**New Business:**

Chris Horan (communications consultant) has advised that the committee wait until a new superintendent is in place before proceeding further with creation/refinement of a communication plan. All committee members agreed that this would be in the best interests of all.

The committee engaged in a rich discussion of how to create better communication going forward, including educating the incoming committee members and the community at large of the role of the SC in the district, the roles of the Superintendent and central offices, the pathways for parents to get information that they need, have questions answered, etc. Possible avenues for this education could include a brief description in the individual School Handbooks, reminding attendees at the start of each meeting the role of the SC, reminders and links to information on the website, etc. The committee agreed that when the new members come on board in May/June and at the start of the next school year would be good times to begin to implement these changes.

**.Items for Next/Future Agendas**

**Adjourn:** Mr Horesh moved to adjourn at 8:41 PM.
