

MISD Parents/Guardians,

The district has purchased a limited number of wireless T-Mobile hotspot devices. The intention of this purchase is to provide our currently enrolled students the ability to access online educational resources while working and learning at home during the school year. Each hotspot device will be provided free of charge to the student. The bandwidth provided is unlimited with no data cap.

If you are the parent/guardian of a student who does not have adequate Internet access at home you may complete the online Hotspot Request Application to request a device. The district will review and evaluate all requests submitted. Priority will be given to those parents who have more than one student in their household. The district will send applicants an email regarding the status of their request.

The Hotspot Use Agreement is below. Please read through the Agreement to understand the responsibilities that come with using the device. To complete the online Hotspot Request Application, visit... <https://bit.ly/33DIkDI>

HOTSPOT USE AGREEMENT | GUIDELINES

REQUEST HOTSPOT

The parent/guardian of the student must submit an application requesting to receive a hotspot device. The district will review applications submitted and determine the need for the device. Only one hotspot device per household will be distributed for a specific time period.

CONTENT FILTER

The T-Mobile hotspot device uses a CIPA-compliant Internet content filter to prevent access to material that may be inaccurate and/or objectionable. The hotspot content filter will work alongside the district's web filter on student chromebooks. To fully ensure student protection while browsing the Internet, the parent/guardian should monitor student activity.

DEVICE USE & RESPONSIBILITY

The hotspot device remains the property of McGregor ISD and is to be used for instructional purposes only. The parent/guardian and student(s), to which the device was issued, will be fully responsible for the care and use of the device. Do not place stickers/decals or write on the device. A replacement fee of \$75 will be paid to the district should the device be lost, stolen, damaged, or not returned to the district. Failure to return the device to the district upon request will be considered an unlawful appropriation of the district's property. Loss or theft of the device must be reported immediately to the MISD Tech Department (254-840-2828). Devices that fail to work properly should be taken to the campus office so the issue can be resolved. Do not take any district-owned device to an outside vendor for any type of repair or maintenance.

RETURNING HOTSPOT

The hotspot device and charger must be returned to the district upon request. Students will not be allowed to keep their hotspot during the summer months. Students that are withdrawing from MISD must turn in their device. Any device not turned in will be considered stolen property.
