SUPERINTENDENT’S RECOMMENDATION: It is recommended that the board appoint the individuals named above to the Sierra Sands Unified School District Career Technical Advisory Committee for the 2012-2013 school year.

6. EDUCATIONAL ADMINISTRATION

6.2 Report to the Board: Overview of the Sierra Sands Academic Performance Index (API) and Adequate Yearly Progress (AYP) with Results and Analysis of the STAR Testing Program for Spring 2012

BACKGROUND INFORMATION: The Public Schools Accountability Act (PSAA) was signed into law in California in April of 1999. This law authorized the establishment of the first statewide accountability system for California Public schools. A major component of this accountability system is the Academic Performance Index (API), which is the cornerstone of the Public Schools Accountability Act. The API is used to rank the academic performance of schools, set targets for growth, and monitor progress over time.

The No Child Left Behind Act of 2001, which reauthorized the federal Elementary and Secondary Act (ESEA), requires all districts and schools to demonstrate Adequate Yearly Progress, with an eventual goal that 100 percent of all students will be proficient or above in reading/ language arts and mathematics by 2013-2014. Beginning in 2003, California public schools came under both the state and the federal accountability system outlined in *No Child Left Behind* (NCLB).

To meet NCLB requirements in California, it was determined that the new federal AYP requirements would be added to the current state school accountability system that was established by state law in 1999. Both the Academic Performance Index (API) and Annual Yearly Progress (AYP) are reported each fall in the Accountability Progress Report. Teachers, parents, and administrators use these test results to monitor school and student progress. The results are used in combination with other indicators of student achievement to help make decisions about ways to improve student learning and school programs.

CURRENT CONSIDERATIONS: The California Department of Education released the Accountability Progress Report on October 11, 2012 which includes both API and AYP results from spring 2012. Schools and districts are required to meet criteria outlined in the two accountability systems, state (API) and federal (AYP) each year. Criteria include meeting proficiency rates in English language arts and mathematics (AMO), participation rates, an annual API target, and graduation rate for all student groups.

Due to the outstanding performance by all of our schools this past spring, the district showed double digit growth for 2012 increasing its API by 18 points, from 789 to 807. Every elementary school, one middle school, and the district have exceeded the state API target of 800 with the other two schools very close to the target. Due to small size, Rand does not post performance data and Mesquite meets accountability requirements specific to alternative schools.

The district, and all elementary schools, receive Title 1 funds and must meet federal accountability requirements. Under these requirements, the district and one elementary school have progressed to Year 2 of Program Improvement. Due to outstanding performance by Faller and Inyokern, these two schools will freeze at Year 1 Program Improvement. Pierce did not meet one of its subgroup criterion in math and will enter Year 1 Program Improvement. Gateway and Las Flores did not meet all AYP math criteria this past spring and must demonstrate significant growth in this specific area; otherwise, they will enter Year 1 of Program Improvement next fall. Our secondary schools do not receive Title 1 funds; however, their performance impacts the district's federal accountability status. All secondary schools showed double digit growth with Murray meeting all AYP criteria.

An overview of data and requirements for addressing this federal status will be shared tonight in the presentation.

FINANCIAL IMPLICATIONS: None

SUPERINTENDENT'S RECOMMENDATION: The Assistant Superintendent of Curriculum/ Instruction and Coordinator of Special Projects will provide a summary report of this data for the board. This item is presented for information only.

-

BACKGROUND INFORMATION: California Education Code 35186 specifies that a school district shall report summarized data on the nature and resolution of all complaints on a quarterly basis to the county superintendent of schools and the governing board of the school district. The summaries shall be publicly reported on a quarterly basis at a regularly scheduled meeting of the governing board of the school district. The report shall include the number of complaints by general subject area with the number of resolved and unresolved complaints. The complaints and written responses shall be available as public records.

This procedure is intended to address all of the following:

(1) A complaint related to instructional materials as follows:

(A) A pupil, including an English learner, does not have standards-aligned textbooks or instructional materials or state adopted or district adopted textbooks or other required instructional material to use in class.

(B) A pupil does not have access to instructional materials to use at home or after school in order to complete required homework assignments.

(C) Textbooks or instructional materials are in poor or unusable condition, have missing pages, or are unreadable due to damage.

(2) A complaint related to teacher vacancy or misassignment as follows:

(A) A semester begins and a certificated teacher is not assigned to teach the class.

(B) A teacher who lacks credentials or training to teach English learners is assigned to teach a class with more than 20 percent English learner pupils in the class. 12.2 Report to the Board on Solid Waste Hauling Services

BACKGROUND INFORMATION: In accordance with Public Resource Code 40059, at the August 18, 2011 board meeting, the district utilized Resolution #4 1112 to authorize a short-term contract for solid waste services while it reevaluated the district needs and went for bid for a solid waste hauling contract. This action was precipitated by the fact that the solid waste hauling service arrangement that was in place was due to expire on September 2, 2011 and the outcome of service provision was uncertain at the time and likely to remain so by the expiration date. This necessitated a short-term contract for service while the district pursued the bid process.

CURRENT CONSIDERATIONS: The district has concluded a short-term contract with Benz Sanitation, Inc. The district has been pleased with the service provided.

FINANCIAL IMPLICATIONS: The district is in the process of evaluating its solid waste hauling service requirements and is also developing specifications so that it can publically request formal proposals for these services from all qualified providers.

SUPERINTENDENT'S RECOMMENDATION: There is no action required at this time. This item is provided for information only.
