New Business:

Policy Board needs to revisit and update bylaws. Rather than completing this task during board meetings, a subcommittee will be formed to complete review and analysis which can then be shared with the larger group at a later date.

Policy Board engaged in an analysis of the new teacher seminar series. This series is volitional; however, series sessions are well attended. Sessions include formative assessment, differentiation, creating reflective practices, disciplinary practices, and reflecting on data. Policy board members analyzed the current programming within the district and reflected upon what was/would have helpful as first-year teachers. Laura also shared feedback from feedback forms after completing the courses within the seminar series.

Laura shared the data from the TLC Needs Assessment Snapshot. PB utilized the chat feature to discuss the data in order to inform what professional learning should be included in next year's grant.

Meeting dismissed at 4:31pm.
