course # 0520 & 2520**

**Grade Placement:** 10–12  
**Credit:** 2  
**Recommended Prerequisite:** Principles of Agriculture, Food, and Natural Resources

Agricultural Power Systems is designed to develop an understanding of power and control systems as related to energy sources, small and large power systems, and agricultural machinery. To prepare for careers in agricultural power, structural, and technical systems, students must attain academic skills and knowledge; acquire technical knowledge and skills related to power, structural, and technical agricultural systems and the workplace; and develop knowledge and skills regarding career opportunities, entry requirements, industry certifications, and industry expectations.

### Career Preparation I/Extended Career Preparation  
**TEA # 12701305**  
**Course # 0531 & 2531**

**Grade Placement:** 11–12  
**Credit:** 3  
**Prerequisite:** Successful completion of one or more advanced career and technical education courses that are part of a coherent sequence of courses in a Career Cluster related to the field in which the student will be employed.  
**Corequisites:** Career Preparation I.

Extended Career Preparation provides opportunities for students to participate in a work-based learning experience that combines classroom instruction with business and industry employment experiences. The goal is to prepare students with a variety of skills for a changing workplace. Career preparation is relevant and rigorous, supports student attainment of academic standards, and effectively prepares students for college and career success.  
**Note:** This course requires a Course Interest Form to be submitted and requires students to have either paid or unpaid employment. The employment site is typically selected by each individual student to ensure it correlates to their specific career interest area. Most employment sites are located out in our surrounding community, but some may be offered within our district.

### Equine Science  
**TEA # 13000500**  
**Course # 0509**

**Grade Placement:** 10–12  
**Credit:** 0.5

In Equine Science, students will acquire knowledge and skills related to equine animal systems and the equine industry. Equine Science may address topics related to horses, donkeys, and mules.

| Floral Design is designed to develop students' ability to identify and demonstrate the principles and techniques related to floral design as well as develop an understanding of the management of floral enterprises. Through the analysis of artistic floral styles and historical periods, students will develop respect for the traditions and contributions of diverse cultures. Students will respond to and analyze floral designs, thus contributing to the development of lifelong skills of making informed judgments and evaluations.  
*Note: This course can satisfy a fine arts credit requirement for students on the Foundation High School Program.* |               |           |
| Livestock Production                            | 13000300      | 0504      |
| Grade Placement: 10-12                         |               |           |
| Credit: 1                                       |               |           |
| In Livestock Production, students will acquire knowledge and skills related to livestock and the livestock production industry. Livestock Production may address topics related to beef cattle, dairy cattle, swine, sheep, goats, and poultry. |               |           |
| Professional Communications                     | 13009900      | 0176      |
| Grade Placement: 9–12                          |               |           |
| Credits: .5                                      |               |           |
| Professional Communications blends written, oral, and graphic communication in a career-based environment. Careers in the global economy require individuals to be creative and have a strong background in computer and technology applications, a strong and solid academic foundation, and a proficiency in professional oral and written communication. Within this context, students will be expected to develop and expand the ability to write, read, edit, speak, listen, apply software applications, manipulate computer graphics, and conduct Internet research.  
*Note: This course meets the Sharyland ISD district-required speech credit.* |               |           |
| STC Professional Communications Dual Credit     | 13009900      | 0178D     |
| Grade Placement: 10–12                         |               |           |
| Credits: .5                                      |               |           |
| **Prerequisite:** TSI complete in Reading and Writing, or equivalent  
*STC SPCH 1311 Introduction to Speech Communication.* This course introduces basic human communication principles and theories embedded in a variety of contexts including interpersonal, small group, and public speaking. |               |           |
| Professional Standards in Agribusiness          | 13000800      | 0517P     |
| Grade Placement: 10-12                         |               |           |
| Credit: 0.5                                     |               |           |
| Professional Standards in Agribusiness primarily focuses on leadership, communication, employer-employee relations, and problem solving as they relate to agribusiness.  
*Note: This course has a competition requirement.* |               |           |
| Small Animal Management                         | 13000400      | 0511      |
| Grade Placement: 10-12                         |               |           |
| Credit: 0.5                                     |               |           |
| In Small Animal Management, students will acquire knowledge and skills related to small animals and the small animal management industry. Small Animal Management may address topics related to small mammals such as dogs and cats, amphibians, reptiles, and birds. |               |           |
Turf Grass Management       TEA # 13001950     Course # 0518P
Grade Placement: 10-12
Credit: 0.5
Turf Grass Management is designed to develop an understanding of turf grass management techniques and practices.

*Note: This course has a competition requirement.*

Wildlife, Fisheries, and Ecology Management   TEA # 13001500     Course # 0519
Grade Placement: 9-12
Credit: 1
Wildlife, Fisheries, and Ecology Management examines the management of game and non-game wildlife species, fish, and aqua crops and their ecological needs as related to current agricultural practices. To prepare for success, students need opportunities to learn, reinforce, apply, and transfer their knowledge and skills in a variety of settings.

**WORK BASED LEARNING AND EXPANDED LEARNING OPPORTUNITIES**

**Exploration Activities:**
- Shadow a carpenter or millwright,
  SkillUSA

**Work Based Learning Activities:**
- Obtain an NCCER certification in Millwright Level 1 or Carpenter Level 1

The Carpentry program of study explores the occupations and educational opportunities related to constructing, installing, or repairing structures and fixtures made of wood, such as concrete forms (including frameworks, partitions, joists, studding, rafters, and stairways). This program of study may also include exploration into installing, dismantling, or moving machinery and heavy equipment according to layout plans, blueprints, or other drawings.

The Architecture and Construction Career Cluster focuses on designing, planning, managing, building, and maintaining the built environment. Principles of Architecture provides an overview to the various fields of architecture, interior design, and construction management.

Additional industry-based certification information is available on the TEA CTE website. For more information on postsecondary options for this program of study, visit TXCTE.org.

Successful completion of the Carpentry program of study will fulfill requirements of the Business and Industry Endorsement. Revised – August 2021

ARCHITECTURAL DESIGN

Additional industry-based certification information is available on the TEA CTE website. For more information on postsecondary options for this program of study, visit TXCTE.org.

The Architectural Design program of study explores the occupations and educational opportunities associated with developing, engineering, and designing building structures and facilities. This program of study may also include exploration into collecting and interpreting geographic information, researching and preparing maps, and interior design.

The Architecture and Construction Career Cluster focuses on designing, planning, managing, building, and maintaining the built environment. Principles of Architecture provides an overview to the various fields of architecture, interior design, and construction management.

The Architectural Design program of study will fulfill requirements of the Business and Industry endorsement or STEM endorsement if the math and science requirements are met. Revised – August 2021

### WORK BASED LEARNING AND EXPANDED LEARNING OPPORTUNITIES
- Exploration Activities:
  - Shadow an electrician or fiber optics line installer
  - SkillsUSA
- Work Based Learning Activities:
  - Intern or shadow an electrician

The Electrical program of study explores the occupations and educational opportunities associated with installing, maintaining, and repairing electrical wiring, equipment, and fixtures. This program of study may also include exploration into installing and repairing telecommunications cable including fiber optics.

The Architecture and Construction Career Cluster focuses on designing, planning, managing, building, and maintaining the built environment. Principles of Architecture provides an overview to the various fields of architecture, interior design, and construction management.

Successful completion of the Electrical program of study will fulfill requirements of the Business and Industry endorsement and STEM endorsement if the math and science requirements are met. Revised – August 2021.

<td>Principles of Architecture provides an overview to the various fields of architecture, interior design, and construction management. Achieving proficiency in decision making and problem solving is an essential skill for career planning and lifelong learning. Students use self-knowledge, education, and career information to set and achieve realistic career and educational goals. Job-specific training can be provided through training modules that identify career goals in trade and industry areas. Classroom studies include topics such as safety, work ethics, communication, information technology applications, systems, health, environment, leadership, teamwork, ethical and legal responsibility, employability, and career development and include skills such as problem solving, critical thinking, and reading technical drawings.</td>

| **Career Preparation I/Extended Career Preparation**                               | 12701305 | 0531 & 2531 |
| **Grade Placement:** 11-12                                                         |        |           |
| **Credit:** 3                                                                      |        |           |
| **Prerequisite:** Successful completion of one or more advanced career and technical education courses that are part of a coherent sequence of courses in a Career Cluster related to the field in which the student will be employed. |        |           |
| **Corequisites:** Career Preparation I.                                             |        |           |
| Extended Career Preparation provides opportunities for students to participate in a work-based learning experience that combines classroom instruction with business and industry employment experiences. The goal is to prepare students with a variety of skills for a changing workplace. Career preparation is relevant and rigorous, supports student attainment of academic standards, and effectively prepares students for college and career success. |        |           |
| **Note:** This course requires a Course Interest Form to be submitted and requires students to have either paid or unpaid employment. The employment site is typically selected by each individual student to ensure it correlates to their specific career interest area. Most employment sites are located out in our surrounding community, but some may be offered within our district. |

| **Civil Engineering and Architecture**                                             | N1303747 | 0914      |
| **Grade Placement:** 10-12                                                         |        |           |
| **Credit:** 1                                                                      |        |           |
| **Prerequisite:** Introduction to Engineering Design                              |        |           |
| In this course, students learn important aspects of building and site design and development, applying math, science, and standard engineering practices to design both residential and commercial projects. They document designs using 3D architecture design software. Some students have seen these designs come to life through partnerships with local housing organizations. |        |           |
| **Note:** This course has an application process in place.                         |        |           |

| **Construction Technology I**                                                      | 13005100 | 0482 & 2482 |
| **Grade Placement:** 10-12                                                         |        |           |
| **Credits:** 2                                                                     |        |           |
| **Recommended Prerequisite:** Principles of Construction or Principles of Architecture |        |           |
| In Construction Technology I, students will gain knowledge and skills needed to enter the workforce as carpenters or building maintenance supervisors or to prepare for a postsecondary degree in construction management, architecture, or engineering. Students will acquire knowledge and skills in safety, tool usage, building materials, codes, and framing. |        |           |
### Construction Technology II

**Grade Placement:** 11–12  
**Credits:** 2  
**Prerequisite:** Construction Technology I  

In Construction Technology II, students will gain advanced knowledge and skills needed to enter the workforce as carpenters, building maintenance technicians, or supervisors or to prepare for a postsecondary degree in construction management, architecture, or engineering. Students will build on the knowledge base from Construction Technology I and are introduced to exterior and interior finish out skills.

### Electrical Technology I

**Grade Placement:** 10–12  
**Credit:** 1  
**Recommended Prerequisites:** Principles of Architecture or Principles of Construction  

In Electrical Technology I, students will gain knowledge and skills needed to enter the workforce as an electrician or building maintenance supervisor, prepare for a postsecondary degree in a specified field of construction or construction management, or pursue an approved apprenticeship program. Students will acquire knowledge and skills in safety, electrical theory, tools, codes, installation of electrical equipment, and the reading of electrical drawings, schematics, and specifications.

### Electrical Technology II

**Grade Placement:** 11–12  
**Credit:** 2  
**Prerequisite:** Electrical Technology I  

**Recommended Prerequisites:** Principles of Architecture or Principles of Construction  

In Electrical Technology II, students will gain advanced knowledge and skills needed to enter the workforce as an electrician, a building maintenance technician, or a supervisor; prepare for a postsecondary degree in a specified field of construction or construction management; or pursue an approved apprenticeship program. Students will acquire knowledge and skills in safety, electrical theory, tools, codes, installation of electrical equipment, alternating current and direct current motors, conductor installation, installation of electrical services, and electric lighting installation.

### Interior Design I

**Grade Placement:** 10–12  
**Credit:** 1  
**Prerequisites:** Algebra I and English I  
**Recommended Prerequisites:** Principles of Architecture  

Interior Design I is a technical course that addresses psychological, physiological, and sociological needs of individuals by enhancing the environments in which they live and work. Students will use knowledge and skills related to interior and exterior environments, construction, and furnishings to make wise consumer decisions, increase productivity, promote sustainability, and compete in industry.
Interior Design IITEA # 13004400 Course # 0460 & 2460

Grade Placement: 11–12
Credit: 2
Prerequisites: English II, Geometry, and Interior Design I

Interior Design II is a technical laboratory course that includes the application of the employability characteristics, principles, processes, technologies, communication, tools, equipment, and materials related to interior design to meet industry standards.

STC Architectural & Engineering Design Technology Program
TEA # 13004600 Course # 0797 & 2797

Grade Placement: 11–12
Credits: 1 per course
Prerequisite: Meet South Texas College acceptance criteria

The purpose of this program is to prepare the students for employment in architectural, visual, and civil engineering technology industries. The student will be required to have an understanding of, but not limited to, the following areas: principles of drafting, architectural drafting, civil drafting, layout and design, application of the latest drawing software programs, current knowledge of building standards and codes, and construction materials and specifications. Refer to the following STC website for a listing of the actual courses in this certificate program: https://bt.southtexascollege.edu/aedt/

Note: Since the courses under this program are taught by college instructors at the South Texas College Technology Campus, bus transportation will be provided. When courses are offered 1st block, the bus will leave from the high school at 7:30 a.m. therefore, students must be able to commit to arriving early at school in order to board the bus. Personal transportation is allowed pending pre-approval and will be contingent upon obtaining a parking permit from the student’s home campus and STC. Course offerings are dependent on the availability of STC staff, and specific courses will only be offered if the minimum enrollment requirements are met. See your school counselor for more detailed information regarding this off-campus program.

Career Cluster Flowchart

The flowchart that follows depicts the Career and Technical Education courses we offer within the Arts, Audio Visual Technology, and Communications career cluster. The courses are listed under the pertinent Program of Study (POS) they pertain to. Students are encouraged to select the Program of Study that best matches their college and/or career goals and to complete three or more courses for four or more credits within their selected POS, including one advanced-level course. The advanced-level courses are identified by a red circle on the top-left corner of each course. All of the courses within each of the Programs of Study are also color-coded indicating the recommended grade level students should take them. It is important to note that some courses may have a specific pre-requisite course requirement, which can be seen in the Course Descriptions section below.

The Texas Education Agency (TEA) engaged members of the workforce, secondary education, and higher education to advise on the development of the Programs of Study, including coherent sequences of courses, industry-based certifications, and work-based learning to ensure students are prepared for in-demand, high-skill, and high-wage careers in Texas.

The next few pages outline the Arts, Audio Visual Technology, and Communications Programs of Study that we offer within our district, which are as follows:

- Digital Communications
- Design & Multimedia Arts

Certifications Offered
- Adobe Certified Professional – Premiere Pro
- Adobe Certified Professional – Animate, Illustrator, & Photoshop
- OSHA (10 Hour)
The Digital Communications program of study explores the occupations and educational opportunities associated with the production of audio and visual media formats for various purposes, such as TV broadcasts, advertising, video production, or motion pictures. This program of study may also include exploration into operating machines and equipment to record sound and images, such as microphones, sound speakers, video screens, projectors, video monitors, sound and mixing boards, and related electronic equipment.

The Arts, A/V Technology and Communications (AAVTC) Career Cluster focuses on careers in designing, producing, exhibiting, performing, writing, and publishing multimedia content including visual and performing arts and design, journalism, and entertainment services. Careers in the AAVTC career cluster require a creative aptitude, a strong background in computer and technology applications, a strong academic foundation, and a proficiency in oral and written communication.

Successful completion of the Digital Communications program of study will fulfill requirements of the Business and Industry Endorsement. Revised – August 2021

FOR ADDITIONAL INFORMATION ON THE ARTS, AUDIO/VIDEO, TECHNOLOGY, AND COMMUNICATIONS CAREER CLUSTER, PLEASE CONTACT:

Your Junior High or High School Counselor
The Design and Multimedia Arts program of study explores the occupations and educational opportunities associated with designing or creating graphics to meet specific commercial or promotional needs, such as packaging, displays, or logos. This program of study may also include exploration into designing clothing and accessories, and creating special effects, animation, or other visual images using film, video, computers, or other electronic tools and media, for use in computer games, movies, music videos, and commercials.

The Arts, A/V Technology and Communications (AAVTC) Career Cluster focuses on careers in designing, producing, exhibiting, performing, writing, and publishing multimedia content including visual and performing arts and design, journalism, and entertainment services. Careers in the AAVTC career cluster require a creative aptitude, a strong background in computer and technology applications, a strong academic foundation, and a proficiency in oral and written communication.

Successful completion of the Design & Multimedia Arts program of study will fulfill requirements of the Business and Industry Endorsement. Revised – August 2021.

Arts, A/V Technology & Communications

Course Descriptions

**Principles of Arts, Audio/Video Technology and Comm.**

TEA # 13008200 Course # 0691

Grade Placement: 9-12
Credit: 1

The goal of this course is for the student understands arts, audio/video technology, and communications systems. Within this context, students will be expected to develop an understanding of the various and multifaceted career opportunities in this cluster and the knowledge, skills, and educational requirements for those opportunities.

**Animation I**

TEA # 13008300 Course # 0692

Grade Placement: 10–12
Credit: 1

**Recommended Prerequisite: Art I or Principles of Art, Audio/Video Technology, and Communications**

In addition to developing technical knowledge and skills needed for success in the Arts, Audio/Video Technology, and Communications Career Cluster, students will be expected to develop an understanding of the history and techniques of the animation industry.

**Audio/Video Production I**

TEA # 13008500 Course # 0687

Grade Placement: 9–12
Credit: 1

**Recommended Prerequisite: Principles of Arts, Audio/Video Technology, and Communications.**

In addition to developing technical knowledge and skills needed for success in the Arts, Audio/Video Technology, and Communications Career Cluster, students will be expected to develop an understanding of the industry with a focus on pre-production, production, and post-production audio and video products.

**Audio/Video Production II**

TEA # 13008600 Course # 0699P

Grade Placement: 10–12
Credit: 1

**Prerequisite: Audio/Video Production I**

Building upon the concepts taught in Audio/Video Production, in addition to developing advanced knowledge and skills needed for success in the Arts, Audio/Video Technology, and Communications Career Cluster, students will be expected to develop an advanced understanding of the industry with a focus on pre-production, production, and post-production products. This course may be implemented in an audio format or a format with both audio and video.

**Audio/Video Production II & Lab**

TEA # 13008610 Course # 0699 & 2699

Grade Placement: 10–12
Credit: 2

**Prerequisite: Audio/Video Production I Corequisite: Audio/Video Production II**

Building upon the concepts taught in Audio/Video Production, in addition to developing advanced knowledge and skills needed for success in the Arts, Audio/Video Technology, and Communications Career Cluster, students will be expected to develop an advanced understanding of the industry with a focus on pre-production, production, and post-production products. Through diverse forms of storytelling and production, students will exercise and develop creativity, intellectual curiosity, and critical-thinking, problem-solving, and collaborative skills. This course may be implemented in an audio format or a format with both audio and video. Requiring a lab requisite for the course affords necessary time devoted specifically to the production and post-production process.
Career Preparation I/Extended Career Preparation   TEA # 12701305   Course # 0531 & 2531

Grade Placement: 11-12
Credit: 3

Prerequisite: Successful completion of one or more advanced career and technical education courses that are part of a coherent sequence of courses in a Career Cluster related to the field in which the student will be employed.
Corequisites: Career Preparation I.

Extended Career Preparation provides opportunities for students to participate in a work-based learning experience that combines classroom instruction with business and industry employment experiences. The goal is to prepare students with a variety of skills for a changing workplace. Career preparation is relevant and rigorous, supports student attainment of academic standards, and effectively prepares students for college and career success.

Note: This course requires a Course Interest Form to be submitted and requires students to have either paid or unpaid employment. The employment site is typically selected by each individual student to ensure it correlates to their specific career interest area. Most employment sites are located out in our surrounding community, but some may be offered within our district.

Commercial Photography I   TEA # 13009100   Course # 0689

Grade Placement: 9–12
Credits: 1

In addition to developing knowledge and skills needed for success in the Arts, Audio/Video Technology, and Communications Career Cluster, students will be expected to develop an understanding of the commercial photography industry with a focus on creating quality photographs.

Fashion Design I   TEA # 13009300   Course # 0459

Grade Placement: 10–12
Credits: 1

Recommended Prerequisite: Principles of Arts, Audio/Video Technology, and Communications

Within this context, in addition to developing technical knowledge and skills needed for success in the Arts, Audio/Video Technology, and Communications Career Cluster, students will be expected to develop an understanding of the fashion industry with an emphasis on design and construction.

Fashion Design II & Lab   TEA # 13009410   Course # 0458 & 2458

Grade Placement: 11–12
Credits: 2

Prerequisite: Fashion Design I

Careers in fashion span all aspects of the textile and apparel industries. Within this context, in addition to developing technical knowledge and skills needed for success in the Arts, Audio/Video Technology, and Communications Career Cluster, students will be expected to develop an understanding of the fashion industry with an emphasis on design and construction.

The Texas Education Agency (TEA) engaged members of the workforce, secondary education, and higher education to advise on the development of the Programs of Study, including coherent sequences of courses, industry-based certifications, and work-based learning to ensure students are prepared for in-demand, high-skill, and high-wage careers in Texas.

The next few pages outline the Business, Marketing, and Finance Programs of Study that we offer within our district, which are as follows:

- Accounting & Financial Services
- Business Management
## ACCOUNTING & FINANCIAL SERVICES

The Accounting and Financial Services program of study teaches CTE learners how to examine, analyze, and interpret financial records. Through this program of study, students will learn the skills necessary to perform financial services, prepare financial statements, interpret accounting records, give advice, or audit and evaluate statements prepared by others. This program of study will also introduce students to mathematical modeling tools.

**Occupations**
- Accountants and Auditors
- Bank Tellers
- Loan Officers
- Personal Financial Advisors
- Administrative Service Managers
- Insurance Underwriters

LEARNING OPPORTUNITIES

EXPLORATION ACTIVITIES: Business Professional of America (BPA), Future Business Leaders of America (FBLA), and DECA

WORK BASED LEARNING ACTIVITIES: Internship with local business or chamber of commerce

WORK BASED LEARNING AND EXPANDED

The Business Management program of study teaches CTE learners how to plan, direct, and coordinate the administrative services and operations of an organization. Through this program of study, students will learn the skills necessary to formulate policies, manage daily operations, and allocate the use of materials and human resources. This program of study will also introduce students to mathematical modeling tools and organizational evaluation methods.

The Business, Marketing, and Finance Career Cluster focuses on careers in planning, organizing, directing, and evaluating business functions essential to efficient and productive business operations.

Successful completion of the Business Management program of study will fulfill requirements of the Business and Industry Endorsement. Revised – August 2021

## Principles of Business, Marketing and Finance

**TEA # 13011200**

**Course # 0534**

**Grade Placement:** 9-12  
**Credit:** 1  

In Principles of Business, Marketing, and Finance, students gain knowledge and skills in economies and private enterprise systems, the impact of global business, the marketing of goods and services, advertising, and product pricing. Students analyze the sales process and financial management principles. This course allows students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems, and settings in business, marketing, and finance.

## Accounting I

**TEA # 13016600**

**Course # 0536**

**Grade Placement:** 10-12  
**Credit:** 1  

**Recommended Prerequisites: Principles of Business, Marketing, and Finance**

In Accounting I, students will investigate the field of accounting, including how it is impacted by industry standards as well as economic, financial, technological, international, social, legal, and ethical factors. Students will reflect on this knowledge as they engage in the process of recording, classifying, summarizing, analyzing, and communicating accounting information. Students will formulate and interpret financial information for use in management decision making. Accounting includes such activities as bookkeeping, systems design, analysis, and interpretation of accounting information.

## Accounting II Honors

**TEA # 13016700**

**Course # 0535**

**Grade Placement:** 11-12  
**Credit:** 1  

**Prerequisites: Accounting I**

In Accounting II, students will continue the investigation of the field of accounting, including how it is impacted by industry standards as well as economic, financial, technological, international, social, legal, and ethical factors. Students will reflect on this knowledge as they engage in various managerial, financial, and operational accounting activities. Students will formulate, interpret, and communicate financial information for use in management decision making. Students will use equations, graphical representations, accounting tools, spreadsheet software, and accounting systems in real-world situations to maintain, monitor, control, and plan the use of financial resources.

**Note:** This course can satisfy a math credit requirement for students on the Foundation High School Program. Students are encouraged to meet with their Academic Counselor to ensure they are following the appropriate mathematics course sequence and can apply this course to their math graduation requirements.

## Business Information Management I

**TEA # 13011400**

**Course # 0532**

**Grade Placement:** 9-12  
**Credit:** 1  

In Business Information Management I, students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and make a successful transition to the workforce and postsecondary education. Students apply technical skills to address business applications of emerging technologies, create word-processing documents, develop a spreadsheet, formulate a database, and make an electronic presentation using appropriate software.
# Business Information Management II
**TEA # 13011500**  
**Course # 0550**  
**Grade Placement:** 10-12  
**Credit:** 1  
**Prerequisite:** Business Information Management I  
In Business Information Management II, students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and make a successful transition to the workforce or postsecondary education. Students apply technical skills to address business applications of emerging technologies, create complex word-processing documents, develop sophisticated spreadsheets using charts and graphs, and make an electronic presentation using appropriate multimedia software.

# Business Law
**TEA # 13011700**  
**Course # 0544**  
**Grade Placement:** 11-12  
**Credit:** 1  
Business Law is designed for students to analyze various aspects of the legal environment, including ethics, the judicial system, contracts, personal property, sales, negotiable instruments, agency and employment, business organization, risk management, and real property.

# Business Management
**TEA # 13012100**  
**Course # 0537**  
**Grade Placement:** 10-12  
**Credit:** 1  
Business Management is designed to familiarize students with the concepts related to business management as well as the functions of management, including planning, organizing, staffing, leading, and controlling. Students will also demonstrate interpersonal and project-management skills.

# Career Preparation I/Extended Career Preparation
**TEA # 12701305**  
**Course # 0531 & 2531**  
**Grade Placement:** 11-12  
**Credit:** 3  
**Prerequisite:** Successful completion of one or more advanced career and technical education courses that are part of a coherent sequence of courses in a Career Cluster related to the field in which the student will be employed.  
**Corequisites:** Career Preparation I.  
Extended Career Preparation provides opportunities for students to participate in a work-based learning experience that combines classroom instruction with business and industry employment experiences. The goal is to prepare students with a variety of skills for a changing workplace. Career preparation is relevant and rigorous, supports student attainment of academic standards, and effectively prepares students for college and career success.  
**Note:** This course requires a Course Interest Form to be submitted and requires students to have either paid or unpaid employment. The employment site is typically selected by each individual student to ensure it correlates to their specific career interest area. Most employment sites are located out in our surrounding community, but some may be offered within our district.

# Entrepreneurship
**TEA # 13034400**  
**Course # 0538P**  
**Grade Placement:** 10–12  
**Credit:** 1  
**Recommended Prerequisites:** Principles of Business, Marketing, and Finance  
Students will learn the principles necessary to begin and operate a business. The primary focus of the course is to help students understand the process of analyzing a business opportunity, preparing a business plan, determining feasibility of an idea using research, and developing a plan to organize and promote the business and its products and services.  
**Note:** This course has a competition requirement.
# Global Business

**Grade Placement:** 10-12  
**Credit:** 0.5  
Global Business is designed for students to analyze global trade theories, international monetary systems, trade policies, politics, and laws relating to global business as well as cultural issues, logistics, and international human resource management.

# Human Resources Management

**Grade Placement:** 11-12  
**Credit:** 0.5  
Human Resources Management is designed to familiarize students with the concepts related to human resource management, including legal requirements, recruitment, and employee selection methods, and employee development and evaluation. Students will also become familiar with compensation and benefits programs as well as workplace safety, employee-management relations, and the impact of global events on human resources management.

# Insurance Operations

**Grade Placement:** 11-12  
**Credit:** 1  
**Prerequisite:** None  
**Recommended Prerequisites:** Principles of Business, Marketing, and Finance  
In Insurance Operations, students will understand the laws and regulations to manage business operations and transactions in the insurance industry.  
*Note: This course has a competition requirement.*

# Money Matters

**Grade Placement:** 9-12  
**Credit:** 1  
**Recommended Prerequisites:** Principles of Business, Marketing, and Finance  
In Money Matters, students will investigate money management from a personal financial perspective. Students will apply critical-thinking skills to analyze financial options based on current and projected economic factors. Students will gain knowledge and skills necessary to establish short-term and long-term financial goals. Students will examine various methods of achieving short-term and long-term financial goals through various methods such as investing, tax planning, asset allocating, risk management, retirement planning, and estate planning.  
*Note: This course has a competition requirement.*

# STC Introduction to Computing Dual Credit

**Grade Placement:** 9-12  
**Credit:** 1  
**Prerequisite:** Meet South Texas College acceptance criteria  
STC COSC 1301 Introduction to Computing - This is a dual credit course giving students the opportunity to obtain a Business Information Management II high school credit and a South Texas College (STC) COSC 1301 Introduction to Computing college credit. The STC Introduction to Computing course is an overview of computer systems-hardware, operating systems, the internet, and application software including word processing, spreadsheets, presentation graphics, and databases. Current topics such as the effect of computers on society, and the history and use of computers in business, educational, and other interdisciplinary settings are also studied. This course is not intended to count toward a student's major field of study in Business or Computer Science.  
*Note: This course meets the Sharyland ISD district-required Technology Applications credit.*
STC Dual Enrollment Business Administration Academy (DEBAA)  
Course # 1016 & 2016

Grade Placement: 11-12
Credit: 1 per course
Prerequisite: Meet South Texas College acceptance criteria; 2-Year Commitment

This Academy encourages students to consider a Business Administration profession by providing college coursework and opportunities that motivate, educate and prepare them for higher education in the field. Students can do this while completing an Associate of Arts (AS) degree in Business Administration by the end of their senior year in high school. **Note: This program has an STC application process in place.**

The Texas Education Agency (TEA) engaged members of the workforce, secondary education, and higher education to advise on the development of the Programs of Study, including coherent sequences of courses, industry-based certifications, and work-based learning to ensure students are prepared for in-demand, high-skill, and high-wage careers in Texas.

The next few pages outline the Education & Training Program of Study that we offer within our district, which is as follows:

- Teaching & Training
The Teaching and Training program of study prepares CTE learners for careers related to teaching, instruction, and creation of instructional and enrichment materials. The program of study introduces CTE learners to a wide variety of student groups and their corresponding needs. It familiarizes them with the processes for developing curriculum, coordinating educational content, and coaching groups and individuals.

The Education and Training Career Cluster focuses on planning, managing, and providing education and training services and related learning support services. All parts of courses are designed to introduce learners to the various careers available within the Education and Training career cluster.

Successful completion of the Teaching and Training program of study will fulfill requirements of the Public Service Endorsement. Revised – August 2021

## Principles of Education and Training

**TEA # 13014200**  
**Course # 0453**  
**Grade Placement: 9-12**  
**Credit: 1**

Principles of Education and Training is designed to introduce learners to the various careers available within the Education and Training Career Cluster. Students use self-knowledge as well as educational and career information to analyze various careers within the Education and Training Career Cluster. Students will develop a graduation plan that leads to a specific career choice in the student’s interest area.

## Principles of Human Services

**TEA # 13024200**  
**Phased Course Out**  
**Grade Placement: 9-12**  
**Credit: 1**

Principles of Human Services is a laboratory course that will enable students to investigate careers in the Human Services Career Cluster, including counseling and mental health, early childhood development, family and community, personal care, and consumer services. Each student is expected to complete the knowledge and skills essential for success in high-skill, high-wage, or high-demand human services careers.

## Career Preparation I/Extended Career Preparation

**TEA # 12701305**  
**Course # 0531 & 2531**  
**Grade Placement: 11-12**  
**Credit: 3**

**Prerequisite: Successful completion of one or more advanced career and technical education courses that are part of a coherent sequence of courses in a Career Cluster related to the field in which the student will be employed.**

**Corequisites: Career Preparation I.**

Extended Career Preparation provides opportunities for students to participate in a work-based learning experience that combines classroom instruction with business and industry employment experiences. The goal is to prepare students with a variety of skills for a changing workplace. Career preparation is relevant and rigorous, supports student attainment of academic standards, and effectively prepares students for college and career success.

**Note: This course requires a Course Interest Form to be submitted and requires students to have either paid or unpaid employment. The employment site is typically selected by each individual student to ensure it correlates to their specific career interest area. Most employment sites are located out in our surrounding community, but some may be offered within our district.**

## Child Development

**TEA # 13024700**  
**Phased Course Out**  
**Grade Placement: 10-12**  
**Credit: 1**

**Recommended Prerequisite: Principles of Human Services**

Child Development is a technical laboratory course that addresses knowledge and skills related to child growth and development from prenatal through school-age children, equipping students with child development skills. Students use these skills to promote the well-being and healthy development of children and investigate careers related to the care and education of children.

## Human Growth and Development

**TEA # 13014300**  
**Course # 0551**  
**Grade Placement: 10-12**  
**Credit: 1**

Human Growth and Development is an examination of human development across the lifespan with emphasis on research, theoretical perspectives, and common physical, cognitive, emotional, and social developmental milestones. The course covers material that is generally taught in a postsecondary, one-semester introductory course in developmental psychology or human development.
**Instructional Practices**  
*TEA # 13014400  Course # 0556 & 2556*

**Grade Placement:** 11-12  
**Credits:** 2  
**Recommended Prerequisite:** Principles of Education and Training or Child Development  
Instructional Practices is a field-based (practicum) internship that provides students with background knowledge of child and adolescent development as well as principles of effective teaching and training practices. Students work under the joint direction and supervision of both a teacher with knowledge of early childhood, middle childhood, and adolescence education and exemplary educators or trainers in direct instructional roles with elementary-, middle school-, and high school-aged students. Students learn to plan and direct individualized instruction and group activities, prepare instructional materials, develop materials for educational environments, assist with record keeping, and complete other responsibilities of teachers, trainers, paraprofessionals, or other educational personnel.  
*Note: This course requires a Course Interest Form to be submitted.*

---

**Practicum in Education and Training**  
*TEA # 13014500  Course # 0554 & 2554*

**Grade Placement:** 12  
**Credits:** 2  
**Prerequisite:** Instructional Practices  
**Recommended Prerequisite:** Principles of Education and Training or Child Development  
Practicum in Education and Training is a field-based internship that provides students background knowledge of child and adolescent development principles as well as principles of effective teaching and training practices. Students in the course work under the joint direction and supervision of both a teacher with knowledge of early childhood, middle childhood, and adolescence education and exemplary educators in direct instructional roles with elementary-, middle school-, and high school-aged students. Students learn to plan and direct individualized instruction and group activities, prepare instructional materials, assist with record keeping, make physical arrangements, and complete other responsibilities of classroom teachers, trainers, paraprofessionals, or other educational personnel.  
*Note: This course requires a Course Interest Form to be submitted.*

---

**STC Dual Enrollment Teaching Academy (DETA)**  
*Course # 1018 & 2018*

**Grade Placement:** 11-12  
**Credit:** 1 per course  
**Prerequisite:** Meet South Texas College acceptance criteria; 2-Year Commitment  
The Academy encourages students to consider a Teaching profession by providing college coursework and opportunities that motivate, educate and prepare them for higher education in the field. Students can do this while completing an Associate of Arts in Teaching (AAT) degree by the end of their senior year in high school.  
*Note: This program has an STC application process in place.*

Health Science Career Cluster Flowchart

The flowchart that follows depicts the Career and Technical Education courses we offer within the Health Science career cluster. The courses are listed under the pertinent Program of Study (POS) they pertain to. Students are encouraged to select the Program of Study that best matches their college and/or career goals and to complete three or more courses for four or more credits within their selected POS, including one advanced-level course. The advanced-level courses are identified by a red circle on the top-left corner of each course. All of the courses within each of the Programs of Study are also color-coded indicating the recommended grade level students should take them. It is important to note that some courses may have a specific pre-requisite course requirement, which can be seen in the Course Descriptions section below.

The Texas Education Agency (TEA) engaged members of the workforce, secondary education, and higher education to advise on the development of the Programs of Study, including coherent sequences of courses, industry-based certifications, and work-based learning to ensure students are prepared for in-demand, high-skill, and high-wage careers in Texas.

The next few pages outline the Health Science Programs of Study that we offer within our district, which is as follows:

- **Healthcare Therapeutic**
The Healthcare Therapeutic program of study introduces students to occupations and educational opportunities related to diagnosing and treating acute, episodic, or chronic illness independently or as part of a healthcare team. This program of study also includes an introduction to the opportunities associated with providing treatment and counsel to patients as well as rehabilitative programs that help build or restore daily living skills to persons with disabilities or developmental delays.

The Health Science Career Cluster focuses on planning, managing, and providing therapeutic services, diagnostics services, health informatics, support services, and biotechnology research and development. To pursue a career in the health science industry, students should learn to reason, think critically, make decisions, solve problems, communicate effectively, and work well with others.

Successful completion of the Healthcare Therapeutic program of study will fulfill requirements of a Public Service endorsement or STEM endorsement if the math and science requirements are met. Revised – August 2021

FOR ADDITIONAL INFORMATION ON THE HEALTH SCIENCE CAREER CLUSTER, PLEASE CONTACT:
Your Junior High or High School Counselor
Health Science Institute

Sharyland ISD created a Health Science Institute (HSI) to provide students with the educational foundation to be successful in the healthcare professions. Our HSI consists of various on-campus programs as shown on the graphic below. Through collaboration with community and industry partnerships, students will be provided with work-based learning opportunities in addition to a well-integrated curriculum that provides healthcare certifications and post-secondary educational opportunities. Our post-secondary partner in this initiative is South Texas College.

Before choosing a pathway, students are encouraged to think about the medical program they intend to pursue after high school to determine which pathway will be the best match for them. If students are interested in any one of our non-dual credit HSI programs, they will need to submit a Sharyland ISD Course Interest Form when it becomes available. If students are interested in our dual credit HSI program, they will need to submit a Sharyland ISD Course Interest Form and an STC Dual Enrollment Program Application when they become available. It is important to note that the non-dual credit programs consist of high school credit courses, while our dual credit program consist of dual credit coursework from South Texas College. In order for students and parents to be fully aware of how these college credits will transfer and/or impact college/university grade point averages and financial aid eligibility, students are encouraged to call the post-secondary institution in which they intent to enroll into after high school to find out the specific details. Regardless of course/credit transferability, these pathways were built to provide students with the opportunity to gain certificates, certifications, and/or an early start into a college program that will set the foundation for their ultimate career as a medical professional.

The pathways that we have available as part of our Health Science Institute are as follows. Please note that some of these programs or courses may not make in any given year due to low student enrollment.
Health Science Certifications

The table below summarizes the CTE certifications that are offered within the Health Science career cluster, along with the specific course(s) in which each is offered. It is important to note that students must meet specific criteria to qualify to test for these certifications.

Health Science Course Descriptions

**Principles of Health Science**  
TEA # 13020200  
Course # 0900

**Grade Placement:** 9-12  
**Credit:** 1  
The Principles of Health Science course is designed to provide an overview of the therapeutic, diagnostic, health informatics, support services, and biotechnology research and development systems of the health care industry.

**Anatomy and Physiology**  
TEA # 13020600  
Course # 0439

**Grade Placement:** 10-12  
**Credit:** 1  
**Prerequisite:** Biology and a second science credit  
**Recommended Prerequisite:** A course from the Health and Science Career Cluster.

The Anatomy and Physiology course is designed for students to conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Students in Anatomy and Physiology will study a variety of topics, including the structure and function of the human body and the interaction of body systems for maintaining homeostasis.  

*Note: This course can satisfy a science credit requirement for students on the Foundation High School Program. Students are encouraged to meet with their Academic Counselor to ensure they are following the appropriate science course sequence and can apply this course to their science graduation requirements.*

**Anatomy and Physiology Honors**  
TEA # 13020600  
Course # 0438

**Grade Placement:** 10-12  
**Credit:** 1  
**Prerequisite:** Biology and a second science credit  
**Recommended Prerequisite:** A course from the Health and Science Career Cluster.

Anatomy and Physiology Honors course is designed for students to conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. This course is similar to Anatomy and Physiology; however, it incorporates higher-order thinking skills through assessment and synthesis of the anatomical knowledge combined with exposure to clinical analysis and lab work. Students in Anatomy and Physiology Honors will study a variety of topics, including the structure and function of the human body and the interaction of body systems for maintaining homeostasis.  

*Note: This course can satisfy a science credit requirement for students on the Foundation High School Program. Students are encouraged to meet with their Academic Counselor to ensure they are following the appropriate science course sequence and can apply this course to their science graduation requirements.*

**Health Science Theory/Health Science Clinical**  
TEA # 13020410  
Course # 0903 & 2903

**Grade Placement:** 11-12  
**Credits:** 2  
**Prerequisites:** Biology; Principles of Health Science; and Medical Terminology  
**Corequisite:** Health Science Theory

The Health Science Clinical course is designed to provide for the development of advanced knowledge and skills related to a wide variety of health careers. Students will employ hands-on experiences for continued knowledge and skill development. Districts are encouraged to offer this course in a consecutive block with Health Science Theory to allow students sufficient time to master the content of both courses.  

*Note: This course requires a Course Interest Form to be submitted.*
Medical Microbiology

TEA # 13020700
Course # 0907

Grade Placement: 10-12
Credit: 1

**Prerequisites:** Biology and Chemistry

**Recommended Prerequisites:** A course from the Health Science Career Cluster.

The Medical Microbiology course is designed to explore the microbial world, studying topics such as pathogenic and non-pathogenic microorganisms, laboratory procedures, identifying microorganisms, drug resistant organisms, and emerging diseases. Students must meet the 40% laboratory and fieldwork requirement.

*Note: This course can satisfy a science credit requirement for students on the Foundation High School Program. Students are encouraged to meet with their Academic Counselor to ensure they are following the appropriate science course sequence and can apply this course to their science graduation requirements.*

Medical Microbiology Honors

TEA # 13020700
Course # 0909

Grade Placement: 10-12
Credit: 1

**Prerequisites:** Biology and Chemistry

**Recommended Prerequisites:** A course from the Health Science Career Cluster.

The Medical Microbiology course is designed to explore the microbial world, studying topics such as pathogenic and non-pathogenic microorganisms, laboratory procedures, identifying microorganisms, drug resistant organisms, and emerging diseases. This course is similar to Medical Microbiology; however, it incorporates higher-order thinking skills through assessment and synthesis of the presented knowledge combined with exposure to clinical analysis and lab work. Students must meet the 40% laboratory and fieldwork requirement.

*Note: This course can satisfy a science credit requirement for students on the Foundation High School Program. Students are encouraged to meet with their Academic Counselor to ensure they are following the appropriate science course sequence and can apply this course to their science graduation requirements.*

Medical Terminology

TEA # 13020300
Course # 0901

Grade Placement: 9-12
Credit: 1

The Medical Terminology course is designed to introduce students to the structure of medical terms, including prefixes, suffixes, word roots, singular and plural forms, and medical abbreviations. The course allows students to achieve comprehension of medical vocabulary appropriate to medical procedures, human anatomy and physiology, and pathophysiology.

Practicum in Health Science

Medical Billing and Coding Program

TEA # 13020500
Course # 0916 & 2916

Grade Placement: 11 - 12
Credits: 2

**Prerequisites:** Biology; Principles of Health Science; and Medical Terminology; and Health Science Theory

**Recommended Prerequisites:** Anatomy & Physiology

This course is designed to equip students with the knowledge, technical skills, and work habits required for an entry-level position in the medical insurance billing and coding field by offering problem-solving exercises by utilizing real-world scenarios. This course places a strong emphasis on ethics, accountability, professionalism, and the individuals’ commitment to the pursuit of lifelong personal, educational and professional development, as it relates to the medical insurance billing and coding field.

*Note: This course requires a Course Interest Form to be submitted.*
Practicum in Health Science
Pharmacy Technician Program

TEA # 13020500            Course # 0904 & 2904

Grade Placement: 12
Credits: 2

Prerequisite: Biology; Chemistry; Algebra II; Principles of Health Science; and Medical Terminology

This course is designed to equip students with knowledge, technical skills, and work habits required for an entry-level position in the pharmacy field or related area. This course encourages active student participation and may include group discussions and projects, laboratory work, simulations, demonstrations, field trips, guest speakers, and lectures. A strong emphasis is placed on ethics, accountability, professionalism, and the individual’s commitment to pursue lifelong personal and professional development.

Note: This course requires a Course Interest Form to be submitted.

STC Dual Enrollment Medical Science Academy (DEMSA)

Grade Placement: 11-12
Credit: 1 per course

Prerequisite: Meet South Texas College acceptance criteria; 2-Year Commitment

This South Texas College (STC) Dual Enrollment Medical Science Academy (DEMSA) is a two year-round dual enrollment program developed for high school juniors and seniors who are seriously interested in pursuing a career in health care. The purpose of this academy is to increase the number of rural area students committed to careers and service in Medicine, Pharmacy Dentistry, Nursing, Allied Health, and others. This academy is designed to encourage area high school students into the health care professions by providing college coursework and health related opportunities that will motivate, educate, and prepare students for higher education in the field of medicine. With the support of the local health providers, the Dual Enrollment Medical Science Academy will promote and participate in efforts that will reinforce the schools’ and communities’ commitment to prepare students for careers in health care. Contact your school Counselor for more information on how to enroll into this program.

Note: This program has an STC application process in place.

South Texas College General Medical Science Pathway

Grade Placement: 10-12
Credits: Various

Prerequisite: Meet South Texas College acceptance criteria

This pathway enables students to take general pre-requisite coursework that is common to many medical degree programs. Students are encouraged to investigate what exact coursework comprises the bachelor’s degree program they intend to pursue after high school to ensure that the pre-requisite coursework they take as part of this pathway will be applicable. Students are also encouraged to call the post-secondary college or university they intend to enroll into after high school to find out whether the courses they are planning to take as part of this track will be able to transfer into their desired degree program. Contact your school Counselor for more information on how to enroll into this pathway.

Note: This program has an STC application process in place.

The Texas Education Agency (TEA) engaged members of the workforce, secondary education, and higher education to advise on the development of the Programs of Study, including coherent sequences of courses, industry-based certifications, and work-based learning to ensure students are prepared for in-demand, high-skill, and high-wage careers in Texas.

The next few pages outlines the Hospitality & Tourism Programs of Study that we offer within our district, which is as follows:

- **Lodging & Resort Management**
The Lodging and Resort Management program of study introduces CTE learners to occupations and educational opportunities related to the logistical and operational management of lodging and resorts. This program of study also explores opportunities related to human resources, financial analysis, and marketing.

The Hospitality and Tourism Career Cluster focuses on the management, marketing, and operations of restaurants and other food/beverage services, lodging, attractions, recreation events, and travel-related services. Students acquire knowledge and skills focusing on communication, time management, and customer service that meet industry standards. Students will explore the history of the hospitality and tourism industry and examine characteristics needed for success.

Successful completion of the Lodging and Resort Management program of study will fulfill requirements of the Business and Industry Endorsement. Revised – August 2021

Hospitality & Tourism Course Descriptions

Principles of Hospitality & Tourism  
TEA # 13022200  
Course # 0896

Grade Placement: 9-12  
Credit: 1  
Principles of Hospitality and Tourism introduces students to an industry that encompasses lodging, travel and tourism, recreation, amusements, attractions, and food/beverage operations. Students learn knowledge and skills focusing on communication, time management, and customer service that meet industry standards. Students will explore the history of the hospitality and tourism industry and examine characteristics needed for success in that industry.

Career Preparation I/Extended Career Preparation  
TEA # 1270130  
Course # 0531 & 2531

Grade Placement: 11-12  
Credit: 3  
Prerequisite: Successful completion of one or more advanced career and technical education courses that are part of a coherent sequence of courses in a Career Cluster related to the field in which the student will be employed.  
Corequisites: Career Preparation I.

Extended Career Preparation provides opportunities for students to participate in a work-based learning experience that combines classroom instruction with business and industry employment experiences. The goal is to prepare students with a variety of skills for a changing workplace. Career preparation is relevant and rigorous, supports student attainment of academic standards, and effectively prepares students for college and career success.  
Note: This course requires a Course Interest Form to be submitted and requires students to have either paid or unpaid employment. The employment site is typically selected by each individual student to ensure it correlates to their specific career interest area. Most employment sites are located out in our surrounding community, but some may be offered within our district.

Hotel Management  
TEA # 13022300  
Course # 0897

Grade Placement: 10-12  
Credit: 1  
Recommended Prerequisite: Principles of Hospitality and Tourism

Hotel Management focuses on the knowledge and skills needed to pursue staff and management positions available in the hotel industry. This in-depth study of the lodging industry includes departments within a hotel such as front desk, food and beverage, housekeeping, maintenance, human resources, and accounting. This course will focus on, but not be limited to, professional communication, leadership, management, human resources, technology, and accounting.

Hospitality Services  
TEA # 13022800  
Course # 0898 & 2898

Grade Placement: 10-12  
Credit: 2  
Recommended Prerequisite: Principles of Human Services; and Hotel Management

Hospitality Services provides students with the academic and technical preparation to pursue high-demand and high-skill careers in hospitality related industries. The knowledge and skills are acquired within a sequential, standards-based program that integrates hands-on and project-based instruction. Standards included in the Hospitality Services course are designed to prepare students for nationally recognized industry certifications, postsecondary education, and entry-level careers. In addition, Hospitality Services is designed so that performance standards meet employer expectations, enhancing the employability of students. Instruction may be delivered through laboratory training or through internships, mentoring, or job shadowing.
Human Services Courses at a Glance

The table that follows is a summary of the career and technical education courses we offer within the Human Services career cluster.

The flowchart that follows depicts the Career and Technical Education courses we offer within the Human Services career cluster. The courses are listed under the pertinent Program of Study (POS) they pertain to. Students are encouraged to select the Program of Study that best matches their college and/or career goals and to complete three or more courses for four or more credits within their selected POS, including one advanced-level course. The advanced-level courses are identified by a red circle on the top-left corner of each course. All of the courses within each of the Programs of Study are also color-coded indicating the recommended grade level students should take them. It is important to note that some courses may have a specific pre-requisite course requirement, which can be seen in the Course Descriptions section below.

The Texas Education Agency (TEA) engaged members of the workforce, secondary education, and higher education to advise on the development of the Programs of Study, including coherent sequences of courses, industry-based certifications, and work-based learning to ensure students are prepared for in-demand, high-skill, and high-wage careers in Texas.

The next few pages outlines the Human Services Programs of Study that we offer within our district:

- Family & Community Services
### Family and Community Services

The Family and Community Services program of study introduces students to knowledge and skills related to social services, including child and human development and consumer sciences. CTE learners may learn about or practice managing social and community services or teaching family and consumer sciences. Students may follow career paths in social work or therapy for children, families, or school communities.

## Human Services Course Descriptions

### Principles of Human Services  
**Course Code:** TEA # 13024200  
**Grade Placement:** 9-12  
**Credit:** 1  
*Principles of Human Services is a laboratory course that will enable students to investigate careers in the Human Services Career Cluster, including counseling and mental health, early childhood development, family and community, personal care, and consumer services. Each student is expected to complete the knowledge and skills essential for success in high-skill, high-wage, or high-demand human services careers.*

### Career Preparation I/Extended Career Preparation  
**Course Code:** TEA # 12701305  
**Grade Placement:** 11-12  
**Credit:** 3  
*Prerequisite: Successful completion of one or more advanced career and technical education courses that are part of a coherent sequence of courses in a Career Cluster related to the field in which the student will be employed.*  
*Corequisites: Career Preparation I.*  
*Extended Career Preparation provides opportunities for students to participate in a work-based learning experience that combines classroom instruction with business and industry employment experiences. The goal is to prepare students with a variety of skills for a changing workplace. Career preparation is relevant and rigorous, supports student attainment of academic standards, and effectively prepares students for college and career success.*  
*Note: This course requires a Course Interest Form to be submitted and requires students to have either paid or unpaid employment. The employment site is typically selected by each individual student to ensure it correlates to their specific career interest area. Most employment sites are located out in our surrounding community, but some may be offered within our district.*

### Child Development  
**Course Code:** TEA # 13024700  
**Grade Placement:** 10–12  
**Credit:** 1  
*Recommended Prerequisite: Principles of Human Services*  
*Child Development is a technical laboratory course that addresses knowledge and skills related to child growth and development from prenatal through school-age children, equipping students with child development skills. Students use these skills to promote the well-being and healthy development of children and investigate careers related to the care and education of children.*

### Dollars and Sense  
**Course Code:** TEA # 13024300  
**Grade Placement:** 11–12  
**Credit:** .5  
*Recommended Prerequisite: Principles of Human Services*  
*Dollars and Sense focuses on consumer practices and responsibilities, money-management processes, decision-making skills, impact of technology, and preparation for human services careers.*

### Family and Community Services  
**Course Code:** TEA # 13024900  
**Grade Placement:** 10–12  
**Credit:** 1  
*Recommended Prerequisite: Principles of Human Services*  
*Family and Community Services is a laboratory-based course designed to involve students in realistic and meaningful community-based activities through direct service or service-learning experiences. Students are provided opportunities to interact with and provide services to individuals, families, and the community through community or volunteer services. Emphasis is placed on developing and enhancing organizational and leadership skills and characteristics.*
**Human Growth and Development**

<table>
<thead>
<tr>
<th>Grade Placement:</th>
<th>10-12</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credit:</td>
<td>1</td>
</tr>
</tbody>
</table>

Human Growth and Development is an examination of human development across the lifespan with emphasis on research, theoretical perspectives, and common physical, cognitive, emotional, and social developmental milestones. The course covers material that is generally taught in a postsecondary, one-semester introductory course in developmental psychology or human development.

**Interpersonal Studies**

<table>
<thead>
<tr>
<th>Grade Placement:</th>
<th>9–12</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credit:</td>
<td>.5</td>
</tr>
</tbody>
</table>

**Recommended Prerequisite: Principles of Human Services, Principles of Health Science, or Principles of Education and Training**

Interpersonal Studies examines how the relationships between individuals and among family members significantly affect the quality of life. Students use knowledge and skills in family studies and human development to enhance personal development, foster quality relationships, promote wellness of family members, manage multiple adult roles, and pursue careers related to counseling and mental health services.

**Lifetime Nutrition and Wellness**

<table>
<thead>
<tr>
<th>Grade Placement:</th>
<th>11-12</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credit:</td>
<td>0.5</td>
</tr>
</tbody>
</table>

**Recommended Prerequisite: Principles of Human Services; or Principles of Hospitality and Tourism; or Principle of Health Science**

Lifetime Nutrition and Wellness is a laboratory course that allows students to use principles of lifetime wellness and nutrition to help them make informed choices that promote wellness as well as pursue careers related to hospitality and tourism, education and training, human services, and health sciences.

**Professional Communications**

<table>
<thead>
<tr>
<th>Grade Placement:</th>
<th>9–12</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits:</td>
<td>.5</td>
</tr>
</tbody>
</table>

Professional Communications blends written, oral, and graphic communication in a career-based environment. Careers in the global economy require individuals to be creative and have a strong background in computer and technology applications, a strong and solid academic foundation, and a proficiency in professional oral and written communication. Within this context, students will be expected to develop and expand the ability to write, read, edit, speak, listen, apply software applications, manipulate computer graphics, and conduct Internet research.

*Note: This course meets the Sharyland ISD district-required speech credit.*

**STC Professional Communications Dual Credit**

<table>
<thead>
<tr>
<th>Grade Placement:</th>
<th>10–12</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits:</td>
<td>.5</td>
</tr>
</tbody>
</table>

**Prerequisite: TSI complete in Reading and Writing, or equivalent**

**STC SPCH 1311 Introduction to Speech Communication** - This course introduces basic human communication principles and theories embedded in a variety of contexts including interpersonal, small group, and public speaking.

The next few pages outline the Law, Public Safety, Corrections, and Security Programs of Study that we offer within our district, which are as follows:

- Legal Studies
- Law Enforcement
The Legal Studies program of study introduces CTE learners to the occupations and educational opportunities related to representing clients in criminal and civil litigation and other legal proceedings, as well as assisting lawyers and preparing legal documents. This program of study explores possible specializations in a single area of law.

The Law and Public Service Career Cluster focuses on planning, managing, and providing legal services, public safety, protective services, and homeland security, including professional and technical support services. Students will examine the roles and responsibilities of police, courts, corrections, private security, and fire and emergency services.

Successful completion of the Legal Studies program of study will fulfill requirements of the Public Service Endorsement. Revised – August 2021

**Law, Public Safety, Corrections, and Security**

**Course Descriptions**

**Principles of Law, Public Safety, Corrections and Security  TEA # 13029200  Course # 0339**

**Grade Placement:** 9-12  
**Credit:** 1

Principles of Law, Public Safety, Corrections, and Security introduces students to professions in law enforcement, protective services, corrections, firefighting, and emergency management services. Students will examine the roles and responsibilities of police, courts, corrections, private security, and protective agencies of fire and emergency services. The course provides students with an overview of the skills necessary for careers in law enforcement, fire service, protective services, and corrections.

**Business Law  TEA # 13011700  Course # 0544**

**Grade Placement:** 11-12  
**Credit:** 1

Business Law is designed for students to analyze various aspects of the legal environment, including ethics, the judicial system, contracts, personal property, sales, negotiable instruments, agency and employment, business organization, risk management, and real property.

**Career Preparation I/Extended Career Preparation  TEA # 12701305  Course # 0531 & 2531**

**Grade Placement:** 11-12  
**Credit:** 3  
**Prerequisite:** Successful completion of one or more advanced career and technical education courses that are part of a coherent sequence of courses in a Career Cluster related to the field in which the student will be employed.  
**Corequisites:** Career Preparation I.

Extended Career Preparation provides opportunities for students to participate in a work-based learning experience that combines classroom instruction with business and industry employment experiences. The goal is to prepare students with a variety of skills for a changing workplace. Career preparation is relevant and rigorous, supports student attainment of academic standards, and effectively prepares students for college and career success.  
**Note:** This course requires a Course Interest Form to be submitted and requires students to have either paid or unpaid employment. The employment site is typically selected by each individual student to ensure it correlates to their specific career interest area. Most employment sites are located out in our surrounding community, but some may be offered within our district.

**Correctional Services  TEA # 13029700  Course # 0337P**

**Grade Placement:** 10-12  
**Credit:** 1  
**Recommended Prerequisite:** Principles of Law, Public Safety, Corrections, and Security

In Correctional Services, students prepare for certification required for employment as a municipal, county, state, or federal correctional officer. Students will learn the role and responsibilities of a county or municipal correctional officer; discuss relevant rules, regulations, and laws of municipal, county, state, or federal facilities; and discuss defensive tactics, restraint techniques, and first aid procedures as used in the municipal, county, state, or federal correctional setting. Students will analyze rehabilitation and alternatives to institutionalization for inmates.  
**Note:** This course has a competition requirement.
### Court Systems and Practices  
**TEA # 13029600**  
**Course # 0926P**  
**Grade Placement:** 10–12  
**Credit:** 1  
**Recommended Prerequisite:** Law Enforcement  
Court Systems and Practices is an overview of the federal and state court systems. The course identifies the roles of judicial officers and the trial processes from pretrial to sentencing and examines the types and rules of evidence. Emphasis is placed on constitutional laws for criminal procedures such as search and seizure, stop and frisk, and interrogation.  
*Note: This course has a competition requirement.*  

### Criminal Investigation  
**TEA # 13029550**  
**Course # 0932P**  
**Grade Placement:** 10–12  
**Credit:** 1  
**Recommended Prerequisite:** Principles of Law, Public Safety, Corrections, and Security  
Criminal Investigation is a course that introduces students to the profession of criminal investigations. Students will understand basic functions of criminal investigations and procedures and will learn how to investigate or follow up during investigations. Students will learn terminology and investigative procedures related to criminal investigation, crime scene processing, evidence collection, fingerprinting, and courtroom presentation. Through case studies and simulated crime scenes, students will collect and analyze evidence such as fingerprint analysis, bodily fluids, hairs, fibers, shoe and tire impressions, bite marks, drugs, tool marks, firearms and ammunition, blood spatter, digital evidence, and other types of evidence.  
*Note: This course has a competition requirement.*  

### Forensic Science  
**TEA # 13029500**  
**Course # 0906**  
**Grade Placement:** 11–12  
**Credit:** 1  
**Prerequisites:** Biology and Chemistry  
**Recommended Prerequisite or Corequisite:** Any Law, Public Safety, Corrections & Safety Career Cluster course.  
Forensic Science is a course that introduces students to the application of science to connect a violation of law to a specific criminal, criminal act, or behavior and victim. Students will learn terminology and procedures related to the search and examination of physical evidence in criminal cases as they are performed in a typical crime laboratory. Using scientific methods, students will collect and analyze evidence such as fingerprints, bodily fluids, hairs, fibers, paint, glass, and cartridge cases. Students will also learn the history and the legal aspects as they relate to each discipline of forensic science. Scientific methods of investigation can be experimental, descriptive, or comparative. The method chosen should be appropriate to the question being asked.  
*Note: This course can satisfy a science credit requirement for students on the Foundation High School Program. Students are encouraged to meet with their Academic Counselor to ensure they are following the appropriate science course sequence and can apply this course to their science graduation requirements.*
Forensic Science Honors

Grade Placement: 11–12
Credit: 1
Prerequisites: Biology and Chemistry

Recommended Prerequisite or Corequisite: Any Law, Public Safety, Corrections & Safety Career Cluster course.

Forensic Science is a course that introduces students to the application of science to connect a violation of law to a specific criminal, criminal act, or behavior and victim. Students will learn terminology and procedures related to the search and examination of physical evidence in criminal cases as they are performed in a typical crime laboratory with the use of higher order thinking skills and strategies. Using scientific methods, students will collect and analyze evidence such as fingerprints, bodily fluids, hairs, fibers, paint, glass, and cartridge cases. Students will also learn the history and the legal aspects as they relate to each discipline of forensic science. Scientific methods of investigation can be experimental, descriptive, or comparative. The method chosen should be appropriate to the question being asked. Students are expected to work collaboratively as well as individually to reach specific course requirements.

Note: This course can satisfy a science credit requirement for students on the Foundation High School Program. Students are encouraged to meet with their Academic Counselor to ensure they are following the appropriate science course sequence and can apply this course to their science graduation requirements.

Law Enforcement I

Grade Placement: 10–12
Credit: 1

Law Enforcement I is an overview of the history, organization, and functions of local, state, and federal law enforcement. Students will understand the role of constitutional law at local, state, and federal levels; the U.S. legal system; criminal law; and law enforcement terminology and the classification and elements of crime.

Law Enforcement II

Grade Placement: 10–12
Credit: 1

Law Enforcement II provides the knowledge and skills necessary to prepare for a career in law enforcement. Students will understand ethical and legal responsibilities, patrol procedures, first responder roles, telecommunications, emergency equipment operations, and courtroom testimony.

Practicum in Law, Public Safety, Corrections and Security

Grade Placement: 12
Credits: 2

Prerequisite: At Least Two Other Credits from this Career Pathway

The practicum course is designed to give students supervised practical application of previously studied knowledge and skills in law, public safety, corrections, and security. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience. Students are encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations.

Note: This course requires a Course Interest Form to be submitted.
STC Dual Enrollment Criminal Justice Academy (DECJA)  
Course # 1015 & 2015

Grade Placement: 11-12  
Credit: 1 per course  
Prerequisite: Meet South Texas College acceptance criteria; 2-Year Commitment

This South Texas College (STC) Dual Enrollment Criminal Justice Academy (DECJA) is a two year-round dual enrollment program developed for high school juniors and seniors who are seriously interested in pursuing a career in criminal justice. This academy is designed to encourage area high school students into the criminal justice professions by providing college course-work and opportunities that will motivate, educate, and prepare students for higher education in the field of criminal justice. With the support of the local law enforcement professionals, the Dual Enrollment Criminal Justice Academy will promote and participate in efforts that will reinforce the schools’ and communities’ commitment to prepare students for careers in criminal justice. Contact your school Counselor for more information on how to enroll into this program.

Note: This course has an application process in place.

Science, Technology, Engineering & Mathematics (STEM) Career Cluster Flowchart

The flowchart that follows depicts the Career and Technical Education courses we offer within the Science, Technology, Engineering, and Mathematics career cluster. The courses are listed under the pertinent Program of Study (POS) they pertain to. Students are encouraged to select the Program of Study that best matches their college and/or career goals and to complete three or more courses for four or more credits within their selected POS, including one advanced-level course. The advanced-level courses are identified by a red circle on the top-left corner of each course. All of the courses within each of the Programs of Study are also color-coded indicating the recommended grade level students should take them. It is important to note that some courses may have a specific pre-requisite course requirement, which can be seen in the Course Descriptions section below.

The Texas Education Agency (TEA) engaged members of the workforce, secondary education, and higher education to advise on the development of the Programs of Study, including coherent sequences of courses, industry-based certifications, and work-based learning to ensure students are prepared for in-demand, high-skill, and high-wage careers in Texas.

Please note that the Robotics Pathway is not a state-approved Program of Study and is merely a locally-developed sequence of courses. The next few pages outline the Science, Technology, Engineering, and Mathematics Programs of Study that we offer within our district, which are as follows:

- **Engineering**
- **Architectural Design** (This Program of Study pertains to the Architecture & Construction career cluster.)
- **Programming and Software Development**
The Engineering program of study focuses on the design, development, and use of engines, machines, and structures. CTE learners will learn how to apply science, mathematical methods, and empirical evidence to the innovation, design, construction, operation, and maintenance of different manufacturing systems.

The Science, Technology, Engineering, and Mathematics (STEM) Career Cluster focuses on planning, managing, and providing, scientific research and professional and technical services, including laboratory and testing services, and research and development services.

Successful completion of the Engineering program of study will fulfill requirements of the Business and Industry or STEM endorsement if the math and science requirements are met. Revised – August 2021

Your Junior High or High School Counselor
The Architectural Design program of study explores the occupations and educational opportunities associated with developing, engineering, and designing buildings structures and facilities. This program of study may also include exploration into collecting and interpreting geographic information, researching and preparing maps, and interior design.

The Architecture and Construction Career Cluster focuses on designing, planning, managing, building, and maintaining the built environment. Principles of Architecture provides an overview to the various fields of architecture, interior design, and construction management.

Successful completion of the Architectural Design program of study will fulfill requirements of the Business and Industry endorsement or STEM endorsement if the math and science requirements are met. Revised – August 2021

FOR ADDITIONAL INFORMATION ON THE SCIENCE, TECHNOLOGY, ENGINEERING, AND MATHEMATICS CAREER CLUSTER,
PLEASE CONTACT:
Your Junior High or High School Counselor
Sharyland ISD currently offers the Project Lead the Way (PLTW) Engineering pathway. PLTW provides a comprehensive approach to Science, Technology, Engineering, and Mathematics (STEM) education. Through activity-, project-, and problem-based curriculum, PLTW gives students a chance to apply what they know, identify problems, find unique solutions, and lead their own learning. Their engaging, rigorous teacher professional development model provides teachers the tools to empower students and transform the classroom into a collaboration space where content comes to life.

From launching space explorations to delivering safe, clean water to communities, engineers find solutions to pressing problems and turn their ideas into reality. The PLTW Engineering pathway empowers students to step into the role of an engineer, adopt a problem-solving mindset, and make the leap from dreamers to doers. The program’s courses engage students in compelling, real-world challenges that help them become better collaborators and thinkers. Students take from the courses in-demand knowledge and skills they will use in high school and for the rest of their lives, on any career path they take.

If students are interested in enrolling into any of the PLTW Engineering courses, contact your school Counselor to begin the registration process. The course sequence in the Sharyland ISD Project Lead the Way (PLTW) Engineering pathway are as follows:

<table>

| AC/DC Electronics focuses on the basic electricity principles of alternating current/direct current (AC/DC) circuits. Students will demonstrate knowledge and applications of circuits, electronic measurement, and electronic implementation. Through use of the design process, students will transfer academic skills to component designs in a project-based environment. Students will use a variety of computer hardware and software applications to complete assignments and projects. Additionally, students will explore career opportunities, employer expectations, and educational needs in the electronics industry.  
*Note: This course has a competition requirement.* |

<tr>
<td>AP Computer Science Principles introduces students to the breadth of the field of computer science. In this course, students will learn to design and evaluate solutions and to apply computer science to solve problems through the development of algorithms and programs. They will incorporate abstraction into programs and use data to discover new knowledge. Students will also explain how computing innovations and computing systems, including the Internet, work, explore their potential impacts, and contribute to a computing culture that is collaborative and ethical. It is important to note that the AP Computer Science Principles course does not have a designated programming language. Teachers have the flexibility to choose a programming language(s) that is most appropriate for their students to use in the classroom.</td>

Career Preparation I/Extended Career Preparation  TEA # 12701305  Course # 0531 & 2531

Grade Placement: 11-12  
Credit: 3  
Prerequisite: Successful completion of one or more advanced career and technical education courses that are part of a coherent sequence of courses in a Career Cluster related to the field in which the student will be employed.  
Corequisites: Career Preparation I.  

Extended Career Preparation provides opportunities for students to participate in a work-based learning experience that combines classroom instruction with business and industry employment experiences. The goal is to prepare students with a variety of skills for a changing workplace. Career preparation is relevant and rigorous, supports student attainment of academic standards, and effectively prepares students for college and career success.  

Note: This course requires a Course Interest Form to be submitted and requires students to have either paid or unpaid employment. The employment site is typically selected by each individual student to ensure it correlates to their specific career interest area. Most employment sites are located out in our surrounding community, but some may be offered within our district.

Civil Engineering and Architecture  TEA # N1303747  Course # 0914

Grade Placement: 10-12  
Credit: 1  

In this course, students learn important aspects of building and site design and development, applying math, science, and standard engineering practices to design both residential and commercial projects. Students will document designs using 3D architecture design software.

Computer Programming I  TEA # 13027600  Phased Course Out

Grade Placement: 10-12  
Credit: 1  

In Computer Programming I, students will acquire knowledge of structured programming techniques and concepts appropriate to developing executable programs and creating appropriate documentation. Students will analyze the social responsibility of business and industry regarding the significant issues relating to the environment, ethics, health, safety, and diversity in society and in the workplace as related to computer programming. Students will apply technical skills to address business applications of emerging technologies.

Digital Electronics Honors  TEA # 13037600  Course # 0913

Grade Placement: 10-12  
Credit: 1  

From smart phones to appliances, digital circuits are all around us. This course provides a foundation for students who are interested in electrical engineering, electronics, or circuit design. Students study topics such as combinational and sequential logic and are exposed to circuit design tools used in industry including logic gates, integrated circuits, and programmable logic devices.  

Note: This course can satisfy a math credit requirement for students on the Foundation High School Program. Students are encouraged to meet with their Academic Counselor to ensure they are following the appropriate math course sequence and can apply this course to their math graduation requirements.
Engineering Science Honors

Grade Placement: 10-12
Credit: 1
Prerequisite: Algebra I and Biology; and Chemistry, IPC, or Physics
Recommended Prerequisite: Geometry

Engineering Science is an engineering course designed to expose students to some of the major concepts and technologies that they will encounter in a postsecondary program of study in any engineering domain. Students will have an opportunity to investigate engineering and high-tech careers. In Engineering Science, students will employ science, technology, engineering, and mathematical concepts in the solution of real-world challenge situations. Students will develop problem-solving skills and apply their knowledge of research and design to create solutions to various challenges. Students will also learn how to document their work and communicate their solutions to their peers and members of the professional community.

Note: This course can satisfy a science credit requirement for students on the Foundation High School Program. Students are encouraged to meet with their Academic Counselor to ensure they are following the appropriate science course sequence and can apply this course to their science graduation requirements.

Fundamentals of Computer Science

Grade Placement: 9-12
Credit: 1

Fundamentals of Computer Science is intended as a first course for those students just beginning the study of computer science. Students will learn about the computing tools that are used every day. Students will foster their creativity and innovation through opportunities to design, implement, and present solutions to real-world problems. Students will collaborate and use computer science concepts to access, analyze, and evaluate information needed to solve problems. Students will learn the problem-solving and reasoning skills that are the foundation of computer science. By using computer science knowledge and skills that support the work of individuals and groups in solving problems, students will select the technology appropriate for the task, synthesize knowledge, create solutions, and evaluate the results. Students will learn digital citizenship by researching current laws and regulations and by practicing integrity and respect. Students will gain an understanding of the principles of computer science through the study of technology operations and concepts. The six strands include creativity and innovation; communication and collaboration; research and information fluency; critical thinking; problem solving, and decision making; digital citizenship; and technology operations and concepts.

Note: This course can satisfy a science credit requirement for students on the Foundation High School Program. Students are encouraged to meet with their Academic Counselor to ensure they are following the appropriate science course sequence and can apply this course to their science graduation requirements.

Gateway to Technology

Grade Placement: 10-12
Credit: 0.5

The Gateway to Technology (GTT) course incorporates the following two units: (1.) Design and Modeling (DM), and (2.) Automation and Robotics (AR). In Design and Modeling, students apply the engineering design process to solve problems and understand the influence of creativity and innovation in their lives. They work in teams to design a playground and furniture, capturing research and ideas in their engineering notebooks. Using Autodesk® design software, students create a virtual image of their designs and produce a portfolio to showcase their innovative solutions. In Automation and Robotics, students trace the history, development, and influence of automation and robotics as they learn about mechanical systems, energy transfer, machine automation, and computer control systems. Students use the VEX Robotics® platform to design, build, and program real-world objects such as traffic lights, toll booths, and robotic arms.

| **Scientific Research & Design**           | # 13037200  | 0446       |
| **Grade Placement:** 11–12                 |              |            |
| **Credit:** 1                              |              |            |
| **Prerequisite:** Biology, Chemistry, Integrated Physics, and Chemistry (IPC), or Physics |
| Scientific Research and Design has the components of any rigorous scientific or engineering program of study from the problem identification, investigation design, data collection, data analysis, formulation, and presentation of the conclusions. These components are integrated with the career and technical education emphasis of helping students gain entry-level employment in high-skill, high-wage jobs and/or continue their education. Students must meet the 40% laboratory and fieldwork requirement. |
| **Note:** This course can satisfy a science credit requirement for students on the Foundation High School Program. Students are encouraged to meet with their Academic Counselor to ensure they are following the appropriate course sequence and can apply this course to their science graduation requirements. |

| **Scientific Research & Design Honors**    | # 13037200  | 0441       |
| **Grade Placement:** 11–12                 |              |            |
| **Credit:** 1                              |              |            |
| **Prerequisite:** Biology, Chemistry, Integrated Physics, and Chemistry (IPC), or Physics |
| Scientific Research and Design has the components of any rigorous scientific or engineering program of study from the problem identification, investigation design, data collection, data analysis, formulation, and presentation of the conclusions. These components are integrated with the career and technical education emphasis of helping students gain entry-level employment in high-skill, high-wage jobs and/or continue their education. Students must meet the 40% laboratory and fieldwork requirement. This course is similar to Scientific Research and Design; however, it incorporates higher-order thinking skills through assessment and synthesis of the presented knowledge combined with exposure to clinical analysis and lab work. |
| **Note:** This course can satisfy a science credit requirement for students on the Foundation High School Program. Students are encouraged to meet with their Academic Counselor to ensure they are following the appropriate course sequence and can apply this course to their science graduation requirements. |

| **Solid State Electronics**                | # 13036900  | 0919P      |
| **Grade Placement:** 10-12                 |              |            |
| **Credit:** 1                              |              |            |
| In Solid State Electronics, students will demonstrate knowledge and applications of advanced circuits, electrical measurement, and electrical implementation used in the electronics and computer industries. Students will transfer advanced academic skills to apply engineering principles and technical skills to troubleshoot, repair, and modify electronic components, equipment, and power electronic systems in a project-based environment. Additionally, students will explore career opportunities, employer expectations, and educational needs in the electronics industry. Students are encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations. |
| **Note:** This course has a competition requirement. |
### STC Architectural & Engineering Design Technology Program

<table>
<thead>
<tr>
<th>Grade Placement: 11-12</th>
<th>Credits: 1 per course</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Prerequisite:</strong> Meet South Texas College acceptance criteria.</td>
<td></td>
</tr>
<tr>
<td>The purpose of this program is to prepare the students for employment in architectural, visual, and civil engineering technology industries. The student will be required to have an understanding of, but not limited to, the following areas: principles of drafting, architectural drafting, civil drafting, layout and design, application of the latest drawing software programs, current knowledge of building standards and codes, and construction materials and specifications. Refer to the following STC website for a listing of the actual courses in this certificate program: <a href="https://bt.southtexascollege.edu/aedt/">https://bt.southtexascollege.edu/aedt/</a></td>
<td></td>
</tr>
</tbody>
</table>

**Note:** Since the courses under this program are taught by college instructors at the South Texas College Technology Campus, bus transportation will be provided. When courses are offered 1st block, the bus will leave from the high school at 7:30 a.m. therefore, students must be able to commit to arriving early at school in order to board the bus. Personal transportation is allowed pending approval and will be contingent upon obtaining a parking permit from the student’s home campus and STC. Course offerings are dependent on the availability of STC staff, and specific courses will only be offered if the minimum enrollment requirements are met. See your counselor for more detailed information regarding this off-campus program.

### STC Dual Enrollment Engineering Academy (DEEA) Course # 1006 & 2006

<table>

<tbody>
<tr>
<td><strong>Prerequisite:</strong> Meet South Texas College acceptance criteria; 2-Year Commitment</td>
<td></td>
</tr>
<tr>
<td>This South Texas College (STC) Dual Enrollment Engineering Academy (DEEA) is a two year-round dual enrollment program developed for high school juniors and seniors who are seriously interested in pursuing a career in engineering. The purpose of this academy is to increase the number of rural area students committed to careers and service in Manufacturing, Electrical, Industrial Engineering, and others. This academy is designed to encourage area high school students into the engineering profession by providing college course-work and engineering related opportunities that will motivate, educate, and prepare students for higher education in the field of math and science while completing an Associate of Science (AS) degree in Engineering by the end of their high school senior year. With the support of the local engineers, the Dual Enrollment Engineering Academy will promote and participate in efforts that will reinforce the schools’ and communities’ commitment to prepare students for careers in Engineering. Contact your school Counselor for more information on how to enroll into this program.</td>

The flowchart that follows depicts the Career and Technical Education courses we offer within the Transportation, Distribution, and Logistics career cluster. The courses are listed under the pertinent Program of Study (POS) they pertain to. Students are encouraged to select the Program of Study that best matches their college and/or career goals and to complete three or more courses for four or more credits within their selected POS, including one advanced-level course. The advanced-level courses are identified by a red circle on the top-left corner of each course. All of the courses within each of the Programs of Study are also color-coded indicating the recommended grade level students should take them. It is important to note that some courses may have a specific pre-requisite course requirement, which can be seen in the Course Descriptions section below.

The Texas Education Agency (TEA) engaged members of the workforce, secondary education, and higher education to advise on the development of the Programs of Study, including coherent sequences of courses, industry-based certifications, and work-based learning to ensure students are prepared for in-demand, high-skill, and high-wage careers in Texas.

The next few pages outlines the Transportation, Distribution, and Logistics Programs of Study that we offer within our district, which is as follows:

- **Automotive**
The Automotive program of study teaches CTE learners how to repair and refinish automobiles and service various types of vehicles. CTE learners may learn to collect payment for services or supplies and perform typical vehicle maintenance procedures such as lubrication, oil changes, installation of antifreeze, or replacement of accessories like wiper blades or tires.

Successful completion of the Automotive program of study will fulfill requirements of the Business and Industry Endorsement. Revised – August 2021

The South Texas College (STC) Automotive Technology program is designed to prepare students for employment in the high technology automotive service industry. Students will gain knowledge in automotive air conditioning, electrical systems, fuel injection, transmissions and transaxles, engine performance, brake systems, steering and suspension systems, and computerized automotive control systems. Emphasis will be placed on hands-on learning in the labs to develop diagnostic and troubleshooting skills, as well as repair procedures. After graduating from high school, students are encouraged to continue with STC to finish the coursework for either the certificate of Associate's degree programs. Graduates of the Automotive Technology program are typically placed in dealerships, independent garages and specialty automotive repair facilities. Courses taken for completion of the Certificate Program can be applied toward completion of the Associate of Applied Science Degree in Automotive Technology. Contact your school Counselor for more information on how to enroll into this program.

Note: Since the courses under this program are taught by college instructors at the South Texas College Technology Campus, bus transportation will be provided. When courses are offered 1st block, the bus will leave from the high school at 7:30 a.m. therefore, students must be able to commit to arriving early at school in order to board the bus. Personal transportation is allowed pending approval and will be contingent upon obtaining a parking permit from the student’s home campus and STC. Course offerings are dependent on the availability of STC staff, and specific courses will only be offered if the minimum enrollment requirements are met. See your counselor for more detailed information regarding this off-campus program.

Extended Career Preparation provides opportunities for students to participate in a work-based learning experience that combines classroom instruction with business and industry employment experiences. The goal is to prepare students with a variety of skills for a changing workplace. Career preparation is relevant and rigorous, supports student attainment of academic standards, and effectively prepares students for college and career success.

Note: This course requires a Course Interest Form to be submitted and requires students to have either paid or unpaid employment. The employment site is typically selected by each individual student to ensure it correlates to their specific career interest area. Most employment sites are located out in our surrounding community, but some may be offered within our district.
